TO THEATRES OF  
ST. JOHN

ST. JOHN WILL LOVE  
DADDY LONG LEGS

Next Week's Sweet Play Will  
Have Capacity Houses—Large  
Advance Sale

Daddy Long Legs, which, under the direction of Henry Miller, will be presented for the first time in this city, at the Imperial Theatre, on Tuesday and Wednesday, has toured the larger cities of the United States and Canada for the past five years. The play is a dramatic version of Jean Webster's famous "Daddy Long Legs" letters and the story tells of the adventures of a pretty girl in a New England orphan asylum, who rebels against the tyranny of the head of the institution. Her spirited outbreak

is overheard and approved by a middle aged philanthropist, who determines to give the girl the chance in life that has been denied her and the condition imposed is that the girl is not to know even the name of her benefactor. Now knowing his name and catching a glimpse of his elongated shadow, she nicknames him "Daddy Long Legs". The letters of the girl reveal to him the pathetic yearning for someone to whom she can pour out the wonderful happiness that has come into her life and he determines to visit his interesting friend. With their meeting begins the appealing story. See what Jewel Carmen does in William Fox's photograph, "The Bride of Fear," to be shown at the Gem this afternoon at 2.30, tonight at 7.15 and 8.45, and on Monday and Tuesday. Also "The Eagle's Eye," episode No. 11; "The Burning of Hopewell, Virginia," a big seven-reel programme, five and ten cents.

GEN'S NEW BILL

If you had married a man who turned out to be a thief, and learned later that he had died, and if you had become engaged to the son of a wealthy man, how would you feel if the crook suddenly appeared on the scene of your new-found happiness? See what Jewel Carmen does in William Fox's photograph, "The Bride of Fear," to be shown at the Gem this afternoon at 2.30, tonight at 7.15 and 8.45, and on Monday and Tuesday. Also "The Eagle's Eye," episode No. 11; "The Burning of Hopewell, Virginia," a big seven-reel programme, five and ten cents.

IT'S SOME WORD NOW.

A Short Adjective That Has Come Into Its Own Over Here.

The recent vogue of the word "some" as an adjective, in a sense for which there is absolutely no synonym in the dictionary, has been the despair of many a parent and pedagogue, according to Harold Goddard in The Atlantic. "The language is being impoverished," they cry. Nonsense. It would be nearer the mark to say it is being vitalized, because a healthy school boy when he tells you he has just come from "some" ball game, and you will perceive that the offending word has ceased to be a mere linguistic sign and has become a kinetic current within the body, a movement of the spirit. Some word, it! A true sup-erword in fact.

Philosophize on it—and on the kindred subject of slang—and you may discover why, when a man's vocabulary begins to expand, his powers of expression are generally on the wane.—Newark News.

"What's this story about Mrs. De Style's bathing suit?" asked the society editor. "Nothing to it," said the city editor with his usual crude wit.

Notice of Births, Marriages and Deaths, 50c.

DEATHS

LEONARD—In this city, on the 24th inst., Elizabeth, wife of Francis Leonard. Funeral Monday morning from No. 9 Carden street to Cathedral for requiem high mass at 8.15.  
KELLY—At the General Public Hospital, on the 23rd inst., Henry J. Kelly, leaving his wife, two sons and one sister to mourn.  
Chatham and Boston papers please copy.  
Funeral Sunday at 2.30 o'clock from his late residence, 15 Brook street. Friends invited to attend.  
BOYER—At the residence of her son-in-law, F. W. Wallace, Sussex, on Aug. 22, Elizabeth, widow of John C. Boyer, formerly of this city, in her eighty-third year, leaving two sons and four daughters to mourn.  
Funeral on Saturday at two o'clock. Interment in Sussex.

USE THE WANT AD. WAY

Millions For The Soldier; Nothing For The Sailor

ST. JOHN WILL BE REMINDED OF THIS FACT THURSDAY, SEPTEMBER 5TH

Practically All So Far Has Been For The Army—How About The Men Of The Sea?—Citizens Think It Over and Have Answer Ready on The Above Date

When Lloyd George made his memorable speech in the House of Commons on August 8, he took occasion to remind the world that "the British fleet stands as the first bulwark of the Allies." Of course, this is not a new statement. All know and fully realize it, but a form of practical appreciation will be possible soon in which every citizen, from the youngest school child to the wealthiest business man, can participate.

"EVERYTHING IS DONE FOR THE SOLDIERS," said a young Canadian naval recruit with a tinge of bitterness. "SMOKES FOR THE SOLDIERS, COMFORTS FOR THE SOLDIERS. DO YOU EVER HEAR OF SMOKES FOR THE SAILORS?"

What is being done for the wounded and disabled Canadian and British sailors of the navy and mercantile marine? While Canada has no Dreadnaughts or cruisers, her shores have been protected by the British navy at the expense of the British taxpayers. Locally, hundreds of thousands of dollars have been raised for the army, but September will represent practically the first day that an appeal has been made directly and exclusively for the navy, without which Canada would now unquestionably be under German rule.

St. John citizens young and old, under the leadership of strong committees of ladies and gentlemen, will give thousands, yes, tens of thousands on Wednesday, September 5, when their attention has been drawn to the great need and lack of attention given to same in the past. All should bear in mind that Wednesday, September 5, is Navy League Day, and on that day every Canadian is giving the best of their means, from the widow's mite to the thousands, in aid of this great cause. LET THERE BE NO SLACKERS.

LOCAL NEWS

Miss Jennie McLaughlin has returned from the military openings in New York.

Moonlight and a dance at the pavilion, Public Landing, this evening.

Young men with talent for drawing should read our "art prospects," cartooning, illustrating, designing, can be successfully learned by efficient home study method. Ask or write for information—The International Correspondence Schools, 8 Sydney street, St. John, N. B.

Mrs. O. D. Thomson will leave this evening for Toronto to visit her daughter, Mrs. Cecil Norman.

Miss Grace O. Robertson, secretary of the Associated Charities, will leave this evening for Coleville, Pa., to visit her sister, Mrs. John W. Clawson.

Mr. and Mrs. Simon Jones and family have returned to their pleasant fishing trip lasting one month at Bonaventure, Quebec. They were accompanied by Master Thos. Skelton.

Premier Borden was expected in Ottawa today.

Hon. C. W. Robinson of Moncton (N.B.), accompanied by his wife, was in the city yesterday to take part in welcoming Prince Arthur of Connaught.

John S. Leighton of Woodstock, was in the city yesterday.

Hon. Robert Murray of Chatham (N.B.), was in the city yesterday.

Dr. W. S. Carter, chief superintendent of education for New Brunswick, came in on the Boston train last evening.

Mr. and Mrs. John Russell announce the engagement of their daughter, Miss Helen Russell, to Mr. Kenneth I. Campbell, son of Mr. and Mrs. G. Wilfred Campbell, the marriage to take place in September.

Miss Jean Lordly, Elliott row, will leave for Fredericton tonight on vacation trip.

CASTOR BEANS IN TEXAS.

It is shown by a survey that has just been made of the castor bean crop in Texas by representatives of the United States department of agriculture that there are more than 18,000 acres in cultivation, and that a good yield of the beans is promised. In the more southern part of the state harvesting the crop will be started soon. The government will take over the entire production of motor oil produced from the beans. The success that has been met with in growing castor beans in this state shows that the soil and climate are splendidly adapted to the new industry, the government experts say, and there promises to be a big increase in the acreage next year.

WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Maritime provinces forecast: Moderate to fresh southwest to west winds, few scattered showers, but generally fair and warm today and most of Sunday.

Son—Paw, what is a pessimist?  
Paw—A man who takes an umbrella along to a ball game, son.—London Advertiser.

OUTPUT OF COAL IS LOWER IN THE WEST

Some Alberta Mines on Reduced Production—Temporary Shutdowns.

In the Edmonton district of the Alberta coalfields the mines have been running on low output recently. The Humberstone Mine, which has been producing 550 to 600 tons a day out of a total capacity of 1,000 tons, had to shut down for a week recently on account of lack of orders. Unwarranted reports that anthracite would be shipped to Manitoba from the east caused a falling-off in orders. It was stated by mining men. The deputy fuel controller denied the authenticity of the decision that anthracite would not be shipped to the west. The mining industry of the west has suffered considerable damage as a result of the conflicting reports, as consumers had held off from ordering west in the expectation of securing an anthracite. The lack of orders has had an unfavorable effect on the industry, causing shutdowns. The facts of the case are that no coal will be shipped from the East, for any point except Winnipeg, and even this city will receive very little.

BRITAIN BOBS UP AGAIN

(From the New York Herald.)

Wherever the Germans in this war have made a move, political or military, they have found themselves opposed by the British. At the beginning their mercantile marine was blocked by the British fleet; the contemptible "little army" of Lord Kitchener saved Northern France and Belgium; British submarines were in the Baltic and British planes were in the air. When the Germans made their irruption into Italy last year British air, land and sea forces rushed to her defence. Like a good player, Britain has thwarted every move of the Germans on the chess board of the world. Now an Associated Press dispatch from London announces that a British force from Northwestern Persia has reached the Caspian Sea and taken over a part of the defences of Baku. This is the centre of the great oil region of Russia. Half a century ago the oil rising from the ground was burned in temples as a holy fire, carefully attended by native priests. But when American discoverers taught the value of the new product, the temples came down and were sunk. Their output, at the first second, has for years held third place. By the Brest-Litovsk treaty the Bolsheviks knew exactly where the oil fields were, and they have been able to hand over this valuable territory to Turkey. The Germans knew full well that while the Turks might be nominally masters of the country they themselves would be the owners of the rich product of the oil wells, so essential in modern military and naval warfare. The game was quite safe. The Turks had killed all the Armenians and there was no one to prevent Germany getting the oil. Suddenly Britain bobs up again and calls a check on the Germans' scheme of plunder. It seems the Armenians are not all killed, and the British have come to help them defend their land. This force most probably came up from the expedition in Mesopotamia and is marching on Mosul, or possibly proceeded overland from India through Afghanistan. In either case it puts a damper on the German dream of conquest in the Orient and is fair notice that any scheme of peace which proposes concession in the west is a free hand in the east will not receive a moment's consideration.

A Chinese contingent on the way to join the Allies. Vladivostok has reached Mukden, Manchuria.

St. Theodore Morison, member of the council of the American League of Nations, has reached East Africa an Indian colony.

MR. BAUFORD'S CHARACTERISTICS

In consulting Mr. Bauford on his seventeenth birthday it is interesting to glance back and note how enduring have been his characteristics as a politician and a man. It was very many years ago that Dr. Howett, the famous Master of Balliol, wrote of him: "Mr. Bauford seems to me to be one of the first men of the day. He has so much courage and readiness, and such an indifference to what is said of him. I suppose that his defect may be some want of sympathy, which is a great loss in a politician." The recipient of that confidence was the lady who is now Mrs. Asquith.

AMERICANS WISH TO SECURE DATA

Formation of Chamber of Commerce For Canada Favored in U.S.

Formation of a chamber of commerce for Canada is being proposed by business men of the United States as a step that would result in great benefit to both the United States and this country as well. Business relations of both countries are in need of co-relation, according to views expressed by friendly critics on either side of the boundary line. The extensive trade being transacted with Americans makes it a matter of extreme importance to acquaint the business men and legislators of that country with the development of the Dominion that has taken place in the last decade.

"I am aware of the powerful alliance that would be formed between Canada and the United States if there was a recognized chamber of commerce of Canada," said the secretary of the board of trade of the development of the Dominion that has taken place in the last decade.

The "ultimate consumer" of securities knows little about the astounding changes wrought through colonization of the western provinces since 1805, says the New York Commercial in a leading article, in which the formation of a chamber of commerce is advocated as being in the interests of both peoples. Want Knowledge of Canada.

"Besides the size and stability of the cities which have grown up, the amount of all this property in those states, the potential wealth of all the territory round about and other facts are not generally known," says the Commercial.

On the other hand, political relations of Canada and the financing done for her by Great Britain in the past would naturally diminish the interest of Canadians as to the United States.

"Moreover, the food problem demands a great increase of crop acreage on this continent during the next few years, and the available acreage is to be found in the largest amount north of the boundary, rather than south of it. Colonization of that land, to make it productive, will be one of the important needs recognized on both sides of the international boundary.

"This being the case, the steps taken to increase the readiness with which colonization is undertaken and which the fear of deception have created an other great problem for which a solution has been proposed in Canada, that of requiring from the owners of all idle land a price at which they will sell.

"The food problem is only one of many in which the central agency is a chamber of commerce, which will serve a most important purpose, say many competent critics."

MAY PICK-PERSHING TO INVADEN GERMANY

The indications are that it will fall to General Pershing's first American army to strike the initial blow in an effort to invade Germany.

Nobody in Washington knows exactly where the first blow will fall, but it will be in the range of heavy American guns. Little south American troops have been on German soil.

General Pershing will be guided wholly by the decision of Marshal Foch in attempting any major movement.

The fact that American troops already are in force on the Alsace-Lorraine front and are holding the lines it is the assurance that to General Pershing will fall the task of winning back the lost provinces for France with Allied assistance.

From the outset American military experts have felt that victory must be won on the western front. This does not mean that the Allies and America will neglect an opportunity to smash the Austro-Hungarian army. It does mean that Germany must be beaten where the Kaiser is strongest, so that he will not be able to say in the future the war ended because Germany's allies failed her.

When General Pershing, acting in close co-operation with the British and French forces, starts a major offensive it is predicted that the fighting will reach German soil at many points. The German people are destined to see for themselves in the not distant future whether American soldiers can fight.

EARL DUNMORE AT BAR HARBOR

A large and enthusiastic audience, which filled the Casino at Bar Harbor, Me., to the doors was present on Sunday evening to hear Earl Dunmore and Albert Noyes. This patriotic meeting was arranged to mark Great Britain's entry into the fourth year of the world war. The Meyer-Davis orchestra gave some very appropriate selections which were thoroughly enjoyed. George Harris, Jr., sang "The Star Spangled Banner." Earl Dunmore rehearsed in an interesting manner the events of the past three years of war and gave some graphic descriptions of the war zone he has observed. He also explained the indefatigable efforts which England has exercised in this war to save the world from the Monster. Mr. Noyes, who is well known to Bar Harbor people, was given an ovation when he greeted his audience and kept everyone interested while he told his experiences and observations while in England and France. Mr. Noyes also read several of his own poems which are very descriptive and far-reaching in meaning. He was especially for this meeting by Theodore Roosevelt was read and received the heartiest applause. The evening's programme closed with the singing of the Star Spangled Banner in unison by the assembly.

In an eloquent manner which showed the strength of his convictions, Prof. J. Dwyne Prince, professor of the Slavonic Languages at Columbia university, addressed a large group of Red Cross workers and many who came in for the talk, at the high school on Saturday morning. Prof. Prince explained at length the truth about these Czechoslovaks, who, although under the Austrian rule, are far from being in sentiment with the German domination. Prof. Prince told of the gallantry of these sturdy men, some of which are prisoners in Russia this very day, as desperately fighting their way to Vladivostok in an effort to sail for France.

Colonization of that land, to make it productive, will be one of the important needs recognized on both sides of the international boundary.

"This being the case, the steps taken to increase the readiness with which colonization is undertaken and which the fear of deception have created an other great problem for which a solution has been proposed in Canada, that of requiring from the owners of all idle land a price at which they will sell.

"The food problem is only one of many in which the central agency is a chamber of commerce, which will serve a most important purpose, say many competent critics."

AMERICANS WISH TO SECURE DATA

Formation of Chamber of Commerce For Canada Favored in U.S.

Formation of a chamber of commerce for Canada is being proposed by business men of the United States as a step that would result in great benefit to both the United States and this country as well. Business relations of both countries are in need of co-relation, according to views expressed by friendly critics on either side of the boundary line. The extensive trade being transacted with Americans makes it a matter of extreme importance to acquaint the business men and legislators of that country with the development of the Dominion that has taken place in the last decade.

"I am aware of the powerful alliance that would be formed between Canada and the United States if there was a recognized chamber of commerce of Canada," said the secretary of the board of trade of the development of the Dominion that has taken place in the last decade.

The "ultimate consumer" of securities knows little about the astounding changes wrought through colonization of the western provinces since 1805, says the New York Commercial in a leading article, in which the formation of a chamber of commerce is advocated as being in the interests of both peoples. Want Knowledge of Canada.

"Besides the size and stability of the cities which have grown up, the amount of all this property in those states, the potential wealth of all the territory round about and other facts are not generally known," says the Commercial.

On the other hand, political relations of Canada and the financing done for her by Great Britain in the past would naturally diminish the interest of Canadians as to the United States.

"Moreover, the food problem demands a great increase of crop acreage on this continent during the next few years, and the available acreage is to be found in the largest amount north of the boundary, rather than south of it. Colonization of that land, to make it productive, will be one of the important needs recognized on both sides of the international boundary.

"This being the case, the steps taken to increase the readiness with which colonization is undertaken and which the fear of deception have created an other great problem for which a solution has been proposed in Canada, that of requiring from the owners of all idle land a price at which they will sell.

"The food problem is only one of many in which the central agency is a chamber of commerce, which will serve a most important purpose, say many competent critics."
