ONTARIO. Toronto, Oct. 24.-The appointment of G. F. Marter, M. L. A., North Toroto, as leader of the conservative opposition is looked upon as wise a step as could be made under existing circumstances. Listowel, Ont., Oct. 25.—There is a growing suspicion that if Chattelle is the man who murdered Jessie Keith. he is none other that Jack the Ripper. the fellow who committed the horrible Whitechapel murders some years ago. Chattelle says he has been a sailor and that he left the sea two or three years ago. From an investigation by the police of Scotland yard, it was demonstrated that "Jack the Ripper" was a sailor and a foreigner. Another coincidence is that Jessie Keith had not been subjected to any outrage before or after death. The assassin had killed and mutilated her by removing some of the organs of her body. This was also a character-

istic process of the Whitechapel fiend. Brampton, Ont., Oct. 28.—There was quite a sensation in the store of E. O. Emerson. The amaigamation of the Canada Northwest Land Co. and the C. P. R. land department is regarded as an important move. The Canada Northwest company have about 2,000,000 acres of farm land and are interested in one hundred town sites between Brandon and the Rocky Mountains. One great benefit that will result is the extensive advertising the C. P. R. can give the lands, as the railway company spends about a quarter of a million dollars each year in advertising in Canada, the United States, and Europe. The case is most peculiar and mysterious. The grain firm sent by the Northern Pacific Express to their agent at Wawanesa \$2,000, with which to make wheat purchases. Their agent visited the Wawanesa express office, signed the express agent's receipt book for the money package, but it then being late at night says he did not take the money away with him. The N. P. DIED STANDING ON HIS FEET.

About an hour before sunset last evening, Mary Gunsoly, a servant in the employ of John Roach, a farmer drive up the cows. Middletown Argus of November 4th, morning. 1892—an American newspaper. Now let us see what lessons the untimely demise of poor Pat Burke has for some other people who, no doubt,

fancy themselves safe from such a sudden taking off. Mr. Thomas Hatt of Widmere End, High Wycombe, Bucks, was a healthy enough man up to April, 1886. Then he began to weaken and fail. Why he should be ill he couldn't conjecture. So far as he could remember he had done nothing to bring it on. He felt surprised, as a man does at receiving an unexpected blow from behind. His hands and feet were cold and clammy, and he broke out into cold sweats. Dark spots were all the time floating before his eyes, his appetite left him, and when he did eat anything it lay upon him heavy and dull, and seemed to cause a gnawing, grinding pain. "After a time," says Mr. Hatt, "I had pain and palpitation at the heart, which I was told was heart disease.

At night my heart would thump so hard I could not get to sleep; it pounded like a muffled drum. After a while the heart trouble got so bad I was afraid to go to bed, and used to sit up nearly all night long. Later on I became so melancholy and nervous that I trembled from head to foot as I went about. I worked a little when I was able, but was always in pain. A doctor in Frogmoor Gardens treated me for some time, but gave me no relief. I thought I might die any day, for I looked upon my complaint as heart disease. I seemed to be walking in darkness on a narrow footpath be-

tween life and death. "Yet the days, weeks and months dragged by; I could only wait. It was in October, 1886, that I first read of Mother Seigel's Curative Syrup. I can't say I had any faith in it, but there was so much reason and sense in the published accounts of what it had done, that I got a bottle from Messra Lansdale & Co., Chemists, Queen's Square, and began to use it. Expecting little or nothing, I received much, for in two days I felt the welcome relief, and after having taken three bottles I found myself in good health; and have been so ever since that is, for six years. You are at liberty to publish this letter if you think it might be useful to others, and I shall be glad to answer inquiries. I am a chairmaker by trade, and in the employ of Mr. Gibson, Slater street, High Wycombe. Yours truly (signed) Thomas Hatt, November 15th, 1892." Well, you say, how does poor Pat Burke's case connect with Mr. Hatt's? That's what we are going to tell you. The inquest showed that Burke had no organic disease of the heart at all. When the doctors cut the heart out of his body they could find no sign of disease about it. What killed him so

EQUITY COURT.

In the matter of the Alexander estate on Saturday morning, on the return of a summons calling on defendants to show cause why the order for payment of costs by plaintiff should not be set aside, John Montgomery appeared to show cause. The affidavits in support of the motion alleged that Mr. Montgomery had not kept faith, as he had agreed that no such order should be made. Mr. Montgomery produced his affidavit that there was no such agreement as that set up by L. A. Currey's affidavit and offered, without admitting that he was bound to do so, to have the order set aside and the question of costs discussed again. This was agreed to and the question argued. Decision reserved.

In the Conroy estate A. W. Macrae applied under the lien act for an order declaring the wages of James E. Ennis and Richard J. A PILOT'S SMART WORK. The crowd of people who went down to Deed's Point Sunday afternoon to see the American boat come in witnessed as pretty a piece of work as any shipmaster or pilot has ever done in St. John harbor. She was moored in less time than it takes to tell it. Pilot Daley was proud of his work and says the vessel didn't strike the wharf with sufficient force to crack an egg.

"Before dawn of October 26th our army, under Marshall Yamagata, attacked Kin-Len-Cheng, one of the important strongholds upon the Chinese frontier. The place was defended by 16,000 troops under Generals Lin and Song, who fled after offering only a slight resistance, and the Japanese forces took possession of the fortifications and the city. They captured 30 large field guns, an immense quantity of rice and more than 300 tents. The Japanese loss was 20 killed and 63 wounded. The Chinese loss was more than 200 killed. It is pointed out that the Chinese erect breastworks and then sit quietly behind them, without throwing out skirmishers. The Chinese battalions also raise banners just as they fire a volley, so that the Japanese troops just know when a shower of lead is impending. The Chinese also exhaust the cartridges in the magazing guns as fast as they can fire them, making first a perfect hail of bullets and then a long calm. A ROUGH PASSAGE. (From the Daily Sun, 27th.)

(From the Daily Sun, 27th.)

Bark Mistletoe, Capt. Donovan, arrived yesterday from Sligo via Sydney. She was 28 days coming round from Sydney. Capt. Donovan says that if he had come to St. John direct he would have made the passage in about 20 days, but he had to call at Sydney for orders. The bark sailed from Sydney on the 1st inst. When she got off Scaterie her sails were carried away and she had to seek shelter. She put into Cow Bay, where she remained a week repairing sails. Then she made another start, but was no more fortunate this time. Her sails were split and blown away again, but Capt. Ponovan determined not to put back a second time. He kept on meeting gale after gale. A part of the crew were constantly at work repairing sails. When she got off Cape Sable head winds were encountered, and she was blown away out of her course. She was 17 days coming up from Cape Sable. Pliot Chas. Daley was taken on board a week rago and has since then been lending Capt. Donoven his best assistance to get his vessel to port. She was up this side of Grand Manan, but was blown back to Mount Desert. She could not get into Machils, and had to face the heavy and adverse winds that prevailed in the bay. The Mistletoe lost forosails, spanker, mainsail, jibs, lower topsail, main upper topsail and mizzen staysail. Her spanker boom was broken, too. She is now lying at the new pier, Carleton, where she will discharge ballast. lying at the new pier, Carleton, where she will discharge ballast.

SPORTING MATTERS.

TOOTBALL. Fredericton, Oct. 26.—Sackville, 6; University, 0. This is the score of the intercollegiate football game played here this afternoon. The game drew a large attendance and was hotly contested from start to finish. Just before time was called James Tibbitts of the home team, son of R. W. L Tibbitts, had his leg broken just above the ankle. Dr. Coulthard happened to be on the ground at the time of the accidnt and took charge of the case. He found the ankle dislocated and one bone of the leg broken. It was purely accidental, and no blame is attached to any person. Tibbitts is resting quite easy tonight, but will be kept in probably two months.

Lavignie Defeats Griffin. Coney Island, N. Y., Oct. 29.-What with threatened police interference, a previous postponement and a very light card, it was not to be wondered that tonight's assemblage at the Seaside club was in no way representative and extremely meagre numerically.

Next came the bout of the evening; it was between Lavigne of Saginaw and Johnny Griffin of Braintree Mass., at 126 lbs., 15 rounds. Lavigne's seconds were Sam Fitzpatrick, Jim McCarol, J. M. Collins and Billy Lavigne. Those in his opponent's corner were Geo. Raynolds, Billy Crowley and Charley White. By a special private arrangement they fought at 124 pounds. Lavigne led the attack. They were both wild, although Lavigne got in a couple on the body. When time was called there was little to record. Griffin did not look well and handled himself as though away off.

In the fourteenth round Lavigne went at it wickedly and downed his man. Griffin was up before the limit expired, but was met with blows that fell like rain. Three times he was all but out, gut the gong sent him to his corner amidst tremendous ovations. Last round-Lavigne rushed and lowned Griffin as soon as they reached the centre of the ring. Then the
