Attention is called to his ad. on the first page of this issue.

VACCINATION AND LOCKJAW.

In connection with the verdict given by the coroner's jury in the Causton case, which might tend to create a fear of vaccination and a consequent neglect of proper precautions against smallpox, Dr. Bayard has taken some trouble to secure information on this line. From Philadelphia reports came to the effect that five or six persons who were vaccinated had developed lockjaw and that the vaccine lymph was blamed for causing it. Dr. Bayard wired to H. K. Mulford, who supplies the greater part of the lymph which is being used here and which was used in the case of the Causton child, asking what truth there was in the reports of the cases in Philadelphia. This afternoon he received the following despatch:

Dr. W. Bayard, St. John:
Reports absolutely false. No cases caused by virus. Writing particulars.

SUDDEN DEATH.

James Cullinan, teamster, of 67 Stanley street, died suddenly today about noon. He had been enjoying good health up until very shortly before his death. Early this morning he appeared to be as well as usual, but about noon he was taken suddenly ill and passed away almost immediately. Mr. Cullinan was exceedingly well known about the city and the news of his sudden demise was a great shock to his many friends. He leaves a wife, two sons, James and Henry, and two daughters, Misses Nellie and Bessie. Father Carney, of Fredericton, is a nephew of the deceased gentleman.

THE LUMBER OUTLOOK.

About \$248,000 Worth of Logs Hung Up.—The General Situation.

Last year out of a total cut of about one hundred and forty million feet of lumber eleven and a half millions were hung up. This year the cut has been one hundred and thirty-three millions, and of it no less than thirty-one millions have failed to come down. The drives which were hung up last year were 5,000,000 feet of Kilburn's logs and 6,000,000 belonging to the Woodman estate. This year the 31,000,000 feet are divided among different lumber operators, nearly every one having some interest in them.

Of the drives, which have failed to come down, 25,000,000 is regarded as being in danger, while the other 6,000,000 is safe. On the main river, just below Bel river are 10,000,000 feet of the lower corporation drive, in charge of Morrison and R. J. Noble. The tail of this drive is twenty miles below Woodstock and thirty miles below the boom lands. It belongs to Kilburn, W. H. Morrison, another of 3,000,000 & Co., Charles Miller, M. H. Murchie, Randolph & Baker, Cunliffe Sons and Dunn Brothers.

Another 10,000,000 is on the main river above the Grand Falls. It is the upper corporation drive, and is in charge of L. W. and E. W. Pond. It is owned chiefly by W. H. Murray, and is what is known as Kilburn's drive.

The balance of the 25,000,000 which is regarded as being in danger, consists of 5,000,000 feet of present drives, at the head of the Aroostook Falls, in charge of Morrison and Noble. It is a part of the big drive now below Bel river, which failed to get into the main river. This drive is owned by H. H. Murchie, Dunn Bros and Robert Aitken.

Besides these drives there are 6,000,000 feet lying in safety at three different points. One drive of 2,000,000 is on the Fish river; another of 3,000,000 on the Northwest river, both of these being owned by W. H. Murray. The former is in charge of Laliberte and the latter part of Kilburn's big drive.

The 25,000,000 feet are so situated that if in the spring the ice runs out as it does four times out of five all this lumber will be saved. It is hoped that there will not be a rise in the water, for if this should occur the logs up river will be liable to be brought into almost certain danger. In the position in which they now lie they will be quite easily saved, but a rise in the water or a sudden running out of the ice in the spring will make their loss almost certain.

The cut this year was estimated at 135,000,000, and the returns to date show that it will be a very correct one. There have been rafted from the Fredericton booms 35,333 joints, containing a little over 67 tons of timber. This is made up of 119,000 feet hemlock, 6,417 feet cedar, 3,768 feet spruce, 1,000 feet fir, in all 121,187,000 feet.

Above the boom limits there have been rafted 11,497,000 feet, making a total of almost 136,000,000 which has reached the river. The lumber which is at present hung up is worth at least \$8 per thousand feet, or for the whole lot no less than \$248,000.

The Mitchell, Sterling, Gill and Glasier booms have all been disconnected from the river and are now on shore. The sheer booms throwing the logs into the Mitchell and Sterling booms have been taken in and housed for the winter. It is expected that the sheer booms at Crook's Point, throwing the logs into the Douglas and Seimon booms, will be taken care of by tonight. In the Douglas boom there are about 750,000 feet and in the Mitchell about 1,500,000 feet which, on account of the ice, cannot be rafted and which will necessitate leaving those booms out all winter. It is, however, believed that they will be able to stand any strain that may be put on them.

Among the mill owners along the river, logs are becoming scarce, and it is probable that only two mills—those operated by Cushing—will run during the entire winter. Six mills are running today, Miller's two, Cushing's two and Stetson, Cutler & Co.'s two. Of these both of Miller's will close down tonight, and the Stetson, Cutler & Co.'s in eight or ten days.

LOGS WILL BE BROWED.

It is said that the owners of the ten million feet or so of logs in the corporation drive, stranded near Brown's Island, have decided to remove them from the river as soon as it can be done, says the Fredericton Herald. While there is no great danger of the logs being carried out to sea in the spring the majority of those interested feel that it would be safer to have them hauled out of the water and browed. As the logs are not much scattered it is felt that they can be done at a fairly reasonable figure.

FOR SOUTH AFRICA.

St. John Men Want to Join the Proposed Third Contingent.

The expectation that another Canadian contingent may go to South Africa has excited a great deal of interest in St. John, and it is evident that if it is desired, quite a number of recruits can be got here. The Star has been informed that five returned members of the Canadian Mounted Rifles and the Royal Canadian Artillery are anxious to enlist again. There is evidently as much enthusiasm as ever among our young men to go to the front.

(Special to the Star.)

OTTAWA, Nov. 22.—The minister of militia is enquiring of steamship companies relative to South Africa, many applications are coming in from officers desiring to receive commissions.

Hon. Dr. Borden says the acceptance of Canada's offer should be the logical outcome of the correspondence with the war office.

It's All in Knowing. How—if you want to embezzle money, get a cashiership in a bank; if you want to make money, get a job in a mine; if you want to find money go to Klondike; but if you want to save money come to us for your Gloves and Underwear, we have extra values in these lines. Better come and see us tonight. Wm. A. Wetmore.

THE SMALLPOX.

A New Case Develops on St. Patrick Street—Morland Property Bought.

It was reported today that the suspected case in the McDade house, Brussels street, was not smallpox.

Late last night Frank Gallagher, a smallpox patient, residing at 15 St. Patrick street, died. He was forty-six years of age and was reported on the 15th of November. The funeral took place today.

This morning another case of smallpox was reported on St. Patrick street. It is in the house of J. W. Parlee, who kept a stall in the market. The patient is a sister-in-law of Mr. Parlee, a Miss Taylor.

The usual precautions are being taken in the market that have been in force since the first of the scare.

At the joint meeting in the board of health rooms today it was decided to purchase the Moreland property, to be used as an additional epidemic building. It appears to be in every way suitable for the purpose, and is especially well situated. The price for which it was purchased has not been given out, but \$7,000 was the amount first asked for it.

The Moreland house will be fitted up immediately and it is expected that patients will be put in there next week.

ACETYLENE GAS EXPLOSION.

(The Canadian Electrical News.)

The firm of Shaw & McKerracher of Perth, Ont., have been using acetylene gas for lighting purposes. A short time ago while Mr. Shaw was wiping around the machine, a small quantity of gas which had not been drawn off ignited and severely burned his hands and face. Last month a more serious explosion took place. According to the Perth Express, Dr. Dittick, the agent for the machine in Perth, and Richard Walker were about to make some repairs to the machine. Feeling satisfied that all the gas was out of the machine, Mr. Dittick disconnected the piping. As the machine was turned over the small quantity of water remaining in the tank below the faucet ran to the lowest edge of the tank and the gas still remaining was forced out. A jump was procured, whereupon the gas ignited, causing an explosion. One part of the machine was hurled forward with considerable violence, breaking down the partition, and the burning gas struck Mr. Walker in the face and on the arms. He was badly burned, and it is feared that his eyesight may be injured. Mr. Dittick was less seriously injured, although he has since been confined to his house. The explosion caused several blocks away. It is said that Shaw & McKerracher have decided to discontinue the use of acetylene gas.

YORK THEATRE.

The Eugene Page Concert Company, which will appear at the York theatre in St. John for one night only, Wednesday, Dec. 4th, is one of the most unique attractions appearing before the public today. The instrumentation is extremely novel, but thoroughly consistent and most highly entertaining, both from the fact that it is out of the ordinary and also that the company is comprised of artists of the highest qualification obtainable. The programme is finely varied and comprises the most difficult classical selections, interspersed with lighter music.

An entertainment of real merit may be anticipated and the second concert in the course is up to the high standard set by the Fadedettes orchestra. The star of the combination is Eugene Page's mandolin virtuoso, and he has attained fame on his chosen instrument.

M. McDade and the Freeman.

M. McDade has a signed letter of nearly three columns in today's Freeman, taking exception to the attitude of that journal on the question of patronage for Catholic liberals, and its statement that the Irish of New Brunswick do not resent the indignities put upon them by liberal bosses. Mr. McDade admits that he has been the danger of Mr. Blair and Mr. Tweedie losing Catholic support if they do not treat these supporters better, but he deprecates the Freeman's manner of putting the case.

In reply the Freeman prints a caustic editorial, ironically congratulating Mr. McDade on his conversion, and incidentally calling him "a henchman and a partisan."

It is a very pretty fight.

PERSONAL.

Walter Hawkes, representing the Garlock Packing Co. of Hamilton, Ont., is in town, going east.

The Misses Fielding, daughters of Hon. W. S. Fielding, minister of finance, passed through here last night, en route north from St. John.—Yesterday's Moncton Transcript.

William J. Edgcombe of Fredericton has returned from the west, where he went on the harvest excursion.

Dr. A. P. Crockett of Dalhousie is to leave in a few days for London, to take a post graduate course in medicine.

Archie P. Hale has purchased the Blackie farm of 1,000 acres at Upper Wicklow, Carleton Co., from his father, P. H. Hale, M. P., and is now moving from Grafton to his new home.

MARINE NOTES.

Steamer Monmouth arrived today from Norfolk. She will load horses for South Africa.

Str. Hestia arrived this morning from Picton to load deals for the old country.

Str. Coringa will sail this evening at six o'clock.

Str. Orinoco sailed this afternoon.

A GOOD ONE.

The musical programme at the men's meeting in the Opera house tomorrow afternoon at 4 will include solos by DeWitt Cairns and Prof. Titus. Opportunity is the subject of the address, the speaker being Dr. C. T. Williams, president of the Montreal Y. M. C. A. All men are invited. The proceedings should draw a crowded house.

Thomas Morgan arrived home today from New York with his son Frank, who has been taken suddenly ill.
