TROTTERED OVER THE BRIDGE.

The repairs to the Cantilever bridge have got Messrs. Kane and McGrath in trouble, as they have been reported by caretaker Robert Burns for being the owners of a head of 21 cattle that trotted over the bridge about noon on Sunday. The law says that no large animal may cross the bridge faster than a walk. These animals arrived on a special freight train Sunday and, as the train could not reach the city, it was decided to drive them to the city, and thence to the slaughter house. This was done, but on the bridge the animals could not be kept in check and went over at a trot.

# CANON DeVEBER'S GOLDEN WEDDING

He and Mrs. DeVeber Pleasantly Surprised.

Their Many Friends Present Them With An Address and a Purse of Gold.

Rev. Canon William Hubbard De Veber was very pleasantly surprised at four o'clock this afternoon, when a committee composed of G. Sidney Smith, John K. Schofield, Judge Barker, T. Barclay Robinson, W. H. Thorne, E. P. Starr and John Cochrane, representing his many friends, waited upon him and presented him with an address and a purse of gold. The occasion was the fiftieth anniversary of Canon De Veber's marriage. Many congratulatory speeches were made, to all of which Canon De Veber replied in terms of deep appreciation. Canon De Veber was married Sept. 28, 1854, to Miss Mary Faddock, a daughter of the late Dr. Thos. Faddock, of St. John. Two sons are living, William Herbert, of Woodville, N. B., and Alleyn Woodbridge, of Florence, Mont.

Canon William Hubbard De Veber was born in St. John, N. B., Jan. 23, 1824, third son of Leverett H. De Veber. He received his first education at the St. John Grammar School, and in 1839 entered King's College, Fredericton, and was graduated from that institution in 1843. Returning to St. John he was licensed as lay reader, and assigned to the parish of Simonds under Canon Harlow, where he remained for two years. He was ordained deacon by Bishop Medley in St. Ann's chapel, Fredericton, in 1847, and on Sept. 24, 1848, he was ordained priest and soon after, appointed missionary to Upland and St. Martin's, in which capacity he remained till 1859.

Then, at the request of the parishioners of St. Paul's church, Portland, he was appointed rector of that parish by the bishop. In 1868 the church, which had been in use some years, was abandoned and the school-house was licensed for the regular services of the parish, being continued there till August, 1871. During this time the present church was erected and consecrated August 16, 1871, by Bishop Medley, who the same day appointed Mr. De Veber a canon of St. Paul's church, Portland, Fredericton. He remained there until his retirement on account of ill-health in October, 1893, after a period of service of thirty-four years.

## TRAINS DELAYED.

Repairs to Cantilever Bridge Held Up All C. P. R. Trains Until Noon Today.

There was no train out of this city toward the west this morning until 11:15 o'clock in consequence of a delay in repair work to the Cantilever Bridge. It is the custom of the C. P. R. to overhaul all bridges at regular periods and when it is necessary to block the line the work is started on Saturday night and the last train has passed before a general rush, transferring passengers and baggage to the eastern trains, which were sent away as quickly as possible.

Only half the work on the bridge has been completed and the repair crew will start work again next Saturday night, but no such delay as occurred today is anticipated.

Among the passengers detained was Chief Justice Tuck, who was on his way to Woodstock to preside at a sitting of the court. The Vitaray Picture Company were also delayed, but as they were only going to Fredericton will be able to reach there in time for this evening's performance.

TIME BALL FOR HALIFAX.

L. D. Hutchinson, director of the meteorological observatory, left on the noon train today for Halifax, where he will make the final connections with the new time ball there that will be opened in conjunction with the time ball on the Customs House, this city. Mr. Hutchinson was in Halifax some weeks ago to see how the work of installing the new time ball was progressing and in consequence is of the opinion that he can finish the meteorological work that will complete the job in a very short time.

Gavaron, chief of police of that place, who have been in the city for a couple of days, left today for the place with two prisoners that were handed over to them by Chief of Police Clark. Since their escape from custody the young men have been as far as St. Louis and later worked in a Maine potato field. The necessary papers were made out this morning. It is understood that there was a third member to the party and that Chief Clark had the boys carefully watched in hope that he would be able to locate the missing one.
