THE MILK RIVER

By

The Milk River Unit Association is perhaps the most important factor in the development of the Milk River Valley in northern Montana, and all of the farmers in the valley are familiar with the aims and objects of the association. It is of interest to a large number of readers in northern Montana to know about the origin of the Milk River and its proposed destination. In March, 1904, word was received from the Canadian government that the Canadian government was constructing a canal or the irrigation of the Milk River valley. This news was received with much interest by the farmers in the Milk River valley. The Canadian government had spent a good part of a million dollars in investigating his land scheme. A meeting held in Chinook of this information was sent to the various townships requesting that they be advised of the same. The representatives be advised of the same. But owing to the organized effort on the

Ch

This week we have had a very successful Christmas party. We have just received our Christmas cards and we are very pleased to see them. We have just received our Christmas cards and we are very pleased to see them.

We are showing a very large stock of Christmas cards. Everything here at all times is at a special effort to
