OTTAWA, September 30 .- The verdict of the coroner's jury at Quebec throwing a certain amount of responsibility for the recent landslide from the Citadel cliff on the Federal Government, because it did not adopt the suggestion by City Engineer Baillairge in 1830, that buttresses should be built to support the cliff, has atracted great attention here. Enquiries at the Public Works department for a copy of the report elicited the reply that it was in French and was now being translated and would be given to the press in the course of a few days. Enough was learned, however, to show that it contains a great deal mere than was stated by City Engineer Baillairge at the inquest, There he said that he had reported to the Minister of Public and suggessed the building of buttresses, and that the accident was due to the Dominion Government not acting on his report. No copy of the report was preduced, and on this evidence the jury consured the Dominion

Government. It is now stated by the Public Works department that Mr. Baillairge's report contained two suggestions, one of which was for seen whether the adoption of the second sugthen some twelve or fifteen thousand dollars more have been spent in removing lease rock

port of Major Mayne to General Sir Fred, Middleton, concerning the condition of the Mayor Lungelier by General Middleton :-

SIR.-I have the honor to report to you, in Sir.—1 have the honor to report to you, in the absence of Sir A. Caron, to whom I had to report on the landslide of the 19th instant, that tals landslide was caused by the large and de-tached mass of rock (now threatening to come down) sliding down an incline surface. The cause of the movement was due to this surface being lubricated, as it were, by the heavy rains

The rock mass, having once been pus in mo-tion, will be more easily started in the future, and consequently there is considerable and immediate danger from the rain now falling for, though the fallen debris may form a sufficent support to prevent any further movement, yet it is impossible to say that it will do so, and, therefore, unwise to rely on it, or to allow people to congraegate on the Terrace or on the

wharf below.

I have the honor to be, sir. Your most obedient servant,

CHAS. B. MAYNE. Major R. E. The body of the young man Pemberten, supposed to be the last of the victims of the rock slide, was recovered at 4 p.m. to-day.
