A black and white portrait of V. M. Pierce, M.D. He is an older man with a receding hairline, wearing a dark suit jacket over a light-colored shirt and a dark tie. He is looking slightly to the right of the camera with a serious expression.

V. M. Pierce, M. D., eldest son of Dr. R. V. Pierce, brought up in the medical atmosphere of a Medical and Surgical Institute, was graduated from Buffalo and Harvard Universities, and was fully equipped to take up the direction of the World's Dispensary Medical Association and of the Invalids' Hotel, and these institutions have been his life work. Knowing the vast amount of harm wrought by diseases of the kidneys, and having had opportunity to observe the analyses and the successful methods of treatment in thousands of cases of kidney trouble at the Invalids' Hotel, he has given to the public the latest and perhaps the most important of the Dr. Pierce home remedies—An-uric (anti-uric-acid) Tablets, which are now recommended to those who suffer with kidney backache, irregularity of urination and the pains and disturbances that come from excess of uric acid in the blood. Dr. Pierce's An-uric can be procured of your dealer, or send 10c
