## INSURGENTS DEFEATED.

Sixty Bulgarians Killed in a Sharp Battle.

Salonica, May 7.—An engagement is reported to have occurred at the village of Vaniza between Turkish troops and a Bulgarian band, in which sixty Bulgarians, including their leader, Deltzeff, were killed, while the Turks had four men killed and three wounded. Thirty houses in Vaniza were burned.

A Bulgarian band, led by Petroff, has been routed at Krapetz. Seven of the Bulgarians were killed. A number of dynamite bombs were discovered here and martial law was proclaimed in Salonica yesterday. The battleships Sardegna and Francesco Morosini, the cruiser Carlo Alberto and the torpedo cruiser Calat Fimi of the Italian navy have arrived here.

Vienna, May 7.—Advises received here from Salonica say that, notwithstanding the fact that hundreds of Bulgarians have been arrested, street fights are constantly taking place. Women and children, especially young girls, take a prominent part in these disturbances. It is asserted that bomb outrages have been planned in all the towns of Macedonia. Bombs have been discovered in houses at Uskub, European Turkey (100 miles from Salonica), where the Turkish population is greatly excited, fearing a massacre.

## A SPORTSMAN'S MECCA.

There is no more delightful place in the Western Hemisphere for out-door life and perfect sport with rod and gun than the famous Muskoka Lakes region of the "Highlands of Ontario," about 100 miles north of Toronto. Canoeing is one of the many pleasures the district affords. The Grand Trunk reaches it with ease and comfort, whirling its passengers through some of the grandest scenery on earth. Handsome, illustrated, descriptive matter sent free to any address on application to J. D. McDonald, Dist. Pass. Agt., Grand Trunk Ry., Toronto.

## THE RESULT OF THE RIOTING AT KROONSTAD.

Infantry Called Out to Cope With the Rioters—Three of the Officers Killed.

London, May 7.—A despatch to the Central News from St. Petersburg dated yesterday, says a riot occurred Monday in connection with the strike of seamen of Kronshtadt. Infantry was called out and clashed with the strikers. Two hundred and sixty-two persons and three officers of infantry were killed.

## OFFER A SETTLEMENT.

Longshoremen Submit Terms to the Stevedores.

Montreal, May 7.—As the result of a conference between Mayor Cochrane, a number of Aldermen and the leaders of the longshoremen's strike, the men have at last submitted an offer to the shippers. It embraces the agreement made the other day with respect to wages, hours, etc., but the vital point of union recognition was avoided. Two extra clauses being submitted, as follows: (1) All foremen to be employed in the same positions as they occupied at the close of last year, and to execute the functions of their office without interference as they did in the past. (2) In case of disputes arising, the representatives of the men shall have the right to apply to the shipping companies to have the said grievances adjusted.

Ottawa, May 7.—Mr. Robert Bickerdike, M. P., has asked Mr. O'Neill, the leader of the striking longshoremen, to come to Ottawa and meet the members for the Montreal district, in order to discuss the situation. Hon. Raymond Prefontaine, who has returned to the city from Montreal, states that 1,570 men are at work, out of a number which is normally 2,000. He says that the sticking point which prevents an agreement is the strikers' demand that the preference be given to union men in engaging help for the season. As there are 1,000 union men, this would mean that none of the 1,700 men who are now at work could be retained. But these men have been hired for the summer, so that if they were let go the stevedores would be legally bound to pay them their wages during that time.

## SOUTH AFRICAN LOAN.

Resolutions Passed in the British House.

London, May 7.—In moving in the House of Commons yesterday a formal resolution guaranteeing the Transvaal loan of \$175,000,000, Colonial Secretary Chamberlain delivered a lengthy, optimistic speech on the future of the new South African colonies. He explained that it had been decided to purchase all the existing railways, which would absorb \$85,000,000 of the new loan, and \$25,000,000 more will be expended as quickly as possible on the development of the railways; \$12,500,000 would be spent on land settlement, and \$10,000,000 on public works. The Chancellor of the Exchequer, Mr. Ritchie, declined to reveal the rate of interest in advance of the issuing of the prospectus. After some debate the resolution was agreed to.

## DISCUSSING THE STRIKE.

Government Anxious for a Settlement—Mulock's Bill.

Ottawa, May 7.—The difficulties between labor and capital and the remedies for them engrossed the attention of the House of Commons yesterday. The situation arising out of the longshoremen's strike at Montreal was brought to the attention of the House by Mr. F. D. Monk. During the debate which ensued Sir William Mulock referred to the unsuccessful efforts made by the Government before the strike commenced to avert hostilities between the employers and employees. Negotiations with the parties are still maintained by the Government, and although he doubted whether the correct moment had arrived that intervention by the Government was acceptable to both parties, he assured the House that the Government were anxious and ready at the proper moment to assist in bringing about a settlement. Sir Mulock, in referring to an alleged threat by employers to dismiss volunteers who had been called out for duty, refused to believe that any employer in Montreal was so mean or unpatriotic, but expressed confidence that in the event of the threat being carried out the unanimous voice of Parliament would brand with infamy the action of the employer.

Sir William Mulock's bill to aid in the settlement of railway labor disputes was given its second reading after a spirited debate, in the course of which Mr. W. R. Brock attacked with great warmth the labor organizations for cowardice in neglecting to incorporate themselves, so that damages could be collected from them through the courts. He ascribed to them the quality "of having neither body to be kicked nor soul to be damned," and asserted that hatred of Great Britain and Canada and organized labor went hand in hand in the United States.

Mr. Logan introduced a bill to incorporate the Niagara, Queenston & St. Catharines Railway Company.

Mr. Demers introduced a bill respecting the jurisdiction of the Exchequer Court as to railway debts.

Sir William Mulock, in answer to Mr. Wilson, stated that 193 immigrants were refused admission into Canada in 1901-2, as paupers or because they had loathsome, dangerous or infectious diseases. From July 1st, 1902, to April 1st, 1903, the number excluded for the same reasons and deported at the expense of the steamship companies was 147.

## ASPHALT BLOCK

O. W. Connet, assistant city engineer, has written J. G. Kerr from Windsor as follows:

Dear Sir,—To those who are skeptical about the durability of asphalt blocks have been with me this morning. I think they would have been convinced that no other known paving material has the same life. I met one of the company which will make the blocks here, on his way to the customs office to get a block that they had requested the mayor of Baltimore to send them. I was invited to go with him, and the box was opened in my presence. The block had originally been five inches deep, and was worn to 3-8 inches. Had trap rock such as is now used been employed, instead of limestone, the wear would have been much less. As it is the block was not half worn out. Attached was a certificate that the pavement was laid in 1883, twenty years ago, no part of which had been renewed since; also, the following from the assistant city engineer.

Baltimore, April 27, 1903.  
"A block taken up from the middle of the roadway of the south west side of Rutaw Place, between Mother and Lanvale streets, Baltimore, on this day, on my presence. Rutaw Place is about three-quarters of a mile in length, with roadways 28 feet in width, on each side of park in centre, paved with asphalt blocks, and is one of the principal thoroughfares to Druid Hill Park."

Assistant City Engineer.

## BRITAIN'S WARNING.

Will Maintain Pre-eminence in Persian Gulf.

London, May 7.—Lord Lansdowne has practically notified the competing powers that any attempt on their part to establish a naval base or fortified post in the Persian Gulf means war with Great Britain. "I say without hesitation," said the Foreign Secretary, dealing with the subject in the House of Lords yesterday evening, "that we should regard the establishment of a naval base or a fortified port in the Persian Gulf by any other power as a very grave menace to British interests, and we should certainly resist it with all the means at our disposal."

Lord Lansdowne preceded this explicit enunciation of British policy by a review of the situation there, as it affects British interests, contending that so far as the navigation of the Persian Gulf is concerned Great Britain holds a position different to that of the other powers, both because it was owing to British enterprise and expenditure of life and money that the gulf is now open to the commerce of the world, and because the protection of the sea route to India necessitates British predominance in the gulf.

Lord Lansdowne's attitude in this matter generally meets with approval, although the answers thereto of the other powers interested in the gulf are awaited with some anxiety.
