ned Huron, measu ned Huron, measuring remely well executed ing a Huron Chief, was, nunched from the ship-ter, St. Roch. ADDRESS OF THE MERCHANTS OF QUEEEC TO THE RIGHT HONBLE. C. POELETT THO MSON.

To His Excellency The Right Honorable The Right Honorable CHARLES POLLETT TRONSON, one of Her Majesty's Most Honorable Privy Council, Governor General of British North America, and Captain General and Governor in Chief in and over the Provinces of Lower Canada, and Upper Canada, Nova Scotta, New Bunswick, and the Atlant of Prince Edward, and Vice Admiral of the same.

MAY IT PLEASE YOUR EXCELLENCY.

MAY IT PLEASE YOUR EXCELENCY,
We the undersigned, composing the Committee of Trade of Quebec, beg leave respectfully to contratulate Your Excellency upon your arrival in these Colonies.
Merchants outs lives, and representing the Mercastile community of this City, it is, we assure You Excellency, with no small degree of pride and natisfaction that we see the Government of the Country cutrusted to one who hims if his been a Merchant, and notherities tanding that the opinions undest of to have been entertained by Your Excellency in regard to a most important oranch of the Trade of this Country, differ very materially from ours, we have never doubten but that from the manerial from enertaking the Government of these have never doubten out that from the moment of your unbettaking the Government of these Colonies, your strengers and unbiased efforts would be directed to the promotion of sheir interests Commercial as well as political. We are fully persuaded that the withdrawing of that protection britherto afforded to the Timber of the British North American Colonies, Trade of the British North American Colonies, would be, not only fatal to their prosperity, by destroying their great staple trade, and weakening the bonds that now happily unite them to the Mother Country, but also highly high-rious to the Empire at large. We therefore confidently hope that when Your Excellency's mind shall have been more perticularly applied to this subject, you will be satisfied that it involves the question of supporting or abandoning those important elements of national strength and greatness, "Ships, Colonies and Commerce." nerce.

The undertaking in which Your Excellency has engaged is a great and ardinous one. To establish permanent tranquillity, and a just, firm, and steady system of Government in the Country;—to draw forth and develop its great latent resources by promoting the improve-ment of those extraordinary natural facilities ment of those extraordinary natural facilities for internal communication which it possesses; to trevive and encourage its drooping Agniculture, to extend and protect its languishing Commerce;—and to recall to its shores the tide of emigration new silverted to other channels; are tasks not to be accomplished without encountering many difficulties.

That those difficulties may be overcome under Your Excellency's administration we most sincerely pray, and to every measure of Your Excellency tending to this great end, we begreperfully, on behalf of ourselves and those whom we have the honor to represent, to tender

whom we have the honor to represent, to tender you our unreserved and cordial support and co-operation.

To which His Excellency was pleased to give the following Answer :--

GENTLEMEN,-I thank you sincerely for

your Address.

Bred a British Merchant myself, the good

Bred a British Merchant myself, the good opinion of those who follow the same honoup rable career is to me naturally and justly dear. You may rely upon my attention to the great interests you represent.—Whatever acquaintance with Commercial subjects I may have acquired by my early pursuits, or through my later duties, will be earnestly and zealously devoted to the consideration of all that relates to the Trade of these Colonies, and with an honest endeavour to promote their prosperity as connected with that of the British Empire. I feel with you that the undertaking before me is most ardious; but the end proposed is a noble one. These Provinces possess an almost unrivalled field for Commerce and for Industry; all the elements of wealth and prosperity.

univaried field for Commerce and for Indus-try; all the elements of wealth and prosperity. Their advance is checked and their develop-ment impeded by causes which, I sincerely believe, it is in your power to remove. The Imperial Legislature and Her Majesty's Government are most anxious to do their part towards this important object; and if you who hold so high a place in the Community will condially co-ope rate with me, I feel the utmost condidence that our labours will not be vain.

To that end, and the advancement of every object that may contribute to the tranquility and happiness of these possessions of the British Crown, all my efforts will be devoted.

COMMERCIAL.

Montreal, October 19th.

Ashests—Rave declined a little since our last nodice—sales of shipping parcels having been made
at 29th 61 for pearls, and 25th 61 for pets.
