

length he is giving his offspring plenty of constitution. His four greatest dams average 285 lbs. in seven days, and his heifers should also develop into high producers. Bred and without concessions characterize him and his offspring.

Josephine Bred and raised almost 15,000 lbs. in R.O.P. work. Like all other was made under ordinary farm conditions. It is for a short time very early in the season that the cows are best milted three times a day. Josephine has three calves from her first calving in the herd. They are all the large sisters 2-0-0. Her mother was raised on a two-year-old. The latter is at present in the best. Lady Calanthy Fancies 3rd is a large, strong, straight cow. She will be the mother of a junior two-year-old.

Another excellent heifer is Niagara Maroon. She has a good record as a two-year-old, and her mother has 15,300 lbs. nearly record as a four-year-old. A still better one is Juanita Clifford De Kol. She is at present running in the R.O.P. and will make 10,000 lbs. as a junior two-year-old, while the average test should be over 90 per cent. She is a fine dam of strong, ripe, nicely marked bull that Mr. Hagar is offering for sale.

Another young bull the grandson of King Lora Hengervold Seggs. He is a fine, straight-boned, and abundant make an excellent sire. Mr. Hagar is keeping him for a few months to breed to some of his heifers. Mr. Hagar has not devoted a great deal of money by March 1st, first-class Butter Maker for creamery use. Excellent experience and salary accepted, and give reference to The John Armstrong Co., Iriden, Ontario.

of time to test work, and he is satisfied that he can reasonably increase the records of practically every cow in the herd.

HASTINGS CO. ONT.

THURTON, Jan. 4.—Very severe weather for the past few weeks. Fall grain has a very good yield and very good quality and quite plentiful. Will trade for high; hay, 82 to 84 a ton; hops remain low; live stock not in good demand or as good prices as last year.—J. E. K.

HASTINGS CO. ONT.

COE HILLS, Jan. 5.—Winter setting in quite cold, with snow already a foot in depth. Very little lumbering is being done, but pulp-wood is being handled quite extensively. Potatoes are plentiful at 60c; beef, 80 to 85; dressed pork, 10c; butter, 30c and eggs, 50c. Hay is scarce at \$20 a ton. Last year men could not had for \$25 a month, now we can get one cent we want at \$15 to \$20 a month.—F. H.

BRITISH COLUMBIA

NEW WESTMINSTER CO. B.C.
CHILLIWACK, Dec. 23.—We are having cool weather, but not so intolerably cold, the thermometer only registering 10 degrees of frost. The ground is frozen and one can not find the roads in the morning. We have had no snow to date. Many are replenishing their wood-piles for their summer use. Their live stock for the most part are in excellent condition.—J. O.
