Carter's Patent Ditching Machine. Price \$130. This Machine is warranted to do its work satisfactorily even in sand, or hardest clay, gravelly, and even on stony and rocky land. It will throw out stones as large as a man's head, and roll over rocks uninjured. Every one approves of its working who has ever yet given it a trial.

"It has no equal in the Entire Field of American Agricultural Journalism."—Maine Farmer.

THE CULTIVATOR AND COUNTRY GENTLEMAN has been much enlarged and improved during the past year, and continues to maintain its former rank, as the Standard Journal of American Agriculture. Including all the departments connected with the cultivation of the Soil for profit or pleasure, it is its aim to promote the best interests of its readers,—to protect them from fraud and falsehood,—to provide them with the information most essential in their calling,—and leaving to others the task of furnishing the transitory entertainment of the hour, to present a periodical of frequent issue, always fresh and seasonable, and especially adapted in every department to the practical wants of the Farmer and his Family.

In Extent of Correspondence—In Practical Suggestions—In Agricultural News—

It is believed to be without an equal, and it should be placed in the hands of every Farmer, Fruit-grower and Breeder in the country. For them, as well as for their wives and children, the interest and value of its contents have never been so great as now.

TERMS.—The terms are lower than those of any other paper of similar standing. One copy, \$2.50 per year. Four copies, \$9. Eight copies, \$16.

All new subscribers to THE CULTIVATOR AND COUNTRY GENTLEMAN for 1871, paying in advance, previous to the close of 1870, will receive the Paper Weekly, from receipt of remittance to January 1st, 1871, without charge.

Any person wishing to try the paper before subscribing will be supplied with copies regularly from 1st Jan. 1871, for the nominal price of 25 cents. Single Numbers as Specimens, Free.

CARTER'S Ditching Machine

Will be operated on the Exhibition grounds in Toronto and London this Fall; also at a number of the Western County Fairs in Ontario, including the Kent Show, at the Barrack Ground, Chatham, on Friday and Saturday, Sept. 30th and Oct. 1st.

Responsible Agents wanted in every County to solicit orders. Circulars furnished and orders solicited by

CARTER & STEWART, Proprietors, Aylmer P. O., Co. Elgin. JAMES SOUTAR & CO., Agents for the County of Kent.

Another Tribute to the merits of Carter's Ditching Machine, from Arch. McKellar, M.P.P.

This is to certify that I used one of Carter's Ditching Machines last fall and in the spring of the following year, and can confidently recommend it as the best Implement of the kind I have ever seen. With a little experience, the bottom of the Ditch can be made quite level, and ready to lay the Tile. With two pair of horses, a driver, and a man to hold the Machine, a ditch 150 rods in length, and from two and a half to 3 feet in depth, can easily be cut in a day. The Machine, being all constructed of iron is most durable, and one not liable to break or get out of repair.

ARCHIBALD MCKELLAR, Chatham, Aug. 30, 1870.

Aylmer, Ont. Sept. 15, 1870.

To the Editor of the Enterprise.

Sir,—I desire, for the benefit of the farming community, to state, that on Tuesday, Sept. 6th I called Carter's Ditching Machine into requisition to open a ditch about 50 rods in length for an underdrain. Part of the ground was quite hard and full of small stones, and the rest was rather wet. In about three hours and a quarter the machine had cut the 50 rods of ditch from two to three feet deep, and thrown the earth well away. Had it not been for the breaking of the whiffle-tree iron, the work could have been finished in a short time, so as to have left little work to be done prior to laying the tiles. I am fully satisfied that Carter's Machine will do its work better than any other yet invented in the Dominion. Yours truly,

THOS. L. DAVIDSON, D.D.

Parties who contemplate underdraining should not wait until they have a tile yard at their door. Good durable drains can be made with boards and other material where tile is not to be had.
