

I CURE MEN!

I believe in a fair deal. If you have a good thing and know it yourself, give others a chance to enjoy it in a way they can afford. I've got a good thing. I'm proving that every day. I want every weak, puny man, every man with a pain or an ache, to get the benefit of my Electric Belt.

Some men have doctored a good deal — some have used other ways of applying electricity — without getting cured, and they are chary about paying money now until they know what they are paying for.

If you are that kind of a man, this belt is yours without a cent of cost to you until you are ready to say to me, "Doctor, you have earned your price, and here it is."

and it is showing a good deal of confidence in my belt. But I know that most men are honest, especially when they have been cured of a serious ailment, and very few will impose on me.

As to what my belt will do, I know that it will cure wherever there is a possible chance, and there is a good chance in nine cases out of ten.

So you can afford to let me try anyway, and I'll take the chances. If you are not sick, don't trifle with me; but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial.

I want you to know what I have done for others.

Dr. McLaughlin: Dear Sir,—I am pleased to be able to tell you that I now feel like a new man in every way. Wishing you all the success that you deserve in your endeavor to relieve suffering humanity, I remain, yours sincerely,
F. A. OUELLET

If you would believe the thousands of men whom I have already treated, my belt is worth its weight in gold.

Dr. McLaughlin: My Dear Sir,—I am proud to be able to tell you that your Belt has made a new man of me. Instead of worrying as I used to, I let the other fellows do it all now. I gained ten pounds in weight in less than two months. I always feel cheerful, never borrowing trouble as I used to. It's a pleasure to live now, as nothing discourages me. Wishing you every success with your grand appliance, I remain, yours very truly,
D. McCORMICK, Brockville, Ont.

But some men don't believe anything until they see it. That's why I make this offer. I want to let you see it, and feel it, and know it by your own experience, before I get a cent.

If I don't cure you, my belt comes back to me, and we quit friends. You are out the time you spend on it—wearing it while you sleep—nothing more.

But I expect to cure you if I take your case. If I think I can't cure you I'll tell you so, and not waste your time. Anyway, try me, at my expense. Come and see me and let me show you what I have; or if you can't, then cut out this ad. and send it in. It will bring you a description of my belt, and a book that will inspire you to be a man among men, all free.

GOSSIP.

Spring lambs sold in Chicago Stockyards, June 25th, at \$8.40, and shorn lambs at \$7.75. More would have been paid for better ones. Heavy-weight ewes made \$6, and the bulk of hogs, \$6.55.

The spelling reformers have issued a list in which they declare that "kissed" should be "kist," but lovers, whatever the nufangled twist, know the old-fashioned pleasure will never be "mist."

A lady going from home for the day locked everything up well, and for the grocer's benefit wrote on a card: "All out. Don't leave anything." This she stuck on the door. On her return home she found her house ransacked, and all her choicest possessions gone. To the card on the door was added: "Thanks! We haven't left much."

Mr. L. Hooley, Powle's Corners, Ont., breeder of Large English Yorkshires, in ordering a change in his advertisement, writes: "I have some grand spring litters, farrowed in February, March, April and May, from A1 stock. These are selling rapidly at living prices. Have sold a grand pair to Mr. B. Cook, Oshawa, for \$75. Hogs are right, and everybody satisfied. Litters run from 9 to 15 strong, vigorous pigs."

BOTH MISTAKEN.

An Irish merchant, who had more money in his pocket than his appearance denoted, took a seat in a first-class carriage. The Junior Christian Endeavor World tells the story:

A dandy fellow-passenger was much annoyed at Pat's presence, and missing his handkerchief, taxed him with having picked his pocket. After recovering his handkerchief, which he had put in his hat, he made a lame apology, but Pat stopped him with the remark:

"Make yourself easy, darlint; don't bother about the matter. You took me for a thafe; I took you for a gentleman. We were both of us mistaken, that's all, me honey."

NEW MACHINERY ON THE FARM.

"Vermont out West" contributes to the New England Farmer the following sentences, which are not without a modicum of application to Eastern Canada:

"New England people have always been suspicious of new ideas and of new machines and utensils. From 1830 to 1840, there was strong opposition to the introduction of the cook stove, on the ground that it was 'unhallowful'."

"A Vermont farmer speaks of using a scold and harrow combined as though it were something new. These same machines have been used in the West for 40 years. In fact, the first ones were painted on the day the news came of the surrender of Fort Sumpter. Yet the farmers down East think the reason they cannot compete with the West is on account of the Western soil being more fertile."

Messrs. D. Bartlett & Sons, of Smithville, Ont., breeders of Shorthorn cattle and Dorset sheep, have been fortunate in securing an excellent price for their old stock bull, White Count, 37871, and the head of the herd, which comprise a fine bunch of cattle, is now Greenhill Victor 2nd, sired by Greenhill Victor (imp.), dam Lady Greenhill (imp.), and from his excellent breeding it is anticipated that high class stock will result. They have for sale at the present time several choice roan heifers, one and two years old, which can be secured at moderate prices. The sale of yearling bulls, during the past few months, has been most satisfactory, the last one going a few weeks ago.

Regarding Dorset sheep, which are now coming to the front very rapidly, they write: "The demand for Christmas lambs was exceedingly good last year, and with a large flock of shorn and lambs in prime condition, we were able to cope with the demand satisfactorily. In the flock are several ewes and rams that bear of choice quality, are being specially fitted for show purposes, and we would be willing to part with some of these at an early date, provided a good price is offered."
