After this the Right Rev. Bishop McEvay of London read the following address:

My Dear Monsignor: —While the good priests of the Archdiocese of Kingston are rejoicing and congratulating you on the occasion of your Golden Jubilee, there are some of your old parishioners, now priests, doing dury in different parts of Ontario, who desire to share in the joy of the Jubilee celebration.

We remember with pleasure and gratitude the shining example of your priestly life, and your great zeal for our welfare, both in church and school, and we recall in a special manner your watchful care in fostering in our souls a vocation for the holy priesthood, as well as your many acts of kindness as a true Father and priest up to the present time.

As a token of our sincere gratitude we ask you to accept this Monstrance and Missal stand and hope you will remember in your prayers the old boys of Linday and Belleville.

The celebration of the golden jubilee baseed off most successfully in every way and the CATHOLIC RECORD joins with the many friends of Monsignor Farielly in wishing the venerable prelate many years of health and happiness and all temporal and spiritual blessings. Ad multos annos.

Monsignor Farrelly stated that the large amount of money which he had received would be placed in the bank to the credit of St. Michael's church debt.

Rev. Father Fallon has developed a scheme to cover \$25.000, the cost of the renovation of the interior of St. Joseph's and the new hall. By means of an envelope collection on the third Sunday inleach month, he hopes to clear the entire amount. Father Dominick preached the opening of the Jubilee retreat.

Much to the regret and disappointment of pastor and people the changes occasioned in the Irish parishes of the dioese, involves the moving of Rev. Father Fay to the charge of the parish of Farrietion, where he replaces Rev. Father Foley who in turn goes to St. Mary's, Bayswater, in the 100 m of Rev. Father Cole whom ill health has compelled to retire. Father Fay's new spontiment is a promotion, and this is a compensating satisfaction.

Sunday, forty children of that parish received their First Communion. These children were also present at the High Mass in the same church where the Rev. Father Brady, the devoted and zealous pastor of the parish, preached to them on Communion, showing the great solemnity of the First Communion and how all Communions should be preparations for the last Communion, the Visticum.

On Sunday evening last the names of thirteen young ladies were added to the list of members of the Young Ladies' Sodality of the Cathedral. The reception took place in the Cathedral at Vespers.

The children of the Cathedral and of St. Pavrick's church now preparing for First Communion will receive in their respective churches, Sunday, June 9.

THE NEW ST. MARYS CHURCH.

The Daily News of the 22nd May published the following particulars having reference to the new church to be erected in this city. As the St. Mary's congregation is largely made up of persons who possess but a moderate share of this world's goods, we trust those not belonging to that section of the city will be generous towards the good pastor and the commendable enterprise he has on hand.

St. Mary's parish is to have a new place of worship, Under the efficient pastorate of Rev. Hubert G. Traher. The congregation and church activities have orgoon the present structure on Hill street. The recent gutting of the building by fire precipitated matters and it was decided to secure some commodious premises. The present church, in which the parishoners have worshipped for a quarter of a century, will be sold, and we building.

The site chosen is the new building.

The site chosen is the set the Holy Angels' school. The architecture will be Gothic, than which no other style is better suited to devout thoughts and lofty meditation. The dimensions of the structure will be 50 by 115 feet exclusive of the chonel apse. The main floor will have a scaling capacity of six hundred, exclusive of the chonel apse. The main floor will have a scaling capacity of six hundred, exclusive of the chonel apse. The main floor will have a scaling capacity of six hundred, exclusive of the chonel apse. The main floor will have a scaling will be 50 by 115 feet exclusive of the chuncel apse. The main floor will have a scaling well-the form the present, will be reserved for the use of the choir.

Provision is made in the chancel for a large main altar, while two side chapels will contain lesser altars. There has been arranged a commodious sacristy conveniently fitted up with vesting the same of the same of the s

withistained and plate glass, making a double window.

The church is designed with special reference to its acoustic properties. There are no pillars or alses to interrupt the passage of the preacher's voice through the church, nor to interfere with the anditor's view of the speaker from any quarter. The convenience of the worthippers is also consulted in the arrangements of the asies between the pews which are wide and roomy.

The architects are Moore & Henry, and the work is on a par with their usually high stand-

the Archbishop. His Lordship Bishop O'Connor and a large number of the clergy, Master McDonell's feat, I think, may be described as something highly creditable to him, and should stamp him as one peculiarly gifted.

The proceedings on Wednesday—the Grand High Mass, the music, the reading of the several addresses, and the presentations, have all been so well described in the various daily papers, which are read by all, that it would be a waste of time and space to the ground again. I think it is generally admitted that the affair was a formation of the committee, having charge f it were capable of doing, and this may be tirributed, more particularly, to the energy in industry, and tact of Rev Father Sheet'r ros; and I think the Rev, Father will ask that the other members of the committee were good seconds, which is sping a good all. The dignitaries of the Councillate were good seconds, which is sping a good all. The dignitaries of the Councillate were good seconds, which is sping a good all. number of two or three thousand. It now appears that the number was greatly exaggerated, and was really insignificant. The raiders were obliged to make this desperate effort to procure supplies.

Matters are going on very nearly in the same manner as has already been reported. Guerilla bands are still holding out, but they are being rapidly reduced in numbers by the close pursuit by the British columns and the numerous captures effected.

It is again rumored that General Botha has asked for the reopening of peace negotiations. He asked of Lord Kitchener an opportunity to communicate with Kruger in reference to the making of peace, but Kitchener replied that he has nothing to do with Kruger, and will hold no communication with him.

An idea of the manner in which the Boers are being certainly reduced may be had from the steady work of Benson's column for nine days. Two hundred and seventy-three prisoners were taken. 2530 cattle, 138 waggons and carts, and 55.550 rounds of ammunition. Similar work is being done by other columns, and thus, noth withstanding the remarkable activity of the Boers, they cannot long resist the perpetual strain.

And the control of th

States. England and Ireland—last year to France and this year was devoted to the study of Rome. Besides this we have the Holy Scripture read and explained at every meeting, and Catholic Belief has also been a study.

The meetings were rendered interesting and instructive by the many views of the Eternal City which the Bishop brought with him from his trip to Rome in 1899. Excellent papers were prepared and read by the members on the Forum. Celiseum and other ancient ruins, also on the Vatican, St. Peters, the other noted churches, the famous Art Galleries, palaces, hospitals, libraries and museums. Besides this outline of study, papers with illustrations of some of the noted paintings of the world such as the "Sistine Madonna," the "Madonna of the Chair," the "Last Supper" etc., were presented. We have nine Canadians in our club, and we are justly proud of their excellent work. Our annual election occurred last week, with the following result: President Mrs. L. H. Corcoran, 1st Vice President Mrs. J. c. Chieles, 2nd Vice President Miss Mary Miller, Sec. Treas. Miss Katharine Kinney.

A NEW CONTROVERSIAL WORK

A NEW CONTROVERSIAL WORK.

The Non-Catholic Mission Movement is giving manifest sigus of intellectual activity in the book world.

Some year-tholic Book Excharge issued Started, the Started Book Excharge issued Started the Pater for Fair Minds," and durk these few years the demand for this book has been so heavy that to-day it has reached its 376th thousand. It ranks, for the demand there is for it, among the most popular novels of the day.

Another book of a similar character comes to us. It is by one who has been very successful in giving missions to non-Catholics, Father Xavier Sutton, the Passionist, and its first edition is 25,000. It is a simple and yet comprehensive exposition of Catholic teaching on many dogmatic points. It is published under the suggestive title of "Clearing the Way." Its purpose is largely to clear away the prejudices and misconceptions in the way of a thorough understanding of Catholic doctrine, Mailed on receipt of 10 cents by Thos. A Great Picture of the Pope

The magnificent painting of His Hollar ss, Pope Leo XIII, is the work o' one of New York's most celebrated artists, J. A. Mohite, who, in painting this pleture, has had the advantage of the constant criticisms and advice of the highest dignitaries of the Catholic Church in america, who have devoted unusua: time in coing over the details of this painting with the artist, so that the finished work would be as near perfect as anything that has been brought out. Those who have been tayored by His Hollness with an audlence exclaim over the remarkable likeness in this painting, "It is, indeed, a portrait absolutely true to life."

The work has been gottenent at an expense of over \$3.000, the lithograph being finished in twelve separate printings on the uighest grade of chromo paper, as d has been treated in a very artistic manner.

So faithful a lixeness and so magnificent a work of art as the present pleture is, there fore, of incalculable value to everyone.

VOLUME XXIII.

The Catholic Record. | di London Saturday. June 8, 1901. CATHOLICITY AND PROTEST. ANTISM.

Some of our ministerial brethren are at a loss to devise expedients to

fill the pews. Though they have given

evidence of much inventive talent in

this matter and can be credited with many fantastic schemes, yet are the gaps in the ranks of their hearers becoming wider and wider. High-priced choirs have failed to draw, judging from last reports. The gymnasiumswimming-tank combination is no better. And the future will show how the contemplated club with roof garden annex shall solve the problem. Even Dr. Hilles-and he is a man of sterling ability, whatever may be thought of his success as a preacher—has turned his Sunday evening service into a kind of five o'clock tea, enlivened of course by his eloquence. But something must have gone wrong with the culinary arrangements, for now the reverend gentleman wants the toilers to be given a half holiday on Saturday, in order, we suppose, to enable them to prepare themselves for the Sunday or deal. Surely thinking Protestants must admit there must be something wrong with the system. If it had any element of supernatural life it could not fail to attract some at least who feel the need of religion and who believe that there must be some answer to the doubts and perplexities that fill our lives. But it has nothing to offer save literary essays and attacks on the Bible. Hence, in some places, referred to by Emerson when he said "Should I go out of church whenever I hear a false statement, I should not stay five minutes," one hears the old charges, but they fall heedless on the ears of the generation; and, moreover, most of our separated brethren who read are constrained to admit that the revolt which gave them being arose in Germany from self interest, in England lust, and in France the love of novelty. Here in America Protestantism has had numerous opportunities to prove its native strength. And what are the facts? It were too long a story to narrate its varying fortunes, and suffice it to say that all its battling sects are in process of disentegration. Congrega tionalism, once so powerful, buttressed by wealth and influence, is but s shadow of the Puritan creed. Method istical fervor has been followed by the sickness of scepticism, and Presbyter ianism is tinkering up a code of belie to meet the requirements of the times They and all the minor sects that follow any phantom of over-heated imagina tions are fast going the way of heresy

Whatever, says Bishop Spalding conflicting opinions, thoughtful an observant minds may hold concernin the future of religious faith, the fate Protestantism is not doubtful. Eve now it survives not as a doctrinenot as a system of surernatural belie -but as a tendency. It is merely proof that the Holy Ghost does no abide with those who have separate themselves from the body of the Church. Now let us hear what the gre

Unitarian Dr. Martineau has to s about the Catholic Church. T answer of the Catholic Church, he say to the quotation, "Where is the ho ground of the world? Where is t real presence of God?" Here with my precincts, here alone has at le the merit of simplicity: and it easier to test than the Protests reply, which points to a fi of divine revelation, discovera only by the telescope, half way town the horizon of heaven. It has no solute need to make its title good links of testimony running back afar off sources of prerogation; no of miracles to reach and historica prove as a condition of its rights day. It carries its supernatural ch acter within it, it has brought authority down with it through tin it is the living organism of the H Spirit - the Pentecostal dispensa among us still. And if ask about its evidence, offers the spectacle of itself. Tho it alone has lived through all Chris history, it least affects antiquapomp, knowing no difference tween what has been and what is. self the sacred enclosure of whatev
