Pay me when Cured

My World-famed Remedy
Given on Free Trial
Until Cured.

I point with just pride to my invention, which during 40 years has enabled more than 100,000 sick men and women to regain their health and vigor—a record to be proud of. I say record, because I have the proof always open to inspection for those interested. Since discovering the marvellous curing powers of electricity 40 years ago, I have faithfully and persistently labored to bring it to the notice of sufferers who need building up mentally and physically, who are troubled with Nervousness, Rheumatism, Lamé Back, Wrecked Stomach, Varicocele, etc., and how well I have succeeded is best shown by the fact that the Dr. Sanden Electric Herculex is now standard in every part of the world. I admit the first 30 years was hard work, but I am now enjoying the success and satisfaction I feel is due me.

I do not believe that there to-day is a grown person who doubts the wonderful curative power of electricity—in fact, I take it for granted there is not. I, therefore, only find it necessary to give a few hints as to its application. To restore strength and vigor to a worn-out system, to feed the brain and nerves, to drive uric acid out of the blood, to strengthen a muscular center, as in lamé back, to give renewed and healthy action to the stomach, liver and kidneys—in short, to really renew the life forces of the whole body, the continuous galvanic current must be used and applied in

a mild, prolonged manner, to allow the system to absorb it. The strong, harsh current applied from the ordinary battery is mostly wasted, as the system only accepts a small portion of it, just as the sudden heavy shower mostly runs off, while a gentle, prolonged rain is thoroughly absorbed. My invention does exactly as explained above. You put it on when going to bed and take it off on arising in the morning. It gives a soothing, exhilarating current you instantly feel, but not sufficient to in the least disturb you. It fills you with new life, and electrifies every nerve and drop of blood in your body. As weakness and disease is a LACK of electricity, how can you wear my Electric Herculex without receiving benefit? I know you cannot, therefore I invite you to send for it on absolute free trial.

Not a Cent to be Paid Until Cured

The price is as low as \$5.00 in many cases, and you get a discount for cash if you prefer to deal that way

As the founder of the Electric Body-Battery system of treatment, my success is the envy of many, and my Herculex is, of course, imitated (what good thing is not?), but my great knowledge to advise and direct my patients is mine alone and cannot be imitated. I give it free to all who use my invention until the cure is complete—My Herculex is guaranteed to give a current for at least one year.

Call or send for my Electric Herculex to-day, or if you want to look into the matter further, I have two of the best little books ever written on electricity and its medical uses, which I send free, sealed, upon request.

Humorous

REVIVAL OF WHISKERS.

The *Daily Mail* has terrified the public by suggesting that whiskers may be revived.

Therefore, in the interests of Social Science, I have attempted to interview a hundred whiskered men with the view of ascertaining for what purpose they wear these fittings. I have not hesitated to approach the owners of cutlets, sideboards, face-fins, mutton-chops, fungi, ear-muffs, weepers, holdalls, Clarkelets, let-us-prays, quasi-Dundrearies, ear-guards, whiskerettes and book-markers, in order to solve the problem. Here are the answers I obtained:

- 2 men to please their wives.
- (These men were singularly lucky in their wives. Their wives seemed to be easily pleased.)
- 3 men to please themselves.
- 12 men (French) because they were notaires
- 8 men to make their faces appear fatter.
- 2 men to make their faces appear thinner.
- 1 man because he had "always" done so.
- 2 men for the sake of their health.
- 1 man because his "father wore them."**
- 23 men because it didn't matter a tinker's curse to me.
- 5 men for the cryptic reason that the practice enabled me to mind my own business.
- 1 man because they increased his powers of kicking.
- This is where I went into hospital.
- * * * * *
- *I have never believed that any child has been born with a silver spoon in its mouth.

Therefore I do not credit this statement.
**Not, of course, the same set.—
F. R. in *Pall Mall Gazette*.

Several ladies sat in their club a few evenings ago discussing the virtues of their husbands. "Mr. Bingleton," said one of them, referring to her life partner, "never drinks, and never swears—indeed, he has no bad habits." "Does he never smoke?" someone asked. "Yes; he likes a cigar just after he has eaten a good meal. But I suppose, on an average, he doesn't smoke more than once a month." Some of her friends laughed, but she didn't seem to understand why.

In a Leipzig show-window there is on exhibition a clock made entirely of glass, with the exception of the springs. It took a man, who is now seventy-one years old, six years to make it. The clock is quite transparent, every movement of the component parts being clearly visible.

"Pop!"
"Yes, my son."
"What kind of wood do they use most in tanning?"
"Well, when I went to school, my boy, they used birch."—*Yonkers Statesman*.

After the railway accident: "Did you get compensation, Bill?" "Yus; five pounds me and five pounds the missus."
"Why, I didn't know a she wor' hurt."
"She wasn't, but I had the presence of mind to fetch her one on the head with me boot."—*Taller*.
