No. 36

In the Right Spot

THAT is where the Barr Register hits **YOUR** business. It hits the bad accounts. It gets the money in and reduces your outstanding accounts to a minimum. It hits the old, clumsy method of book-keeping. It does all this bookkeeping at one writing. It keeps the accounts posted up to the minute. It hits the foolish system of rendering accounts but once a month, that keeps your customers from paying their bills for a whole month.

These are proved facts. Would such improvements hit **YOUR** business in the right spot? Then get more information. Write right **NOW**.

BARR REGISTERS, Limited,

Trenton, Ont.
