

GERMAN AIRCRAFT RAID KENTISH COAST YESTERDAY

First Raid at One in the Morning, Second in the Afternoon, One Man is Killed, and Material Damage Done is Insignificant.

London, Jan. 23—German aircraft paid two visits to the Kentish coast yesterday. The first raid occurred at 1 o'clock in the morning while the second came shortly after noon. One man was killed in the first attack. The material damage was insignificant. No damage was done in the second raid and no casualties are reported.

The War Office issued the following report last evening: "Following an aerial attack on the east coast of Kent in the early hours of the morning two hostile aeroplanes made a second attack in the same locality shortly after noon. Under a heavy fire the raiders disappeared, pursued by our naval and military machines. "No casualties are reported." "An official statement issued earlier in the day said: "Taking advantage of the bright moonlight, a hostile aeroplane visited the east coast of Kent at 1 o'clock this morning. "After dropping nine incendiary bombs in rapid succession the aeroplane disappeared over the North Sea. "No naval or military damage was done, but private property suffered. The incendiary bombs caused several fires, all of which were extinguished by 2 a.m. "According to reports made after the raid the following civilian casualties occurred: "One man killed, and two men, one woman, and three children slightly injured. "The County of Kent forms the southeasternmost portion of England, to the south of the Thames. It includes part of the city of London, but the wording of the official statement indicates that the aeroplane did not reach the city. The point nearest London on the eastern coast of Kent is some fifty miles from the centre of the city.

A point of interest in the official account of the raid is the statement that it was made by an aeroplane. Heretofore Germany has relied principally on Zeppelins for aerial attacks on England. Of late, however, there has been much discussion in England of a new type of German aeroplane, the Fokker, which has been said to excel the aircraft of the allies. English newspapers stated last night that the British air force was outpowered and outgunned. Harold J. Tennant, Parliamentary Under-Secretary for War, replied to this criticism in the House of Commons, asserting that the Fokker was well adapted to defensive operations, but was incapable of making long flights. Some of the London newspapers were not satisfied with this statement pointing out that the British headquarters reports showed the loss of sixteen aeroplanes in a month. It was suggested that Fokker aeroplanes would accompany Zeppelins when the next raid over England was made. The raid comes after an interval of several months, during which England, so far as has been reported officially, was immune from such attacks. The last previous occurrence of this nature was on October 13, when fifty-five persons were killed and 114 wounded by a Zeppelin attack of London. It has been reported by returning travellers, however, that the Germans have made many attempts since that time at aerial attacks, but that their aircraft were turned back by British aeroplanes.

ARGONAUTS BEAT BATTERY AFTER EXTRA PLAYING

Great Crowd Saw Soldiers Lose on Saturday Afternoon.

TORONTO DOWNTOWN THE CANADIANS

Skiner Ronan Placed Under Arrest for Assaulting a Player.

Toronto, Jan. 24—Before the largest crowd which has ever witnessed an afternoon hockey match in Canada, Argonauts on Saturday defeated 4th Battery 5 to 4 in an O.H.A. senior fixture after twenty minutes of overtime. It was without a doubt the best time of the first period, the soldiers' backers loosened up and offered odds on their team, and the Argonauts' supporters were slow to take it. Unlike in the other meetings between these teams, it was the Battery who went away with a rush in the early part of the game, and it was Argonauts who came from behind to tie the score just before time expired, and to win out in the two overtime periods. Gilbert did not stand out as prominently on Saturday as he did in the first game, because he did not have as many shots to handle. However, the Battery gave him plenty to do, and he acquitted himself in his usual style. Jones, in the Battery goal

was just as good as Gilbert and his many clever stops earned the applause of the large crowd.

TORONTO WIN ANOTHER
Toronto, Jan. 24—In a game which was conspicuous by much rough play, the Toronto N.H.A. team on Saturday night defeated Canadiens 3 to 1. It was only the second victory of the season for the local team, and should win more games before the season closes. Ronan, the former Toronto player, was placed under arrest on a charge of aggravated assault on Skinner of the Canadiens, who was on the ice with him when Ronan struck him. Skinner was attempting to check Ronan, the latter lifted his stick and caught the local lad over the eye. Although the injury was not serious, the offence seemed deliberate. Ronan was sent off for the balance of the

Eminent Scientists
are against alcohol. They have discovered that alcohol is a life-destroyer.
"Alcohol causes chronic diseases of the heart, liver, stomach and kidneys, increases the death rate from pneumonia and lessens natural immunity from infectious diseases."—Weekly Bulletin, New York City, Dept. of Health, June 19th, 1915.

Moderate Drinkers
Life insurance men declare that MODERATE drinkers shorten life on an average from 10 to 13 years by their occasional alcoholic drink.
The attitude of life insurance to alcohol is especially significant because there is no phase of business so scientifically accurate.—Outlook, June 30th, 1915.

English Doctors
say to the troops:—
Alcohol slows the power to see signals. Alcohol confuses prompt judgment. Alcohol spoils accurate shooting.
Become total abstainers.
The above is taken from a poster issued by English physicians.

The Red Cross
nurse says to you:—
"Alcohol, by lowering resistance, nine times out of ten, makes it just so much harder for the patient to recover."
"Careful, therefore, how you use it as a medicine."

The New War Against Alcohol

THE new non-partisan movement for a DRY Ontario—the New War against alcohol—is under the direction of a body of able, powerful and determined men. Financiers, business men, lawyers, physicians, politicians of both parties, leading men in various walks of life, have joined hands to work for the common good.

and that the last 100,000,000 pounds sterling might prove the deciding factor in this war.

Lloyd George also said that the Empire was fighting Germany, Austria and drink, and so far as he could see the greatest of these three deadly foes was drink.

Lloyd George is one of the Empire's foremost leaders. He speaks with authority. His placing of "drink" as the

Moderate Drinkers
are urged to co-operate in this new movement. There are thousands of men who use liquor moderately, and who must realize that in times like these they should sacrifice something for the common good. When patriots are giving their lives for the Empire surely moderate drinkers will be glad to help save the money now spent in alcohol. If moderate drinkers will think seriously they must realize that Ontario cannot afford the colossal expenditure of upwards of \$30,000,000 yearly for alcoholic beverages. Common sense and sound business demand that this appalling waste of money for alcohol should be saved for the Empire's and Ontario's more vital needs.

Lloyd George has stated that the "silver bullet" has been instrumental in winning other wars for Great Britain,

Empire's Most Deadly
foe should be sufficient to enlist every patriotic moderate drinker with the forces that the Committee of One Hundred is mobilizing to secure prohibition in Ontario.

Petitions to the Provincial Government for prohibition in Ontario will be circulated in the near future. They will ask that the Government bring down a Bill for the Prohibition of the traffic in Intoxicating Liquors for beverage purposes, up to the limits of powers of the Legislature, such Bill to become law—(a) When enacted by the Legislature, or in the alternative, (b) upon submission to the electors and upon receiving the approval of a majority of the electors voting thereon.

Every voter will be given the opportunity to sign. Failure to sign means that you line up on the side of alcohol—the Empire's most deadly foe. In the present crisis what man's conscience will permit him to do that?

score down to small proportions.

President T. Emmett Quinn Saturday night added another rule to the N.H.A.—that is, the officials must be kept apart from the public shortly before a game begins, and not allowed to talk to anyone until it ends.

Lodge Notes
The members of Brantford Lodge, No. 74, A.O.U.W. held their first regular meeting of the new year on Friday evening, 21st inst., and were favored with a large attendance. The officers elected and installed for the current term are as follows: P.M.W. Bro. L. Durham; M.W. F. J. Watson; Foreman, W. D. Farr; Overseer, J. E. Flowers; Financier, M. F. Brown; Res.-Treas., A. C. Graham; Guide, C. R. Van Fleet; I. W. C. F. Lewis; O. W. J. Wiles; Med. Examiner, Wm. Nicol, M. D.; representative to Grand Lodge, A. C. Graham; alternate representative, F. J. Watson.

The auditors submitted their report which showed the different departments well managed and the finances in good condition. General business matters were under discussion, and interesting and instructive addresses were given by Bros. James Hartley, K.C., ex-Mayor C. H. Hartman, Irwin S. Armstrong and other members.

But more extraordinary of all is the square-nosed sperm whale. Instead of having plates of baleen, this whale carries a row of twenty to twenty-five heavy teeth on each side of the lower jaw. These fit into sockets in the roof of the mouth, and assist in holding the giant squid and cuttlefish on which the enormous animal feeds. The squid seldom gets away from the warm currents, hence the sperm usually remains in the tropics and in the Gulf of Japan streams.

Specimens of the blue or sulphur bottom whale weighing seventy-five tons and measuring 87 feet have been known. The mouth is sufficiently large to permit ten or twelve men to stand upright in it, but the throat measures only about nine inches in diameter. The "finback," closely related to the blue whale, has been called the greyhound of the sea, for its long, slender body is built on the lines of a racing yacht, and the animal can equal the speed of the fastest steamship. The "humpback" is the most interesting of our large whales, because of the fact that its habits are more easily studied than are those of other members of the family.

MORE MEN THAN WOMEN HAVE APPENDICITIS.
Surgeons state men are slightly more subject to appendicitis than women. Brantford people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler's, often relieve or prevent appendicitis. This mixture removes such surprising food matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT easy action of Adler's-ika is surprising. M. H. Robertson, Limited.

EIGHT MEN RESPONDED NIGHT'S BIG RECRUIT
Very Fine Fine Speeches Messrs Captain Forgie Buchanan—Mr. J. H. E. Also Delivered Good Address

Eight recruits, one of them a married man with two sons at the front, came forward at the conclusion of last night's recruiting meeting at the Grand Theatre. The appeal for men was made chiefly by Major Buchanan of the 75th, a veteran of St. Julien and Langemarck, and who comes from a fighting stock, his father having led the ARGYLE and Sutherland's until incapacitated by wounds; and his sister is nursing in France. Major Buchanan, at the end of a stirring speech, asked all the men who were over age who would go if they could, to stand up. Over 50 showed themselves, and then he called upon the ladies who would help recruiting for the Battalion to stand, and over 150 showed they were ready and willing to assist. Then the Major called for men to serve, and amidst encouragement, music and cheers, one by one the men came forward until eight had offered themselves.

ON THE PLATFORM
As usual the Grand Theatre was filled to overflowing, and a very bright meeting was held. Mr. Joseph H. Ham was in the chair, and besides him and the two speakers, Captain Forgie and Major Buchanan were on the platform. Major McLean, W. G. Raymond, Lt.-Col. Cutcliffe, Lt.-Colonel Cockshutt, W. Norman Andrews, ex-Mayor Spence, Rev. A. E. Lavell, President Ministerial Alliance. The Brant Battalion band furnished good music, while Ptes. Nuttycomb and Murray rendered patriotic songs in good style.

"CALLED" THE WHISPERERS
Mr. Joseph H. Ham, M.P.P., in his opening address, reviewed briefly and interestingly some features of history wherever autocracy and democracy had clashed in contest as at the present, and he made an earnest appeal to young men to come forward. Captain Forgie, attached to the 16th (Highlanders) Battalion O.Y.M.C.A. work, and now on leave, gave an especially attractive talk, telling many particulars of life at the front. Major Buchanan proved himself a fiery speaker. He opened his address by rebuking whisperers in the gallery, as they got close attention for the rest of his speech. He confessed himself utterly at a loss why recruiting meetings should have to be held at all; why men did not flock forward to meet the crying need. He discussed reasons advanced for not enlisting and refuted them in detail. He was quite original in many of his statements, one striking one being the definition of Britain, as the people sitting in the building, the mothers, fathers, sisters and brothers of those present. He also gave a very vivid account of his first experience under shell fire.

The prevailing epidemic of grip and colds was manifested in the amount of coughing done by the audience last night; at times it was so general, speaking was difficult. Only about ten per cent of those present were of military age, and of those many had already been rejected. The appeal was so direct to the young men, that the person on the fence stays away.

MR. HAM
Mr. J. H. Ham, M.P.P., stated that he wished, in addressing a meeting such as the one before him, that he were in his old days, but he was four years too old. He had a son in training, however, and although un-
