

GENERAL NEWS

MILITARY INSUBORDINATION.

Port Arthur, Sept. 13.—Practically all the members of the 96th Regiment band were dismissed from service for insubordination. The regiment held a church parade to St. John's yesterday, and when the others went inside the bandmen refused and remained outside sitting on the grass. Today Colonel Laurie, the commanding officer, ordered all to turn in their uniforms, and receive dismissal.

WILL TRY AGAIN

London, Sept. 9.—Lieut. Shackleton intends making another try for the south pole next July. His expedition will have a base in Macmurdo Sound and another in King Edward Sound, if that point can be reached. The object of the expedition will not only be to try for the pole but also to do geographical work in King Edward Sound, which is an unknown region. Meanwhile Shackleton will lecture in the United States, beginning in October.

FORTY BUSHEL YIELD

There has been no unnecessary bragging about the wheat crop this year. The farmers have been optimistic, that's all. They have quietly refused to estimate the wheat crop, saying that when threshing season arrived they might do some talking. Evidently they are going to show us all right. J. M. Neufeld, a Rosthern farmer, has finished his threshing. From 63 acres of wheat he secured 2,500 bushels of No. 1 Northern. This is an average of slightly less than forty bushels per acre.—Rosthern Enterprise.

MONTREAL CIVIC ENQUIRY

Montreal, Sept. 14.—The Royal Commission, which has been probing into the civic administration of Montreal for the best part of the summer, finished its investigation today. Judge Cannon will now make his report to the attorney general of Quebec. The closing scenes were much of the Alphonse-Gaston order. The lawyers who had appeared in shoals thanked Judge Cannon for his impartiality, and Judge Cannon complimented the legal fraternity on their work. The report will be eagerly awaited, and it not expected until the end of the month.

JUMPED INTO WELL.

Rosthern, Sask., Sept. 10.—While being taken to the depot this evening Aaron Giesbrecht broke away from Sergeant Pook and ran half a mile into the country, where he jumped into a well, trying to drown himself. He was rescued only with greatest difficulty, as he was determined to end his life. Giesbrecht had been acting strangely since last June. Yesterday he threatened to run a pitchfork through his wife. In court today he was judged mentally unsound, and committed to Prince Albert jail to be held in surveillance until proven sane. Giesbrecht was brought back in time to be taken north tonight.

CENTRAL FAIR OPENS

Ottawa, Sept. 13.—Canada central fair opened this morning. There was no speech making. Lord Charles Bessford, who was to have opened the fair sent a letter of regret to Mayor Hopewell, in which he said he found it impossible to come to the capital on account of engagements in the southern states. Concluding his letter, Lord Charles said: "I shall have to go back to England and do what I can to secure for us an all powerful navy. Nothing can exceed the loyalty, patriotism and generous feeling that I have observed among Canadians for the old country. Canada is anyway determined that the Empire shall remain intact."

HARRIMAN HAD CANCER

Vienna, Sept. 10.—Prof. Adolph Strumppel, the Viennese specialist whom the late E. H. Harriman came to Europe to consult, now admits that when he saw Mr. Harriman in July, he diagnosed his case as cancer. Prof. Strumppel, who is now at Breslau, has sent the following signed statement to the Associated Press: "I diagnosed Mr. Harriman's complaint as carcinoma of the stomach at the end of July. I could not, of course, communicate this diagnosis to private equities, but I confirmed Mr. Harriman's American physicians that the conditions did not indicate that an operation was hopeless. I hastened Mr. Harriman's departure homeward."

RIOTS AT FOX RIVER.

Gaspé, Que., Sept. 10.—Serious rioting has occurred at Fox River, 40 miles away amongst fishermen who are dissatisfied over the prices obtained for their fish. Fishermen surrounded the office of Wm. Hymen & Son, and demanded \$4 per quintal. They attacked the manager who was severely before being released. The mob then attacked Mr. Brien, who is manager for Wm. Fruting, and mauled him severely, and finally compelled him at the point of a pistol to

ALBERTA PRESS CONVENTION.

Edmonton, Alta., Sept. 9.—The 6th annual convention of the Alberta and British Columbia Press Association opened here today. Mayor Lee, welcomed the delegates, after W. A. Buchanan was elected president. P. H. Elton, was re-elected secretary. The other officers elected were: A. B. Watt, Edmonton, Saturday News, first vice president; T. W. Quayle, Claresholm, Rev. president; W. J. Watson, Calgary Herald, third vice president; executive committee, Duncan Marshall, M.P.P., Olds Gazette; R. M. Williams, Toft Standard; F. E. Simpson, Cranbrook, Herald; J. H. McDonald, Strathcona, Plaindealer; J. A. Carwell, Red Deer, Advocate.

DIED ON TRAIN

Minneapolis, Minn., Sept. 9.—Mrs. A. W. Beise, aged 28, of Kenaston, Sask., died on the Great Western train between St. Paul and South St. Paul today, while on her way to her old home at Pine Island, Minn., with her three children, her husband, and relatives. The body was taken to an undertaking establishment in South St. Paul where it was prepared for burial, and taken on to Pine Island this afternoon. Mrs. Beise, who has been ill for the past year was on her way to Pine Island to spend her last days. A number of relatives met her in St. Paul and decided to undertake to get her home. Her youngest child is two months old and the eldest four years old.

HASLAM BREAKING

During the past six weeks the Haslam Land Co. have let contracts for 2,900 acres breaking, and have paid out in cash for work done, about \$3,000. The land that the work has been done on is nearly all between Halbric and Stoughton, and mostly belongs to parties from the States that the company have sold to, and who are intending to locate on it in the near future, but are getting it broken up before coming. The farmers who have been lucky enough to secure a share of this big contract should be thankful to the company for the work they have provided them with during the slack time of the year and the money they have expended on it.—Halbric News.

FLOWING WELL AT HANLEY

On Wednesday, Sept. 8th, in digging a well on the Rolleston farm, about a quarter mile from town, a vein was struck which had force enough to bring the water to the top. One remarkable thing about the well is that it is less than 60 feet deep, and another that it has a very strong flow (careful measurements show that it flows 1 gal. in every 2 seconds, or 36 gals. per minute). The well is a two foot bored well, being put down by Messrs. Cannon of Kenaston, and due credit should be given them for their persistence in getting down to this depth, as they had to dig out numerous rocks. The well will be iron cased. It has been quite an object of sightseeing.—Hanley Herald.

NEW STEAMSHIP RECORD.

New York, Sept. 9.—"Four eleven, thirty-five," shouted a coal stoker through one of the port holes of the Onard steamer Mauretania this evening when the revenue cutter Hudson came up alongside the giant ocean express off quarantine. On hearing the figures a loud cheer went up from those on board the cutter. The stokers' figures explained that Mauretania had made the trip across Daunte Rock lightship to Ambrose channel lightship in exactly four days eleven hours and thirty-five minutes, breaking the record established by her sister ship, the Lusitania, a week ago. The Lusitania's best time over the same course was made in four days, eleven hours and forty-two minutes. The Mauretania left Queens-town (Daunte Rock lightship) at exactly 10.15 a.m. Sunday. Her highest run was made on Tuesday last when she scored 666 miles. The day before that she made 453 miles.

SHOCKING TRAGEDY.

Edmonton, Sept. 14.—What may develop into a case of murder and attempted suicide took place at section 22, township 55, range 8, ten miles north of Mundare, on Monday morning. The parties are S. Zibily, a Russian farmer, and his wife, each about 35 years of age, who now live at the point of death in the Vegreville hospital. Some time ago the man quarrelled with his wife, with whom he has not since lived. On Monday morning the wife, accompanied by another woman went to the shack, and according to the story told, the man is alleged to have attacked her with an axe, cutting her head in a terrible manner before the horrified gaze of her companion. He

then mutilated himself in a terrible manner with a jack-knife. Zibily was corralled in the house by his neighbors and the police summoned. The woman is still unconscious, and with her husband was taken to Vegreville. She cannot recover, but it is thought he may survive.

DON'T CARE FOR CIVILIZATION

Fort William, Sept. 11.—There is in Fort William today a man 44 years of age, who has lived his entire life in Canada, and yesterday for the first time, saw a railroad train, a street car, a brick or stone building, a paved street, a theatre, and many other things that go to make up this modern civilization of ours. He told a correspondent that now he had seen these things he was contented to go back again to his home, and did not care if he did not visit what the white man calls civilization for another 44 years. The man is R. Iselhof, a factor of the Hudson Bay trading post at Martins Falls, away in the north land, more than 500 miles to the north of the city. "Do you find it lonesome, up there, and would you not like to stay here now that you have come?" was a question asked. "Not at all," was the reply, "I obtained a vacation this year, and decided to come down and see the city, but when I have seen all there is to see I want to go back."

On Sunday evening Dr. Patrick was summoned to perform an urgent surgical operation on a patient living fifty-two miles north and accompanied by Nurse Ryan, he started for the patient's home in Mr. Levi Beck's new Russell automobile. Mr. George Rogers was in charge of the car, and Rev. Father Bergonia, having business in that direction, accompanied them. When the bridge near the Reaman school was reached some thing went wrong with the steering gear and it failed to respond readily with the result that the car ran into the wheel guard of the bridge just as the other side was reached, broke this and fell a distance of three feet to the ground, wrenching the back seat of the car and throwing Nurse Ryan a distance of twenty-eight feet, the fall breaking her right arm near the shoulder. Dr. Patrick saved himself by clinging to the back of the front seat until the car was stopped. The injured nurse was brought to town, the broken arm set, and she is now doing nicely under the care of Nurse McElaney. The occupants of the front seat escaped unharmed, and the back seat was the only part of the car damaged. After attending to Nurse Ryan's injuries the party resumed their journey north.

NO NAVY PORTFOLIO

Ottawa, Sept. 12.—It is understood that a separate department or portfolio will not be created for the administration of the Canadian navy, under the scheme to be submitted to parliament next session. This is likely to be assigned the Department of Marine and Fisheries, but a separate branch of the department will be established, to be headed by the admiral in command and probably with a board of naval advisors. If the naval programme were to be on a more extensive scale that is contemplated, a portfolio might be created, but as at present constituted the Cabinet is considered to be fully manned. Estimates for the forthcoming session are now in course of preparation in the different parts of the government. It is announced that no very heavy individual projects will be provided for, but at the same time, owing to the number of works held over from last year, the total will be larger than was passed in the previous session's supply. It is learned on very reliable authority that no provision will be made for a start on the Georgian Bay Canal, at least not as a national undertaking. This will afford promoters of the scheme a chance for urging construction, or at any rate a beginning of it, by a private company with a government guarantee of bonds.

A STRIKE THAT FAILED

Of course its human nature to kick against working for \$2.50 a day when \$3.50 can be had on all sides. That is why Contractor Masterson has such an awful time getting the water mains and sewers laid this fall. The gang of laborers was hired for work in Regina at \$2.50 a day. Since they came down here the farmers have been after them for the harvest work, and it has been hard to hold them down to their contract. Last Saturday they decided that the system of payment pursued by the contractor was sufficient excuse, and on Labor Day they went on strike. The contractor had been in the habit of computing pay up till Thursday, but did not issue the pay checks until Saturday nights. On Saturday the men asked for pay up to the minute which was refused. On Monday they laid a complaint before P. C. Duncan, asking the contractor be compelled to pay them in full. The contractor responded by laying a complaint against the men for breach of contract. The matter was aired on Tuesday morning when, after hearing all the evidence, the magistrate ordered the contractor to pay wages in full, and afterwards fined the men each \$2 and costs for quitting work without permission. The magistrate told the man in charge of the gang, that they were locked up in the barracks until their fines were settled.—Estevan Mercury.

REMANDED FOR TRIAL

Roper, the Man Who is Accused of Shooting His Employer at Qu'Appelle, After Receiving Hearing is Sent Down to Stand Trial on Murder Charge.

Qu'Appelle, Sept. 11.—The preliminary trial of Milton Roper, charged with the murder of his employer, A. H. Harris, opened yesterday before Inspector Heffernan. Great interest was manifested in the crowded court. Wesley Halliday told of his suspicion being aroused on finding the deceased's horse left in the ivery stable by the accused and on his return with his father and J. Howden and an uncle of the deceased to the latter's farm, where they found Harris lying on a sack heap in a blue near the house alive. J. Howden spoke of finding his nephew. He broke the door of the house which was locked, and identified a hat and a revolver as belonging to the deceased. Deceased was apparently unconscious but spoke to Halliday when he was afflicted.

Dr. Bourns testified to having found Harris suffering from a wound in the skull and exposure. He attended deceased until his death and then performed an autopsy, when he found a bullet and a piece of metal in the deceased. He did not think it possible for deceased to have recovered. Impossible for the wound to be self-inflicted. F. Ames, J.P., testified to taking the ante mortem statement. Deceased stated that Roper shot him while he was in a buggy and he was afraid he would die. Sebastian Greuber swore that Roper left his horse in the ivery barn stating that Harris would call for it. Sgt. Dubuc testified to arresting Roper in Winnipeg where he registered as A. H. Watson. Roper at first denied his identity, but later admitted it. He had a Union Bank pass book in the name of A. H. Harris in his bag. Dubuc identified a .32 revolver as the one found in the bush and swore it was the same calibre as the bullet found in deceased's head. Roper was remanded for trial.

Farmers Should Patronize Grain Growers' Grain Co.

(Continued from page 1.)

Nobleman Goes Insane.

Vancouver, B.C., Sept. 13.—Deep disappointment and continual brooding over the loss of his seat in the British Parliament, this morning caused the Hon. Muir Wilson, a millionaire of Sheffield, England, and Servian consul, to go suddenly insane at the hotel in Vancouver, where he was stopping. He is now confined in the city jail where for several hours he kept up a succession of shrieks and screams which were heard for more than a block away. He screamed himself into a frenzy and only discontinued through absolute exhaustion. Early in the morning guests at the hotel were started when they saw striding with military bearing down the spacious stairs a figure in a British court costume, waving a gleaming sword before him. "Down on your marrow bones," he shouted. "I am the Lord, High Executioner." The guests fled in terror for an instant, till it was perceived that the man, though looking very dangerous was perfectly harmless. Later he became very violent. Wilson was formerly a Conservative member in the British House of Commons.

Police Guard Asquith.

London, Sept. 12.—President Taft, as a brother golfer, will sympathize with Premier Asquith in the difficulties he has in obtaining a game owing to his fear of the surrogates. Mr. Asquith was guarded, while playing over the Littlestone links today, by five policemen in plain clothes under the command of a Scotland Yard officer. The premier and his opponent, the two caddies and the guardians made an imposing body as they strode across the links. The presence of the "gallery" probably put the players off their game, for they took more than three hours to complete the round. One policeman afterwards said that he considered golf the slowest game he ever witnessed. The only interesting moment was at the seventeenth hole, when one of the players—it is not suggested that it was Mr. Asquith—was bunkered. The player managed to get the ball out with great effort and then crawled out himself on all fours.

The chief of police at Saskatoon, has issued a writ for libel against the editor of the Saskatoon Phoenix claiming \$10,000 damages. The editor had charged the police with winking at gambling and even taking bribes to allow the same at a circus in July last. Minard's Lintment Cures Dandruff.

Thus the shack, humble though it may be, gives one a sense of permanency, and is a happy promise of days to come. In time it will change to a larger, more pretentious dwelling as the fortunes of the owner change with the seasons "in the land where the king is wheat," and we would not wish it otherwise. The west is progressive and no part of it more so than the prairies. The shack is but a stage in the evolution of home-making in the west and not a lonely bachelor keeping house in his own crude clumsy way, enduring all hardships and inconveniences of his unpretentious lot, but is looking forward with abounding hopefulness to something better by and by, when his home life will count far above and beyond his acreage and crops and herds.

All honor then to the hope of the west, the little homes where all kinds of tongues and nationalities, are uniting in its fulfillment.—Lethbridge News.

North Pole Victims.

Table listing names of North Pole victims: Year, Explorer, Lost. Includes names like Sir Hugh Willoughby, Sir Richard Chancellor, Sir Martin Frobisher, etc.

Farmers Should Patronize Grain Growers' Grain Co.

Fort William for cash wheat, and are after the farmer to give them his wheat at that price to fill their sales. If he refuses to deal with them, but consigns his wheat to his own agency the combine has to come to them to get their wheat or forfeit their sale, and they will make them put up the price. You see how much better the manager of the farmers' agency, who has several hundred cars to sell and who knows the game, can deal with these gentlemen than the individual farmer who has perhaps one or two cars, and who perhaps knows nothing of the "tricks of the trade." I feel sure that did the farmers understand the situation they would not be misled by the wiles of the elevator interests. Relief from the combine is in sight if our people loyally support their own agency and strengthen their organization. The United Farmers can defeat any organization that Peavey and Ogilvie can put against them. They have the wheat, they now have their own agency for marketing started on a successful business basis, and only needs the support of the individual farmer in order to provide an avenue to export their grain independent of the "Grain Trust." I would suggest that you get at once as many farmers as possible together and talk this matter over. Get enthusiastic in support of our movement and we will win out. R. McKENZIE, Secretary. Manitoba Grain Growers Association. Winnipeg, Sept. 5, 1909.

The Prairie Shack.

How full of interest is the little shack, that does not figure in any building permit letter, and what a chapter in western history is that man making who lives in one, for it takes more real grit to go out into the prairie space and build a shack and live in it, than to erect a city block and rent it. It's the man who lives in his little shack who most truly typifies the life of the west. He is the man who is doing things. It is only fair when we are priding ourselves on our wheat fields and mines in southern Alberta to count in the shacks, the homes of the men, who built them. Architecturally speaking some of these are crude in the extreme, and some of their household fittings would make you laugh—or cry. Still there is no occasion to apologize for them. They are the elements of home in its virile state, and the word home means everything to the true growth of the west. Too frequently the west is regarded as a place wherein to gain wealth, and land is bought up by speculators who have no interest in building up the country or adding in any way to its improvements though they are quite willing to profit by the same when it comes through the coff of others.

THE MARKETS. WHEAT—No. 1 Northern, No. 2 Northern, No. 3 Northern, Rejected 1-1 Northern, Rejected 1-2 Northern, Rejected 2-1 Northern, Rejected 2-2 Northern, Rejected 1 Northern for seeds, Rejected 2 Northern for seeds.

Licenses Dealt With.

The board of license commissioners sat in Regina yesterday and dealt with applications as follows: J. W. Farr, Earl Grey, license recommended. Boltin and Foulstin, adjourned until Sept. 28, on account of house not being completed. J. E. Wilkinson, Broderick, adjourned until Sept. 28. R. E. Baxter, Moose Jaw, wholesale license recommended. H. G. Mitchell, Seelye, license recommended. Adam Reis, Loreburn, application withdrawn. H. S. Cattanach, Bulye, license recommended. J. P. Pomerleau, Melville, adjourned until Sept. 28, premises not completed. Royal Hotel (Kaiset), Regina, application refused.

Normal School Notes.

An unusually large number of teachers-in-training at Normal, this term, as usual, the "old province" being well represented. Twice a week the boys "pound sand" for an hour under the efficient direction of the Sgt.-Major of the 6th regiment. From 3 to 4 on Friday afternoons the Normal Library Society furnishes programs of a literary and musical nature. Some excellent talent has come to the front. Have you to teach today? No I'm on for tomorrow. The following numbers were given on Friday, Sept. 10th, viz: Male quartet—Boys Glee Club. Reading—Miss Morrison. Duet—Messrs. Jone and Bryce. Mandolin solo—Mr. J. Gillen. Speech, "What We Should Read," Mr. Turner. Solo—Mr. J. Craig. Reading—Miss Peterson. Piano solo—Mr. Warren. Essay, "Duck Shooting at Lumsden," Mr. J. Sweeney. Critic's report—Mr. A. M. Fenwick God Save the King.

Indians May Vote.

Ottawa, Sept. 14.—A proclamation has been issued by the Federal government extending provisions of the Indian Act in regard to the exercise of the franchise of all bands of Indians whose reserves are situated south of the north boundary of township 70 as surveyed or projected through the provinces of Saskatchewan and Alberta. "That Indians of Alberta and Saskatchewan are placed on the same basis in regard to the exercise of the franchise as the men of older provinces." In future an Indian of those provinces who desires a white man's right of voting may qualify for the privilege by cultivating and securing the deed of a parcel of land. Hundreds of Indians in Eastern Canada have made themselves as important a factor in an election contest as a pale face, and it is expected that the Indians of the plains will not be slow in following their example.

G. M. Annable Company.

This is Moose Jaw's day of large companies; only a few weeks ago a distributing company was formed with \$300,000 capital subscribed, and on Tuesday there was born the G. M. Annable Company Limited, capitalized at half a million dollars, of which the whole amount is subscribed and fully paid up. The business of Mr. Annable has grown within the past couple of years so that it was far beyond the power of one man to keep all the details working as they should. Only a year ago the office staff consisted of Mr. Rutas Smith, the new manager of the company. For some months now five or six people have been constantly employed, first class system has been introduced, and business put on a most thorough basis. During the past summer the Annable business has grown by leaps and bounds, passing all expectations and the formation of a company was the only feasible way of handling the business offered. Some British Columbia capitalists

who have had their eye on "Mac" for some time, have subscribed for \$200,000 of the stock, fully paid, which starts the new company off at a splendid gait and makes them well able to handle all the business that is offered. The president of the new company is Mr. Annable, and the vice president and manager Mr. Rufus Smith. Mr. Smith has been in the country only a little over three years, but in that time has made a record for himself as one of the most successful business men in the city. "Rufus" as he is known by his friends, is a very careful dealer; has added a great deal to the success of the Annable business and also has done a few good turns for himself. Mr. Andrew Spies has also a substantial interest in the new company, and John E. Chisholm is appointed as the board secretary.—The News, Moose Jaw.

THE TOWN OF ROSTHERN HAS STRUCK A TAX RATE OF FOURTEEN MILLS ON THE DOLLAR.

Mr. and Mrs. G. S. Houston have returned from a three weeks' trip to the east. It is probable that the functions in connection with the laying of the corner stone of the new Parliament buildings, will proceed as follows: Laying of corner stone at 2:30; presentation of civic address and reception at city hall at 4 o'clock; concert in the city hall at 8 o'clock. It is likely that a public holiday will be proclaimed. On account of not being able to amicably make a settlement with J. K. McInnis for a right of way for their Regina-Bulye branch through his property north of town, the C.P.R. made an application to the court for an order allowing them to proceed with the construction work. After argument before Judge Newlands in which the C.P.R. was represented by W. A. Allan, and J. K. McInnis by J. M. Martin, an order was issued which allows the company to go ahead with construction work as soon as the sum of \$15,000 is paid into court. This sum is to remain there until a board of arbitrators, which is to be appointed decides upon the remuneration Mr. McInnis should receive.

IN THE SURROGATE COURT OF THE JUDICIAL DISTRICT OF REGINA

IN THE GOODS OF PRISCILLA LEFLEUR, DECEASED. TAKE NOTICE that pursuant to the order of the Honourable Mr. Justice Prendergast dated the 1st day of September, 1909, all persons having claims against the said estate are required to send in to Messrs. Allan, Gordon & Bryant of the City of Regina in the Province of Saskatchewan, solicitors for the Executrix of the said estate, on or before the 30th day of October A.D. 1909, a statement of their respective claims against the said estate duly verified, together with a statement of the security, if any, held by them respectively. DATED at Regina this 14th day of September, A.D. 1909. ALLAN, GORDON & BRYANT, Regina, Sask., Solicitors for Executrix.
