

Some thing About

CANNED VEGETABLES

Owing to the very early, and severe frosts this fall, canned corn and canned tomatoes are not so plentiful as we would like. To make up for this, canned Peas and Canned Beans are quite plentiful and fairly cheap. There is no need to worry over them now at any rate, for fresh vegetables are exceptionally good and reasonable in price.

TWO BROWN CASES

Two Brown cases were tried in Ridgeway last night. The Reverend Constable from Blenheim, visited that town recently and the result was two cases of infringement of the liquor law. Vital Caron was charged with selling liquor to minors and Geo. Richardson, livery keeper, was charged with selling liquor without a license. Two sons of Mr. Richardson, minors, went to the liquor store of Mr. Caron and bought liquor which they handed over to a young fellow, who was on the Indian list. A conviction was registered against Caron and he was fined \$10 and costs. The case against Geo. Richardson was dismissed as Magistrate McKinley was not satisfied that it was a sale. The Crown will appeal this case. H. D. Smith, County Crown Attorney, prosecuted. L. J. Reyeraft defended.

What Sulphur Does

FOR THE HUMAN BODY IN HEALTH AND DISEASE.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single glass is far more effective than a tablespoonful of the crude sulphur.

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafers.

They are small chocolate coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health, and the direct action on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with syrup and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers are undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilkins while experimenting with sulphur remedies soon found that the sulphur from Calcium was superior to any other form. He says "For liver, kidney and blood troubles especially when resulting from constipation or malaria, I have been surprised at the results obtained from suffering from boils and pimples and even deeply-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article, and sold by druggists, and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles and especially in all forms of skin disease as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers" will find in Stuart's Calcium Wafers, a far safer, more palatable and effective preparation.

The art of saying appropriate words in a kindly way is one that never gets out of fashion, never fails to please, and is within the reach of the humblest.

CHILDREN'S AID SOCIETY

Dr. R. V. Bray has returned from attending the Seventh Annual Convention of the Chatham and Correction Association. The Association met in London this year. Mrs. Fred Goodland, Mrs. W. D. Sheldon, and Dr. R. V. Bray attended. Adam Beck, Mayor of London, read an address of welcome. He also dealt with the various charities of the city and the good fellowship, existing between the denominations in their charitable work. Adam Brown, of Hamilton, responded to the address and thanked the Mayor on behalf of the gathering for his kindly welcome. Dr. J. C. Mitchell, Toronto, outlined the prospective home for the care of epileptics. He gave a short account of his visit to the epileptic institutions of Germany, England and the United States. James L. Hughes, Public School Inspector, Toronto, lectured on Wednesday evening on the subject "The Bad Boy" to a very large audience including most of the school teachers of the city of London. Mr. Hughes believes all boys are good but are made bad by their environment or some hereditary trait which develops as the grows older. He is a strong advocate of moral suasion. Colonel F. E. Howell, of Whitby, Crown Attorney, spoke on boy problems. Staff Inspector Archibald, of the Salvation Army, recently appointed by the provincial government parole officer for the province, gave an interesting talk on his work among the men of the Central Prison and other institutions of a similar nature. J. J. Kelso gave a very interesting address on children's aid work mentioning particularly the workings of the Juvenile Court.

Dr. R. V. Bray was appointed on the executive committee and was nominated chairman of the committee. The delegates were entertained by Mayor and Mrs. Beck to afternoon tea, at the London Hunt Club and a trolley ride around the city.
