A GREAT FUTURE FOR AMERICA

WILDS. New York, Jan. 22.—The picture of Macailay's New Zealander, sitting upon the ruins of Westminster bridge in ages to come, no longer appeals to the imagination. A far more startling metamorphosis is promised for the future by Bishop Hartzell, the Methodist Episcopal Bishop of Africa. The city of Timbuctoo, famous as the subject of jocularities, is likely to at any moment take the place of London for Paris, and direct fashions of the world. Moreover, before long, the traveller may dash in a palace car through the country of the dwarfs discovered by Stanley, and over territory rendered memorable, by the adventures real or natural of Paul Du Chaillu. Speaking as the guest of honor at a reception of the Phi Gemme Delta Fraternity, last night, the bishop said:

"It tell you that in no great time the African cities will be the centres of civilization. Within a few years I except to ride from the Cape to Cairo in a palace car, over 6,000 miles of steel rails." New York, Jan. 22 .- The pictur

LITTLE NEWS FROM THE FRONT

Stomach troubles are so common and in most cases so obstinate to cure, that people are apt to look with suspicion on any remedy claming to be a radical permanent cure for dyspepsia and indigestion. Many such people pride hemseves o'n their acu eness in never being humbugged, especially in haselicines. London, Jan. 22.—The dearth of news from South Africa still continues, though one or two slight engagements are reported. Lord Kirchener reports to the War Office that the Boers attacked Helvetia, Eastern Transval, at mid-night. The Britis suffered no casualties.

The Cape Town budget includes a report of fighting outside at Maraisburg, in which a corporal was wounded. It is believed that the invaders are marching towards Molteno. The town of Maraisburg was not entered. re being humbugged, especially in medicings.

This fear being humbugged can be carried too far, so far in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the chims made fort a remedy o reliable and univewrsally used as staart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important repect from ordinary patent medicines for the reason thy, they are not a secret paten, medicine; no secret is made of the ingredients, but analysis shews them to contain the natural digestive ferments, pure aseptic pepsin (government test) Golden Seal and dialase. They are not cathertic neither do they not powerfully on any particular organ, but they cure indigesting the fool caten, thoroughly before it has, time to ferment, sour and cause

owels, wh'reas the whole trouble in the stomash. Stuart's Dyspepsia Tablets taken after meals, digest the food. That is all there is to it. Food, not digested or half-digested is poision, as it creates as, acidity, headach s, palpitation of the hart, loss of flesh and appetite and many other troubles, which are often called by other name.

Winter is with us and only good warm winter garments are any protection against the cold. Doctors will tell us that it is the state of the system that makes some feel the cold more than others, and of course they are right. But we think the state of the wardrobe has something to do with it too. People need good warm Jackets and comfortable Furs to make a Canadian Winter a healthy and enjoyable one. Many have taken advantage of our offer in Furs, to procure what they need, and to-day we publish a Jacket List that ought to be within the reach of everyone.

London, Jan. 22.—The Rome correspondent of the Morning Post describes a new field gun which has been adopted by the Italian artillery. It is made of steel and has a calibre of 7.5 centimetres. Its effective range is 6.5 kilometres of the existing Italian field guns. Ninety butteries of six pieces earch are being constructed and will be completed by the end of 1902.

The correspondent adds that artillery officers acquainted with the new French and German guns regard the Italian gun as considerably susperior to any yet produced.

Spots and Builds them Up.

Canadians are workers some from necessity, others from ambition. Some to provide for self, others for the drily bread of those dependent on them. All alike fail when the system weakens and health gives way to dissease. The strain of, work is on the minds of some, on't he bodies of others, but the nourishment of both is in the nerves and blood.

When the mind refuses to concentrate in thought, when the brain tires and aches, when sleepless nights are followed by days of langour and discouragement, when the heart painitates, the stomach weakens and there are pains and aches of heart and body, Dr. Chase will help you by means of his Nerve Food, the greatwelf blood builder and nerve restorative of the age.

Without deadening the nerves, without stimulating the heart to overtaction Dr. Chase's Nerve Food gradually and cartainly reconstructs; the tissues wasted by overwork and discoerage for Dr. Chase's Nerve Food in most extraordinary.
