### NEW FRUITS.

I have now in stock a large portion of my purchases of New Fruits to which I wish specially to draw your attention at this season of the year. The Fruit Crop of 1888 is now to band and although a large one, the quantity of choice Fruit is comparatively small, consequently there is a large quantity of low priced goods on the market. Expecially is this the case with Raisins, a large proportion of which have been rain damaged, and are not desirable goods to buy, and are being freely advertised at what seems to be low prices for New Fruits, but when compared with Prime or \*elected Fruit they are dear. I have been careful to purchase only Prime and Sciental Fruit, so that parties purchasing from me may rely on getting
