AYER'S
Cherry Pectoral.

No other complaints are so insidious in their nature as those of the throat and lungs. They are often so trifling by the majority of sufferers. The ordinary cough or cold, resulting from exposure to cold winds, or from a cold in the head, is often the beginning of a fatal disease. AYER'S CHERRY PECTORAL has been used for many years, and its efficacy is well known to all who have used it. It is a powerful expectorant, and it loosens the phlegm, and it soothes the inflamed membrane of the throat and lungs, and it is taken in all cases without delay.

A Terrible Cough Cured.
"While in the city last winter my little boy, three years old, was taken ill with croup. He was coughing and wheezing, and his throat was so inflamed that he could not swallow. One of the family suggested the use of AYER'S CHERRY PECTORAL, and a bottle was procured. It was given him, and he was cured in less than half an hour. He is now as healthy as ever, and he tells me that the CHERRY PECTORAL had saved his life. I can now recommend it to all who are afflicted with croup, or any other disease of the throat and lungs. It is a powerful expectorant, and it loosens the phlegm, and it soothes the inflamed membrane of the throat and lungs, and it is taken in all cases without delay."

Group.—A Mother's Tribute.
