Died
On Tuesday evening last, the 11th inst., at Danbury, Conn., after a lingering illness, James McKay, Esq., M. P. P. aged 40 years.

THE ENGLISH MAIL was brought to town by E. L. Lydiard Esq., who came passenger in the Mail Boat Isabella, and was landed at Wood Islands.

RUSSIA AND TURKEY.
The Oriental question has assumed the most grave aspect. The Car and the Sultan are now upon the verge of open war: and it is difficult to conceive by what fortuitous event a bloody conflict can be avoided.

FLUID! FLUID!!

AYER'S PILLS.

A new and singularly successful remedy for the cure of all Biliousness, Constipation, Headache, Jaundice, Dropsy, Rheumatism, Fever, Gout, Hemorrhoids, Irritability, Indigestion, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and such sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a cative habit of the bowels exists; besides it soon generates various other fatal diseases, which might have been avoided by the timely and judicious use of a good purgative.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete of the present class. They are compounded of the drugs themselves, but of the medicinal virtues only of Vegetable nature, attenuated by chemical process, to a state of purity and combined together in such a manner as to insure the best results. The system of composition for medicines has been found in the Chemistry of the Pills, to be more efficient remedy than had hitherto been obtained by any process. The result is perfectly obvious. While by the old mode of compounding, every medicine is rendered less efficacious, or even injurious; by this, each individual virtue which is desired for the curative effect is preserved. All the best and choicest titles of each substance employed are left behind, the curative virtues only being retained. Hence it is evident that the effect of these Pills, is to produce a more purely medicinal, and the Pills a more powerful cathartic to cleanse than any other medicine known to the world.

As it is frequently complained that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Purgative and Pills are made to the whole body of Practitioners in the United States and British America. If however they have not received them, they will be promptly forwarded by mail to his address. I would be taken if their composition was known! Their life depends on their mystery. I have no objection.

The composition of my preparations is left open to all men, and all who are competent to judge on the subject, freely submitting their criticisms to their friends and the public. The Chemistry of my Pills, and even more confidentially, and are willing to certify that their preparations were more successful by these means than by any other. They expect by the result of their own experience, the internal virtues to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their impugned action to health, and by converting whatever they exist such damage as may be done to the system.
