

IT PUT HIM ON JOB EVERY DAY FEELING FINE

**Dartmouth Man Was So
Run Down He Often
Lost a Week at a Time
Before He Got Tanlac.**

"I haven't but one regret about Tanlac and that is that I didn't learn of it five years ago when my trouble first started, as I am convinced it would have saved me lots of money and suffering," said Joseph E. Clattenburg, Brenton St., Dartmouth, N. S.

"I am willing to go down in black and white as saying that Tanlac is far superior to any medicine I ever heard of. It has simply made a new man out of me. When I began taking it I was in such a weak and run down condition that it wasn't unusual for me to have to lay off work for a week at a time. I was just about as discouraged as a man ever gets to be.

"Tanalac has put me back on the job feeling fine. In fact, I never felt better in my life than I do right now, and I would be an ingrate if I didn't tell my experience with this wonderful medicine."

Tanalac is sold by all leading druggists.

Moran School Report for March

Averages are as follows:

Grade V. (a)—Lavina Weaver 93; Helen Bowes 88; Viola Gunter 85; Greta Weaver 81; Freddy Gunter 81.

Grade V. (b)—Leona Bowes 81; Mae Weaver 66.

Grade IV.—Nora Bowes 79; Mary Bowes 71; Anna Kervin 65; Everett McDonald 61.

Grade III. (a)—Mary Hennessy 82; Laurence Gunter 80; Leo H. Bowes 77; Murdoch Bowes 73; Avilla Kervin 73; Frances Kervin 72.

Grade III. (b)—Jennie Weaver 92; Della Kervin 61.

Grade II. (b)—Eldon Weaver 83; Cecil Bowes 81.

Grade I.—Margaret Bowes 79; John Hennessy 63.

Perfect Attendance.—Mae Weaver; Nora Bowes, Eldon Weaver, Cecil Bowes, Leo Bowes and Lavina Weaver.

Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigor of the nerve cells is restored by such up-building treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearse, Nunn St., Cobourg, Ont., writes:

"My system became run-down and I suffered greatly with pain in my head. This was so severe that I would have to bind a cloth tightly about my head so that I could get my work done. A friend advised me to use Dr. Chase's Nerve Food, and after taking the first box I found quite an improvement in my condition. I continued taking them until I had taken about seven boxes, and they strengthened and built up my system wonderfully, completely restoring the pain in my head."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Railway News in Brief

Calgary.—That the Canadian Pacific would be shipping coal out of the Drumheller district in the course of the next few weeks was the statement made by D. C. Coleman, vice-president on western lines, Canadian Pacific Railway. Mr. Coleman spoke in quite an optimistic view in reviewing present conditions and stated that freight traffic throughout the west showed an improvement compared with the corresponding period last year.

Sudbury.—By April 15th between six and seven hundred men will be given employment on the Sudbury district of the Lake Superior Division of the C. P. R. Of these some two hundred and fifty will be employed at the creosoting plant at Sudbury, which will re-open on April 15th. The balance will be employed on track maintenance and with the bridge and building department.

On April 3rd the C. P. R. started a large number of men at work replacing ties, while later on in the summer considerable rock blasting will be done.

Winnipeg.—That there is plenty of elevator space on the Canadian Pacific tracks at the head of the lakes to take care of all loading done in the interior between now and the opening of navigation, which will be about April 25 was the statement made by Canadian Pacific Railway officials.

Approximately 285,000 bushels per day of coarse grains as well as wheat are being handled by the company. A percentage of wheat loaded does not reach the head of the lakes, but is absorbed by flour mills at Winnipeg, Moose Jaw, Medicine Hat and Calgary.

Montreal.—The annual report of the C. P. R. issued last week showed gross earnings for the year 1921 of \$193,021,854, which were less than those of the previous year by \$9,619,484. Operating expenses were \$153,250,114 and net earnings were \$39,771,740, an increase for the year of \$1,043,096. The number of passengers carried was 15,113,886, a decrease of 1,600,001. The average journey per passenger was 89.87 miles as against 108.45 miles last year and the average fare paid was \$2.59 as compared with \$2.59 in 1920. The number of tons of freight carried was 22,105,881 tons as against 20,101,184 for the previous year. The year's tonnage of freight multiplied by the number of miles it travelled was 11,121,828,012, while in 1920 it was 10,904,508,976.

Vancouver.—Mr. C. A. Cottrell, assistant general superintendent, British Columbia district, of the Canadian Pacific Railway, returned to the city from a trip through Southern British Columbia and over the main line from Field west.

He states that notwithstanding that spring weather is unusually late, there is a marked improvement in business activity throughout the interior. Shipments from the mines are very satisfactory, and there is quite an improvement in the pulp and lumber business. The movement of freight in British Columbia shows a substantial increase in comparison with the same period last year.

Just as soon as weather conditions will permit, the railway will be putting on a number of men to take care of the season's track work, which should help the unemployment situation materially.

Vancouver.—After waging warfare ever since the wharfs were first erected, Canadian Pacific officials are of the opinion that they have at last exterminated the thousands of rats that used to infest the neighborhood, causing thousands of dollars damage to freight.

About six months ago the company brought all its territory to bear in the shape of a specially-prepared poison, which was liberally placed in every runway that could be detected, care being taken to see that dogs could not reach it. Not satisfied with this, a wonderful rat trap, of a pattern that has done great service for the company at other places, was purchased at an expense of \$15. The trap was placed in the place formerly most largely frequented by the rodents, the co-operage room. There it remained for a week or more but caught no rats.

The trap was found to be working properly, but investigation showed that the poison had exterminated the rats.

Vancouver officials of the company say they will be glad to give wholesalers and others who are sustaining heavy loss through rat destruction, the benefit of the methods used.

THE NEW NICKEL

Deputy Receiver-General John E. Wilson has received a supply of the Canadian nickel—the newly minted five cent piece soon to be put in circulation. The nickel is something bigger than the old Canadian coin. It has the King's head on one side and on the other a big figure 5 in the centre, with the words five at one side and cents on the other, while above is the word Canada and below two maple leaves with date 1922 between them. It is a good looking coin.

Success depends upon backbone, not wishbone.

Household Necessity

Make Gillett's Lye your household assistant. Use it for making soap, for washing dishes, for cleaning sinks, for washing greasy pots and pans. It cleans and disinfects.

OPPOSITION TO CHURCH UNION GROWS

Prominent Presbyterians Express Belief Sentiment on Church Union Has Changed

Toronto, March 30.—It is said that no definite action may be taken this year to unite the Presbyterian, Methodist and Congregational churches as the Presbyterian special committee on property rights may not be able to report in time for the General Assembly to deal with the matter at its next annual session. If the committee, which is looking into the question of property rights, is unable to report to the General Assembly this summer, the Methodist General Conference cannot go any further in the matter of union in its September gathering.

It is believed by some prominent Presbyterians in this city that there has been a change recently on the question of church union, the opposition to it being on the increase. Rev. John G. Inkster, of Knox Church, is quoted by an evening paper as holding this view. On the other hand, Rev. Dr. J. H. Turnbull, of High Park Presbyterian Church, is said by the same paper to have stated his belief that union is growing in favor among Presbyterians.

There would be a lot more fun and a lot more work in the world if people realized earlier in life that work is the best kind of fun, after all.

THE PASSING HOUR

It must be a grand and glorious feeling to be at M. P. or an M. L. A. now-a-days.

In the one case, say in New Brunswick, they get \$1000, for a few weeks sitting still, speaking now and then, casting votes, arguing points, sundry vociferations, and so forth. It is a mixture of sense, and the people pay the piper.

In the Federal house, the price for operators of much the same sort, is \$4000 a piece to every man jack of them. There is only one lady in the house, and to her credit be it said, she considers the job, not worth the money, and she considers \$2500 good pay.

The local house, has a new assortment, called "The Auto Gang." In fact there is a disposition among New Brunswick Parliamentarians, to have a good time, at the expense of the people who sent them there. There is a beautiful talk about economy, and an acoustic for it not paying it. The people think, if their representatives want autos, they better provide them, at their own

expense. Former Parliaments, both Liberal and Conservative, did very well, without an "Auto Gang," even when members received less pay.

The High cost of living, has taken a considerable tumble. The wages of mechanics, and others, have taken a tumble too, and those are the sort of people, who make Parliaments. Can any one of common sense, give a reason why the pay of M. P.'s and M. P.'s should not tumble too, especially when for all the good some of them are, they are hardly worth their salt! So far as the present Government of New Brunswick is concerned, their most marked qualification is that of extravagance, and one of the Farmer Members, named them rightly as "a spendthrift Government."

Talking about Farmer Members, or Labor Farmer Members, one would like to know, what class the Northumberland Members belong to. The present Representatives came before the people, in contest with Liberal candidates, and the people returned them. It was distinctly understood that they would form a part of an independent and separate party in the house. Every man of them, has swished into support of the Liberal party; although the Labor Farmer Party has a leader in the person of Mr. Fawcett, who is proving himself to be one of the best members of the House. Even Vanderbeck, has allowed suit, in service support of the Government, although it is well known that a Liberal Candidate, Allain, was brought out to defeat him; if possible. Of course they very nicely clubbed the Government, a few days ago, on an unemployment plea, and they got what they wanted. It is at least an acknowledgment of their services, but it is safe to say that could the Government keep place and power, without their help; they might go whistle "till the coos come home." That is where "the big stick" worked.

The Powers in Ottawa, have decided that the returned soldiers are not to get a bonus, and the one crop farmers, called Progressives backed the King Government up in the refusal. King and his party, may use all the artful dodges of argument and logic, or all the twisting and turning pledge breakers are capable of; but he cannot get over the fact, that the Liberal Platform—or "chart" and he himself personally guaranteed to the returned men, the bonus. Mr. McElhen rightly classed Kings pledges, as vote catchers. The result of the whole thing is; the Progressives joined the Liberals, and the returned soldiers, may go jazz for their bonus. One curious outcome of the tremendous victory for "broken pledges," is the way some Liberal party hacks, have crowded over the great Liberal victory, the greatest since Confederation, and planted big head lines of glorification, while it is an undesirable fact that the Liberal Party, has not a majority in the house, and alone could not pass a single act, or win a solitary count. They are depending absolutely, for the very existence of their Government, upon whatever support they gain from others, not classed as belonging to the Liberal Party. No doubt the Liberals will amply repay them.

Watch future measures. The Progressives were loud in their anti coalition talk; but there is such a thing as mutual help tactics, first cousin to coalition. Meantime the crippled in power, depending upon the Pro-

Anything made with flour is best made with Purity Flour.
