THE GERMAN TROUBLES.
THE TROUBLES IN THE WEST.

The Prussian Chamber was opened on the 25th by a speech from the King, which has caused intense excitement, and as has been stated, was looked upon as favorable to the war party.

In the shortest possible time we shall be more strongly armed than ever before, either in ancient or modern times.

FACTS ABOUT DIGESTION.

The gastric juice is essential to digestion. It is caused to flow into the stomach as soon as any substance is introduced into it, whether it be a piece of leather or a piece of beefsteak.

THE SECTARIAN STRUGGLE.

His Holiness Pope Pius the Ninth, after demonstrating to the world that he was to a certain extent, a man of the present age—after leaping through a few of the narrow straits of the past ages, by attempting to introduce the light of education and science into the darkest recesses of European ignorance—after showing that he was, in short, a very superior Pope, to the multitude of Popes that had gone before him—and, after being disinherited, kicked, cuffed and knocked about like a fugitive and a vagabond, on account of his liberality, has succeeded in securing an earthly immortality by kicking up a row.

Communications.

CORPORATION OF GODERICH.

GODERICH, 24th December, 1850.
To the Editor of the HURON SIGNAL.

Sir,—Observing in the Signal of the 12th Inst., a communication signed "Tax Payer," I would observe that if he had occasionally paid a visit to the Council Chamber, he might have ascertained the required information without seeking it through the medium of a Newspaper.

Query first—"What have they got into debt for?" I would say in answer, that no Government, be it ever so puny, but what has its officers, and as a matter of course they must be paid, and the fewer the subjects, the greater the proportion to pay.

Now for the information. First of all there is the item of £118 for School purposes, a demand made by the School Trustees, which sum amounts to two-thirds of the whole Town tax.

Next comes the Officers, as ordered by the Statute, to wit: Treasurer, Clerk, Assessors, Enumerators, School Superintendent, Rent, including fring, &c., Seal Press, Printing, Stationery, Returning Officers, with all the other ecclesiastical, whose salaries, &c. amounts to the enormous sum of £45, it being but five pounds more than allowed annually to the Solicitor of the County Council, leaving the very great sum of about £11 for Public Improvements.

The balance collected over and above the above mentioned sum, the "worthy Council" has no control over, it being levied by the County Council to liquidate the previous debts of the District. I would almost presume, Mr. Editor, that your correspondent, the innepenny "tax payer," was a stranger, or else he would know that but two-thirds of the elected, have ever appeared at the Council Board, after the election of their Head. The balance being disappointed in their election of Mayor, and having no other interest at stake, refused to act, thereby, throwing the onus of the business on the acting members.

And as I understand that those of the Quattro who can qualify, are intending to try again, I hope the voters will look before they leap, and put in Bees rather than Drones.

If "Tax Payer" wants any further information, I will refer him to the Clerk's Books.
A COUNSELLOR.

To the Editor of the HURON SIGNAL.
Sir,—I would beg to propose the following remedies for the evils you complained of in your last week's issue.

the great valley recruiting a few days for the California mines, which we intend going from here by packing and disposing of our waggons. We go in company with some eight or nine Delaware Indians, who are mostly civilized and speak good English.
