### Wellman's Venture.

In view of the preparations by Messrs. Walter Wellman and Ventman to attempt the crossing of the Atlantic Ocean in a dirigible, as reported in to-day's cable despatch, a short review of what has already been done by lighter-than-air flying machines should prove of interest.

Here are some of the records: In 1907 Mr. Walter Wellman organized an airship to the North Pole for the Chicago-Record Herald. The airship was built at Paris and taken to Spitzbergen. Here quarters were built and tests were made. In one of the trials the airship met with disaster, but fortunately no lives were lost, the airship being wrecked on a glacier in a snow storm.

In August, 1908 Wellman made a second attempt to sail in an airship from Spitzbergen, but it fell in the sea and was destroyed.

July 1st, 1908, Count Zeppelin made a 200 mile journey.

August 4th, 1908, Count Zeppelin did 280 miles in 12 hours.

September 12th, 1908, Major Cross made a voyage from Berlin to Madagascary and back to Berlin, covering 188 miles in 13 hours.

On May 30th, 1909, Count Zeppelin made his famous journey of 800 miles in 38 hours.

It will be remembered that Zeppelin built an airship to carry passengers which was wrecked a short time ago over a wood and torn to pieces.

Several journeys have been made

### MAC'S LUCK

**The Young Woman Reporter's Story:**

The following food tale written by a clever young newspaper woman is a true story that came under her personal observation:

"I have been with the Grape-Nuts in a Calif. town for nine years and Mac had been with us all that time and I do not know how much longer.

"Last winter and the winter before Mac, probably from constant night work and improper food, got badly run down, could not eat much, what little he did eat did not do him much good and he always complained he could not keep warm.

"I missed him for awhile until yesterday I overtook him on the street going toward the office, and hardly knew the man; had it not been for the familiar walk I should surely have passed without recognizing him. He was stout, his face was round and ruddy and his eyes bright as I had never seen them before.

"I said, 'Mac, I hardly knew you, what on earth have you been doing to get so fat?' He replied, 'Grape-Nuts, nothing else. I started in on Grape-Nuts food three months ago when I weighed 128 and was feeling miserable, but now I weigh 160 and feel better than I ever felt in my life. I quit my old diet and went on Grape-Nuts and that's the whole story.'"

Exercise is necessary but there's no nourishment in it and proper food alone can supply that. Grape-Nuts for 10 days is a pleasant trial and proves big things.

"There's a Reason."  
Look in pkgs. for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Canadian trade supplied by Canadian Postum Cereal Co. Ltd., Windsor, Ont.

from Aldershot to London. In 1907 the Null Secundus made the journey and was afterwards wrecked near the Crystal Palace.

A few weeks ago an army airship made the same journey and called over St. Paul's during the night. The airship was wrecked afterwards.

The long projected journey of a Clement Bayard airship from Paris to London has not yet been accomplished, although the ship has been built in Paris, and a garage has been built at Wormwood Scrubb by the Daily Mail for its accommodation should the attempt be successful.

It is a long cry between a Paris-London journey and an Atlantic trip. There is a big step between what Zeppelin has done and what Wellman projects. We fear that until a greater toll of life, limb and treasure has been extorted, Wellman's project will remain as futile as his effort to reach the North Pole in a dirigible. But the strides in aeronautics have been so great during the past three years, that it is by no means fantastic to imagine that the present generation of citizens may see a trans-Atlantic airship over Signal Hill.

### Cochrane St. Church.

The Rev. J. M. Westlake will conduct the morning service to-morrow at the above church. The rev. gentleman has been appointed as the Assistant Pastor of Gower Street Church, and we feel sure that he will receive a cordial welcome from the Methodists of the city. In the evening the Rev. Alfred Woods, of the Postmaster General, will preach. Mr. Woods is a native of St. John's, and is well known to our citizens. He is now connected with the Boston Conference of the Methodist Episcopal Church, and has filled a number of important charges in connection with that Conference. No doubt his many friends will be glad to see him amongst us, and will take this opportunity of hearing him preach. Ushers will be in attendance to accommodate visiting friends.

### POLICE COURT NEWS.

To-day Capt. Clarke was summoned for bringing a man named Ford to the country who was liable to become a charge on the Colony. The captain took the man back to New York by his ship and the case was therefore quashed.

A boy who used lewd and insulting language to a teamster was fined \$2 or 7 days.

### Trip to Brigus.

The Shamrock Amusement Club's excursion to Brigus, promises to be a big success, a large number of tickets are sold, and a large number of people have tickets engaged. Mr. Hianley, the Club's representative, has just returned from Brigus, where he reports that all the people there intend to give the excursion a good time. Cricket and football matches have been arranged and everything is to make the day a pleasant one is being done. The train leaving here on Tuesday night and returning before midnight Wednesday night, gives everyone an excellent opportunity for a night's rest before returning to work.

### Missing Child Found.

Little Johnnie Newell, of Nunery Hill, who wandered from his home yesterday evening, was found at Big Pond by Miss Fizzle, who lives out that way. The little fellow, who is only six years of age, attended the sports on Brien's field last evening and wandered away from there. The little fellow was all right and was safely restored to the parents to-day who were most anxious about the little one.

### More Boys Suspected.

To-day a number of respectable boys of the Central part of the city were in the lockup. They had been spending money freely for days past and it was thought that they might have had something to do with the larceny at Wood's. It was found when the boys were examined that they had stolen the money from their parents. A deplorable fact about boys so acting of late is that they purchase rifles and ammunition for as low as \$4 from hardware people and go about indiscriminately firing at improvised targets. Such a practice is highly dangerous and hardware men should not sell weapons to young chaps under any consideration.

### Had Narrow Escape.

Thursday evening as Peter Cole, R. Codner and Samuel Martin, of Torbay, were coming in off the fishing ground with 3 quintals of fish in their boat, while reaching across the Bay their boat went up on a shoal known as Jonathan's Rock which, it being high tide, was covered with 2 feet of water. The sea running in threw the boat well in and the men were enabled to crawl up to the highest part of it and thus saved their lives. The next sea swept the badly smashed boat off and she went to bottom immediately. Had the men remained by her death would have certainly been their portion as a high sea ran and it blew hard. The rock could not be seen from the shore, but the boat was discerned drifting away, and the people knew an accident had occurred, and all expected that the men were drowned. They hurried to the scene in skiffs and picked the men off the rock. They were drenched and cold, and narrowly escaped death.

### Fishery News.

Condensed, to-day's fishery report is: Fogo, trawls to 4 qts. Catalina, one trap yesterday 8 qts.; caplin struck in. Caponear, traps 1 to 3 qts.; dogfish interferes with trawls. Hr. Grace, traps four to six qts. Brigus, traps 2 to 4. Bay Bulls, fish scarce, sign of squid. St. Mary's, traps to-day 5 to 15 qts. Lawn, dorries to 2 qts.; traps nil and one already taken in. One trap at Sunday Cove had 30 qts. St. Lawrence, dorries 1 to 2 qts.; traps 3 to 5 qts.

### Personal Notes.

Little Ellen Hiscock, daughter of Mr. A. Hiscock, left by the S. S. Prospero for Birch Cove yesterday where she will spend her vacation with her brother, Mr. Fred. Hiscock, Manager of the Bank there.

Mr. L. G. McKay, who is here on a visit to his mother, will return to Sydney by the express to-morrow.

### Marine Notes.

The S. S. Susu left Musgrave Harbor at 7 a.m. to-day and will be due here to-morrow forenoon.

The Siberian left Philadelphia at 5 o'clock this morning.

The S. S. Rosalind sails for Montreal at 9 p.m., taking Mr. Eric Bowring, Miss M. Flett, Mr. Armstrong, Dr. Pollett, E. M. Roache, M.D., M. Frother, Mr. Gerrard and 10 steerage.

### Riot at Execution of Paris Apache.

Paris, July 1.—Liabeuf, the Parisian Apache, famous for his nail-studded gauntlets, was executed shortly after daybreak this morning.

For weeks past the question of whether or not the death sentence passed on him for the murder of a policeman should be carried out has been a burning topic in Paris. The Socialists and opponents of capital punishment generally clamored for commutation of the sentence on the ground that Liabeuf had originally been a victim of false police evidence, and that his feud against the police consequently had justification. However, Prefect of Police Lepine threatened to resign if clemency was shown to Liabeuf and encouragement thus given to Parisian Apaches in their continually increasing attacks on the police.

**Revolutionary Demonstration.**  
President Fallieres finally decided that a law must take its course.

A violent manifestation by the revolutionary Socialists occurred at the scene of the execution. At the very moment the blade fell several of the rioters fired revolvers. The police charged them repeatedly with bayonets. A police captain was shot in the throat and several persons were badly injured.

Great crowds gathered in the boulevards fronting the Sante Prison to witness the execution, but they were kept back from the guillotine by heavy details of police and municipal guards.

### 580 Miles of Catacombs

The catacombs at Rome were the burial places of the early Christians. They are about five hundred and eighty miles in extent and are said to have contained 6,000,000 bodies. During the persecutions of the Christians under Nero and other Roman emperors, the catacombs were used for hiding places. Under Diocletian the catacombs were crowded with those for whom there was no safety in the face of day. The art of the catacombs is unique and most interesting. Simple designs are etched in the slabs which seal the tombs. Now and then are small chapels where paintings are to be found. All are Bible illustrations, so that the catacombs may be said to be a pictorial Bible in effect.—The Christian Herald.

### Injured Man Here.

W. Brake of Humbermouth, was brought in on the express from Clarendville to-day and taken to Hospital in the ambulance. Dr. Paterson accompanied him and did whatever was possible to lighten the man's suffering. The unfortunate man who is an engineer on the railway construction work at Goose Bay was making some repairs under his engine, fixing a fire box, preparatory to going on to Seal Cove, when another engine backed up and striking Brake's engine he was jammed beneath the pilot in a doubled up position. He was taken out more dead than alive. Fortunately Dr. Paterson was on the spot. The unfortunate man was given immediate attention. It is believed that with the careful attention he will get at the Hospital, he will recover.

### Reindeer Increasing.

A family of Lapps—a man, his wife and two sons—who were at St. Anthony for two years herding the reindeer there, arrived by the Prospero yesterday on their way home. Local men are now adepts at the care of the animals, of which, fawns included, there are now 800 in the place. Recently one of the deer gave birth to triplets, a very unusual occurrence. It is known now that the reindeer have crossed with the local caribou and it is possible that an improved species of reindeer will be evolved. The Canadian Government, we learn, are purchasing a number of the deer.

### Coastal Boats.

**REID NELD, CO.**  
The Argyle arrived at Placentia at 8.30 p.m. yesterday from the Red Island route.

The Bruce left Port aux Basques at 11.30 p.m. yesterday.

The Clyde left Lewisporte at 6.05 p.m. yesterday going north.

The Dundee left King's Cove at 7.30 p.m. yesterday.

The Ethie left Trinity at 3.25 p.m. yesterday.

The Glencoe left Burgeo at 5 a.m. to-day going west.

The Home is north of Bonne Bay.

The Invermore left Bonavista at 11.45 a.m. yesterday going north.

### Train Notes.

The local arrived here at 9.20 last night bringing P. Hanley, Mr. Stick, F. J. Walsh, Messrs. Herder, Dickinson, Boone, Teslier and about 30 others.

The west bound express arrived at Port aux Basques at 10.45 p.m. yesterday.

The express from Port aux Basques arrived here at 12.15 p.m. to-day bringing 50 passengers including Messrs. A. Rooney, J. Payne, Geo. Vatch, D. Stott, A. McLaughlin, Judge Emerson, W. Scott, J. Woods, Mr. and Mrs. Archibald, J. Phalen, Mrs. McKay, J. H. Pinesoll, C. F. Taylor.

The Carboner train arrived with the express.

### Here and There.

**DOG FISH NUMEROUS.**—To-day dogfish were very plentiful at Porting Cove. There is very little codfish going this week.

**ANOTHER BANKER HERE.**—The banker James Tibbo, of Grand Bank, arrived from the Banks to-day having lost some of her gear. She will re-fit here before again proceeding to the fishery.

**EIGHTY-SEVEN IN THE SHADE.**—At Cape Spear to-day the thermometer registered 87 in the shade, equal to 110 in the sun. This is an unprecedented record for Cape Spear, out in the open Atlantic.

**FLORIZEL SAILS.**—The Florizel sailed at 1 p.m. to-day. Her additional passengers were: For New York—F. Brown, For Halifax—W. McGregor, Mrs. Giovantti, Miss Burke, W. A. Carroll and several steerage.

**THEY WERE FINED.**—To-day Health Inspector O'Brien summoned two women of Quidi Vidi Road for throwing offensive matter in a grating there. The case was fully proven and each was fined costs or 7 days. The Health authorities will rigidly prosecute people who throw any rubbish or night soil in the drains or gratings.

**STRAITS FISHERY.**—The s.s. Harlaw arrived at Bonne Bay from St. Anthony yesterday and reports that on the north side of the Straits and on the N.W. side from St. Anthony to Bonne Bay there is no fish. Traps at St. Anthony have only about 10 quintals on an average.

### Nigger Tit-Bits For White Men.

THE ONLY "WHITE MAN" IN THE BUNCH.

Johnson appears to have had to fight the crowd at Reno, but he won out.

He knocked out Jeffries with his fists, Corbett with his tongue, and the crowd by his smiles.

Each time he was taunted, he gave a soft reply to the glib, a smile to the crowd and a licking to Jeffries.

Here are some of the tit-bits: 1. Corbett: "He wants to fight a little Jim."

Johnson (smiling and landing Jeff a stinger): "You bet I do."

2. Again, to an irritating taunt by Corbett, he rushed Jeffries and replied: "Too much on hand right now."

3. Corbett: "It only takes one or two, Jim."

Johnson's reply: two stingers for Jeffries, and to a third he called Corbett's attention with the remark, "See that?"

4. Corbett to Jeffries: "Make that stiff fight."

"This fetched from Johnson a blow and the retort: "That's right; that's what they all say."

5. Another remark of Corbett's got more punishment for Jeffries, and for Corbett and his crowd the smiling retort: "Thought you were going to have me wild."

6. As Jeffries slackened Corbett sickened and became silent. This elicited from Jeff's friends the suggestion: "Talk to him, Corbett."

7. Corbett in despair at last ventured to the smiling nigger: "Why don't you do something?" And to it the nigger laughingly replied: "Too clever, too clever, like you."

8. And at last they all end with the pitiable appeals: "Don't let the negro knock him out; don't let the negro knock him out."

Altogether the fight appears to have been a sorry spectacle of degradation to which white men can sink.

The "black nigger" appears to have been the only "white man" in the bunch.

**DIPHTHERIA AGAIN.**—A woman residing at Wood Street developed diphtheria yesterday and was taken to hospital.

### Temperance in the French Navy.

We learn from the French Consul, M. Chorat, that a regulation was adopted recently by the French Naval authorities whereby Savings Banks for the sailors have been established on all the French ships. It is supervised by the paymasters, and tends not alone to make the men provident by keeping them from spending much money when on shore leave, but also keeps down the expenditure at the canteen and makes for temperance.

There was an illustration of this, the Consul says, on board the Surcouf, the warship which has been in port the past few days. Since the regulation went into force the men have deposited in the bank a large portion of their wages, and in two months, the time the law has been in vogue, not a case of drunkenness was reported when the crew was ashore.

To save their money the men, it is now noticed, at mess take only a glass of light claret, and the innovation will be of incalculable benefit to the men.

### The Power of Fear.

How Fear or Sudden Shock Turns Hair White.

Authentic instances of the hair turning white in a few hours or a night through fear or sudden shock could be multiplied indefinitely says Orison Swett Marden in "Success Magazine."

It is well known that when Ludwig of Bavaria learned of the innocence of his wife whom he had caused whom he had caused to be put to death on suspicion of her unfaithfulness, his hair became as white as snow within a couple of days.

When Charles the First attempted to escape from Carisbrooke Castle, his hair turned white in a single night. The hair of Marie Antoinette was suddenly changed by her great distresses. On a portrait of herself, which she gave to a friend, she wrote, "Whitened by affliction."

This power of fear to modify the currents of the blood and all the secretions, to whiten the hair, to paralyze the nervous system, and

### The Silent Chaperone

Lady typists and other business girls sometimes find it necessary to protect themselves against the unwelcome attentions of male passengers by tranter or omnibus.

It was the heroine of a "Punch" story who adopted green goggles on going out as a goddess to conceal her own good looks, but a present-day girl has devised a far neater method.

Every morning she appeared at the office with an encyclopaedia-looking volume labelled "The Decline and Fall of the Roman Empire."

(One evening her employer caught sight of it, and exclaimed: "Well, for pity's sake, don't tell me you are reading this?"

The girl broke into a friendly smile. "Why, this is my chaperone, which I take with me to have going home alone in the train," she said. "Ever since I've been carrying it I haven't seen a man yet who would look at me a second time."

The young lady added that only the outside belonged to Gibbons; the covers were filled with the latest story magazines.
