

New Motor HATS FOR GIRLS.

We cordially invite the Girls of St. John's to come and see our

NEW MOTOR HATS, and a very few minutes will convince them that They are THE HATS for School Wear.

We have them in the following shades: Navy, Brown, Green, Cardinal and Black, and cost you only

45c. each. See Window.

S. MILLEY.

Football at Wabana.

Representatives of Dominion Iron and Steel Co. Win Football Championship for 1910 at Our Iron Isle.

After a series of great football games lasting from the early part of June till the beginning of September, the football season at Wabana, or more generally known to St. John's folks as Bell Island, has terminated, and the team composed of employees of the Dominion Iron & Steel Co., under the name of the Dominion Athletic Association, have proven themselves masters over the Nova Scotia and Wabana teams, and are now the champions of Wabana for 1910.

The championship game came off on Saturday evening when the Nova Scotia and Dominion teams met in the football arena for the fourth time this season. A good game was expected and such it proved to be, fast and clean—except at times—with fine combination on both sides. Mr. N. Burke acted as referee, and precisely at 6 p.m. the teams appeared on the field, the Dominions looking well in their uniforms of grey and red, while the Nova Scotians looked smart in white and blue. There is no need to say a large crowd of spectators attended, for every one on the island who could possibly attend put in an appearance.

The game opened with the Dominions rushing matters, but the opposing backs cleared well, and for a while play was general, both sides playing well. The Nova Scotia forwards then took their turn at a rush, and Murphy, the Dominion tender, was called upon to save, which he did in capital style. Burke, Roberts and Noonan the smart forward trio of the Dominion now put in some capital work, breaking the great defence put up by Cahill, Clancey and Bastow for the Scotians, and from a wing shot by Roberts, Noonan scored the first goal for the evening. Dominion, 1; Nova Scotia, 0.

Play now became exciting; spectators yelling with enthusiasm, while the players went at it again with a vim that could only be expected at a championship game. The Dominion forwards again take possession; Noonan has it, he dribbles past centre and passes to Roberts who with a dash up field characteristic of him in

Nutritive Hypophosphites

When a person feels "blue"—"all tired out"—"doesn't feel like doing anything"—cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of poor appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares overstudy, etc. Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.

playing with the Guards of old, sends a beauty shot across Nova Scotia goal which Burke, the field captain of the Dominion and a player of repute with the B. I. S. in the past, seizes and records No. 2. Dominion, 2; Nova Scotia, 0.

The Nova Scotia forwards now rush a bit, and the ball goes to Dominion goal, but the defence of Martin and Barnes stands good. Burke now made a pretty dash, cleared all opponents, and but for a trip outside penalty area must have scored. Half time then gave the players a well needed rest. Dominion, 2; Nova Scotia, 0.

On resuming the Nova Scotians put Bastow—a celebrated player of old, but owing to injuries received played this year in goal—out centre half. The Dominion forwards made an onslaught on the Scotia goal, but the ball was cleared by Clancey and sent Dominion way, where some fine play was seen in the attack of the Scotians and the defence of the Dominion. In the mix up Martin, the Dominion Captain, who is a defence in himself as full back, got seriously injured, receiving a muscular strain and cramp in the thigh, though scarcely able to stand and enduring intense pain, he

decided to play on, his plucky action commended itself to both his colleagues and opponents.

The play on both sides was now very fast, and at times a bit rough; the Nova Scotia forwards worked it down from their goal where the Dominion had rained in several shots in vain, and from a throw in by Bastow, Linsey scored No. 1 for the Scotians, amidst the applause of their supporters. Dominions, 2; Scotians, 1.

This spurred the Nova Scotians on to more vigorous efforts, and they made another rush. Martin, the plucky Dominion back, though injured, cleared well. Still undaunted the Scotians rushed again and Linsey lost a chance to equalize. Cahill now seized it for the Scotians and sent a beauty drop shot in Dominion goal, which through clever judgment Murphy the Dominion custodian saved. Burke and Noonan now rushed up field and scored what many thought to be a goal, the referee not perceiving it, however, no goal was awarded, and from this till the end of the game play was well up in Scotia vicinity, and at last the whistle sounded concluding this year's football at Wabana ending the fourth game played between the rival Companies' teams this year, and awarding the 1910 championship and the Kent-Shepherd trophy to the Dominion.

NOTES.

This is the third year this trophy has been competed for, and each team have now won it once; the Wabanas winning in 1908 and Nova Scotians in 1909.

Congratulations Dominion! Your victory shows what pluck deserves. Last in 1908; second in 1909, and first in 1910 is your record.

Cheer up Nova Scotians you played a plucky game, and have the consolation of knowing you did not part with the cup without stubborn opposition. It may yet come your way again.

The Wabanas—the pioneers of the game—made a good show this season, and your sporty actions all through were much admired.

The Dominion team will shortly be dined by the staff, when the Cup will be presented.

This year's champions are:—W. Martin, Capt.; M. Tierney, Sub-Capt.; W. Burke, Field Capt.; J. Nugent, J.

Dawe, W. White, H. Buchanan, H. Noonan, H. Barnes, G. Roberts and J. B. Murphy, while W. Coughlan, J. Butler, J. Bennett and F. Fagen played some of the games.

The hero of Saturday's game is Captain Martin, of the Dominion, who scarcely able to stand, stood by his team till the end after receiving serious injury. At the conclusion of the game he had to be carried off the field and driven home. We are pleased to know he is now fully recovered and will be around in a day or so.

Doctor Jamieson Elected Unopposed.

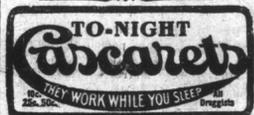

CAPE TOWN, Aug. 22.—Dr. L. S. Jamieson and Messrs. Merriman, Sauer, Fischer, Hertzog, Graaf and Dr. Smart, were returned unopposed for the Union Parliament.

Speaking at Grahamstown, Dr. Jamieson urged the Unionists to combine on the issue whether there was to be recrudescence of party divisions which had hitherto rested entirely on radicalism. When the national convention decided to unite South Africa they cherished the great ideal that racial troubles were ended, but now the position was practically the same as before the convention met.

C.P.R. Trainman Instantly Killed.

John Huribut Was Struck by a Piece of Wood on the Jaw.

Galt, Ont., Aug. 25.—John Huribut, a C. P. R. fireman, whose home was at 52 Mullock Avenue, West Toronto, was killed here last night as the result of a peculiar accident. Huribut was on the way east with freight train No. 54. The piston on one side of the engine was not working, and when the train stopped on the siding the driving wheel on the other side stayed at dead centre, the engine could not start up till she pushed off centre, and a yard engine was run up to shove it back. The steps on the yard engine protruded so that the two engines could not be coupled, so a wooden tie was placed between them for shove. Huribut was holding the tie in place when the force of the shove broke the tie in two and one of the flying pieces struck the man in the jaw, killing him almost instantly.

Trapeze Artist Breaks Spine.

Lying in a precarious condition, as the result of a twenty-foot fall from a trapeze, Thomas Michaud, a trapeze artist at the "New Park" show on St. Lawrence Boulevard, is at the General Hospital with little hope of recovery. While performing his sensational act last evening on a trapeze suspended twenty-feet above a hard wooden floor, he missed his grip, and fell on his back. He sustained a fracture of the spine, which it is thought at the hospital, will prove fatal.

Michaud had mounted to the top section of his double trapeze, performing several stunts, and then hung to the bar, head downwards, by his feet. A swinging act followed, the performer swinging his legs clear of the higher bar while catching the lower with his hands. There was a distance of about ten feet between the two horizontal bars. This windmill number was performed a great many times by Michaud without mishap. Last night, however, while swinging clear, his foot touched the upper bar. This threw him out somewhat from the under bar, and in the downward course his hands failed to reach the trapeze. He fell to the floor, landing on the base of his neck. It was first thought he was dead, as he lay on the floor in a heap. A low groan, however, showed that life was not yet extinct.

Send your mail orders to LARACY'S, opposite the Post Office. You are sure to get satisfaction; they supply everything in Dry Goods, Crockery and Glassware; their Goods and prices are always right.—aug10/t.

Child Poisoned by Carbolic Acid.

Sydney, Aug. 25.—A very sad accident occurred yesterday at Sydney Mines when Lydia, the four year old daughter of Willard Campbell, drank carbolic acid and died in less than an hour. The child, whose home is on Clyde Avenue, was playing in the yard when she noticed a bottle containing some liquid, took the cork from the bottle and drank the contents. Her cries attracted her parents from the house, and they quickly summoned assistance. The dose, however, was so strong that the child succumbed.

Man Violently Insane.

For several days past a man named Ed. Pendergast, an athletic fisherman, a resident of the Logy Bay Road, showed signs of being demented, but his father, with whom he lived, and other relatives believed that the attack was only temporary and that he would again regain his reason. Yesterday, however, he became very violent in his home and cleared out the house. He savagely attacked his father and tore all the clothing from his person and terrorized the people of the neighborhood who collected about the road but were fearful of going near the maniac, who it was feared for a while might kill his parents. A telephone message was sent the police from Mr. Crosbie's cottage and Supt. Grimes despatched Sergt. Mackey and Const. Tobin to the scene. When they arrived everything was turned topsy-turvy in the house with the unfortunate man raving and in a frenzy. When the officers entered the demented man fiercely attacked them, repeatedly butted Sergt. Mackey, and a desperate encounter ensued. After a terrific struggle the officers, assisted by Cabman John Murray, who drove them, overpowered Pendergast, manacled his hands and tied his legs, after which he was conveyed to the police station, when the necessary papers were made out for his admission to the Lunatic Asylum. Before leaving the station he had to be placed in a straight jacket, after which he was driven to the institution. The patient had his face badly cut, and it was a sad sight to see such a fine young man bereft of his reason.

Wholesale Stealing.

Monday night some thief entered the garden at the rear of the cottage formerly owned by Capt. Alexander Graham on Waterford Road, and now occupied by Mrs. Edgar, and stole the household linen and clothing left out over night to bleach after being washed. The property was valued at \$20 at the least. Of late clothes thieves have been busy in the West End, and if they are caught they will get their just deserts.

Cardenia's Good Work

Mr. Waite, navigator on the Cardenia, Capt. W. Carroll, master, arrived here by last night's train from Harbor Breton. The schooner, which passed Cape Race Friday, arrived Sunday and made the run out in 24 days from Oporto. She went across from Harbor Breton to Oporto in 14 days, and going and coming had excellent weather. She passed the Mildred on the 24th ult. just 5 days out from Blanc Sablon, fish laden for Oporto, and she reported all well.

Ferrovim is the pleasing name of the best preparation of Beef, Iron and Wine ever placed on the market. If you or any of your friends are anemic, generally run-down, pallid, easily exhausted, try one bottle of Ferrovim and you will be gratified by the result. \$1.00 at druggists.

To Save Lives on Submarines

British Admiralty Interested in New Scheme—Patent Fuel Being Tested.

LONDON, Aug. 25.—The Admiralty are said to be much interested in a scheme by which it is hoped the submarine of the future may be safeguarded against explosion.

The escape of a highly explosive gas from petrol used for the engines has been the cause of more than one disaster, and now what is known as heavier oil fuel is being used in the newer types of boats.

There is a patent fuel being tried, however, at Barrow, which still further minimizes the chances of explosion and makes for greater safety of crews. At present this new fuel is being used with the heavy fuel with good results.

It is most probable that future boats of the D. class will have this fuel entirely, and that heavy oil will follow petrol as a fuel for submarines and become a thing of the past. Rumors speak of the D. class as if many were on service, but, as a matter of fact, only D. 1 is in commission.

The question of reducing risks of explosion has, from the earliest mishap, been ever exercising the minds of experts, and when heavy oil fuel was first found to be so excellent a substitute for petrol it was only a question of whether the expense of altering the boats would be money well spent, considering that many submarines were nearly obsolete in other classes, that led to it not being introduced in them.

All new classes, however, will use the patent fuel as an explosion safeguard.

An attempt is being made by the Admiralty to come to an agreement in reference to the scheme with Messrs. Vickers, Sons and Maxim, who have hitherto done practically the whole of this work under an agreement for a term of years.

SUNLIGHT SOAP

Make your House-cleaning easy by using Sunlight Soap. Pots, pans and milk-cans, brass and tiles, doors and floors, all things that Soap can be used upon. Sunlight Soap will clean and brighten. There is no Soap like Sunlight.

Shot Herself in the Astor House.

New York, Aug. 30.—While surgeons in the Flower hospital were making every effort to-day to save the life of a fashionably dressed young woman, who shot and seriously wounded herself in the waiting room of the Hotel Astor last night, the attempts of the authorities to obtain a clue to the woman's identity were unrewarded. She still persisted in refusing to answer questions. Whenever an effort was made to get her to say who she was she would bite her lips and shake her head negatively.

Surgeons to-day said the young woman's condition was serious and that an operation probably would have to be performed during the day.

In the black silk handbag which was picked up in the waiting room of the Astor were found a manuscript and three letters, bearing the date of August 18th, and showing from the discoloration of the envelope that they had been carried for several days. They were addressed "Dearest Blanche," "Dearest Sister" and to "Mother dear," but from each the signature had been scratched so carefully as to be practically illegible, although the police thought that they could read "Nora" in faint strokes in one of them.

"It is really deplorable that a girl cannot get along honorably in New York," ran the letter to her mother. "In some things I might have succeeded had I conceded to the wishes of men, cultured usually, moneyed, but minus morals. Never reproach

yourself for what I am about to do. I can hear you say, 'now, my dear, it is very wrong for one to take one's life, whatever the incentive may be'."

Broke Plate Glass Window.

Boys throwing stones in the neighborhood of the Horwood Lumber Co. works are creating much damage to windows and are positively a menace to public safety. A couple of days ago a lad hurled a large stone through the window of the retail store of the Horwood works. It was fortunate that Mr. W. Horwood had left his desk or he would have been seriously hurt by the flying pieces of glass. Last night a little lad named Breen smashed the plate glass window of the store of Mr. W. Sharpe on the ground flat of the Horwood structure. It is valued at \$72 and is insured with Mr. Geo. Williams.

Minard's Liniment Co., Limited.
Dear Sirs,—I had a Bleeding Tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT, and after using several bottles it made a complete cure, and it healed all up and disappeared altogether.
