## Mayflower's Hard Time.

The Brigant Mayflower, Capt. Halfyard, arrived here last night, 51 days out from Oporto, having had a very stormy time crossing the Atlantic. The ship left Oporto on Oct. 29th and fell in with a heavy storm from the N.W. on the first of November and the ship had to lie to for 24 hours. Up to the 10th of the month she made very little progress. Next day the conditions were very favourable and Capt. Halfyard made a good run west. A storm came on again and for a whole week the ship was reaching under small canvas. From the middle of November up to Dec. 1st the heaviest storms were felt, seas swept the decks frequently and the crew were kept on the alert all the time fearing that the ship would founder, but she proved herself to be a splendid sea-boat and came through with comparatively little damage. A good deal of canvas was carried away and the rigging badly damaged. The weather was intensely cold on reaching Nfld. Coast. The watches suffered great hardships and it was a severe trial to stand a trick at the wheel. The crew suffered terribly from the cold and were delighted when they sighted land yesterday morning. The vessel is in ballast to A. Goodridge & Sons.

## New Engine 112, Tested.

The second new engine, No. 112, built by the Reid Mfd. Co., was run out of the Machine Shops where she was constructed, to the Round House under compressed air. Mr. R. G. Reid was at the throttle and brought her up in good shape. The engine, which is a superb looking piece of mechanism, was built out and out at the R. N. Co. Machine Shops—even to the brass bell. The test run showed that everything is O.K. This is the second engine to be built by the R.N. Co. They have six others under construction at the shops, two of them well advanced so that they will soon be ready to have the wheels put on. These will be finished early next spring and the other four in the course of the summer. The work is being done under Mr. Turnbull, and now that they have all the patterns of the different parts of those already made they will be able to go ahead much more speedily in the work of constructing an engine, so that Mr. W. D. Reid, the President, looks forward to the time when his men will be able to turn out one engine each month if required. The entire cost of one of these big engines is about \$18,000. This engine building opens up a new source of employment to the West End people. During the past summer fifty-five young lads were taken in there to learn their trade as machinists and engineers. The procession that came through the gates at dinner hour from the shops and forges is about 500 men, all receiving good wages.

## Schr. Arkansas Missing.

From Mr. T. B. Foote, we learn that the schr. Arkansas, Capt. Devoe, with 7 hands all told on board, is missing. She left Grand Bank 35 days ago for Gibraltar for orders, fish loading, and since then no word has been heard of her. Mr. Foote thinks the ship is likely to have gone down with all hands in the big storm which raged in the Atlantic in November last. The vessel which was built 8 years ago was owned by C. H. Harris of Grand Bank, was built at Lunenburg and was a vessel of 125 tons. Most of the crew belong to various parts of Lunenburg Bay. One of the men on board is a son of the late Rev. Mr. Haynes of Belloram. Most of the crew are single men. The vessel and her cargo of fish are insured in the Grand Bank Scheme.

## Meeting of Firemen.

A largely attended meeting of Firemen took place last night in the L.S. P.U. Rooms. A letter was read from Mr. Harvey of the R. N. Co. Marine Dept. complaining of the fact that great inconvenience and annoyance was experienced by captains of the R. N. Co. from firemen failing to turn up for duty when expected. They would be compelled to employ non-union men if there was not an improvement. Mr. Frank Woods, the Delegate, made quite a long and impassioned address in which he showed the members that the R. N. Co. had complied with all their demands and if the firemen now failed to do their part it would be a bad thing for the union. He had fought hard for the men's rights, but in many cases he was not backed up as he should be and as the firemen stood by the Delegate and officers in other cities. Mr. Woods then resigned the office of Delegate.

The Cunard Steamship Company proposes increasing its capital by four million dollars.

Special to Evening Telegram.  
LONDON, Dec. 19th.  
There are now distinct hopes of the recovery of the venerable Sir Charles Tupper, who is now in his 91st year.

Special to Evening Telegram.  
SWANSEA, Dec. 19th.  
The floods which have prevailed throughout Southern Wales have subsided to some degree. The damage done is widespread.

Special to Evening Telegram.  
BERLIN, Dec. 19th.  
The Navy department has issued a formal denial of the alleged discovery of a British plot to blow up the naval harbour of Wilhelmshaven, in which it is stated definitely that the story is a pure invention.

Special to Evening Telegram.  
LONDON, Dec. 19th.  
The Court of Admiralty has found that the White Star Liner Olympic was responsible for the collision with the cruiser Hawke. While the judgment finds against the Olympic on all points raised at the trial, a cross suit brought by the Admiralty against the owners of the Olympic failed.

Special to Evening Telegram.  
DUNDEE, Dec. 19th.  
The Dockers and carters now on strike have suddenly got out of hand and commenced disturbances. The rioting has become so serious that the Lord Provost has requisitioned headquarters for troops. The rioters threw wagons laden with goods into the docks and demolished property. The police were powerless. A large number were injured, and a detachment of troops has been ordered here.

Special to Evening Telegram.  
SHANGHAI, Dec. 19th.

There is promise of peace for China in the announcement to-day that all six of the Great Powers are co-operating in an effort to assist Dr. Wu King Fung and Tan Shao Yi in their negotiations. There was general rejoicing when it became known that the Powers were preparing to offer their assistance with a view to the speedy conclusion of an understanding. It is clearly understood that this action by the Powers is being taken in a most friendly manner.

Myler, 250, J. Fitzhenry, 186, R. Atsopp, 250 and W. Phelan, 202.

The only 10 cent bottle of Ess. of Ginger Wine that makes 1 gallon of Ginger Wine is at Stafford's Drug Store.—dec15,tf

## Hr. Grace Notes.

A. H. Seymour, Esq., M.H.A., arrived by Saturday night's train after his extended visit abroad.

Some young men of Riverhead lately made a collection in the neighborhood for a poor widow who with her three children were in rather poor circumstances. Their appeal was responded to nobly by the kind neighbors, and a substantial amount was realized. Such thoughtfulness is worthy of mention.

The boys of King Edward Brigade have now their complete uniform. They look very well indeed with their red guernseys, Glenagarry caps and blue pants with gold stripes. We have nothing to fear from Germany with the C. C. C. and King Edward Brigade with us.

We regret to report the serious illness of Mr. Ralph Trapnell, son of our esteemed townsman, John Trapnell, Esq. Mr. Trapnell has been in poor health for several years, and last winter he took a trip to the West Indies in the schr. Antiolette, believing the trip would do him good. He is now very weak and his friends are anxious about him. We hope that even yet there may be a change for the better and that we may see our young friend out about again.

All sorts of rumours have been circulated here lately of "a man about in disguise, etc." Although we have made enquiries we have up to the present failed to find a person who has really seen the man, but got their information from So-and-So. These stories are no doubt being investigated by the police, and if there is any truth in them we will soon hear of an arrest being made. Any man who would be guilty of moving about in lanes and lonely places to frighten the timid ones should be punished severely, and he will be if caught.

Christmas is drawing near and the different stores in town are showing Christmas novelties. Windows are very prettily decorated, and it is plain that Santa Claus is not far off. The Victoria Bookstore is considered

## Fell From Cart.

headquarters for such goods. The Evening Telegram is also on sale there.  
CORRESPONDENT.  
Haror Grace, Dec. 19, 1911.

## Resisted Arrest.

Yesterday afternoon Const. Lee arrested a Portugal Cove man at the foot of Pilot's Hill, for being drunk and disorderly. The man, who was named Kelly, bit him severely on the hand, also kicked him, and it was some time before Lee could throw his man and handcuff him. Mr. Chas. Kelly came to the policeman's assistance and the prisoner was placed on a cart and driven to the station.

## WON'T TAKE CARGO.

The loading of the S. S. Ella for Europe has been called off and the ship sails to-day for Sandy Hook, N.Y., for orders, and she will likely be chartered in New York.

With "Paisley Flour" you really can!

Perhaps you once tried to make cakes and pastry at home and were not successful. Some ways are difficult, especially for beginners, but the "Paisley Flour" way is so easy you can hardly go wrong. Paisley Flour is mixed dry one part with eight parts of ordinary flour. This done you are sure of light and well raised cakes and scones, and pastry free from doughiness. Begin to-day with one of the recipes in the "Paisley Flour" tins and you will find that "you really can."

Sold in 22c., 14c. and 5c. tins. The 22c. tin contains 14 ozs. and will raise 7 lbs. of ordinary flour.

**"Paisley Flour"**  
The SURE raising powder.

## DULEY'S For Christmas

## Government Probe Dynamite Outrages.

Iron Workers' Headquarters at Indianapolis Closed and Acting Secretary Missing.  
Indianapolis, Ind., Dec. 12.—(Wire.) Besides John J. and James B. Mc Namara handled or had knowledge of the inter-state shipments of the dynamite and nitro-glycerine used in blowing up iron and steel structures erected by firms employing non-union men in the last two years. This question was brought into the Government officials' hearing preparatory to the resumption Thursday of the Federal Grand Jury's investigation of an alleged nationwide dynamite conspiracy. Checks were written letters, baggages, suitcases, and all those who are suspected to have had the remotest knowledge of the movement of the explosives, where and how they were stored, among the several hundred witnesses who have been summoned to testify before the Grand Jury. The instances of the finding of the explosives about

## HEALTH RESTORED TO THIS FAMILY

Wife's experience with Dr. Chase's Nerve Food led to husband's cure.  
"Since childhood I was afflicted with biliousness and sick headache," writes Mr. A. K. Van Wyck, Park Hill, Ont., "and as all the doctors' medicines and prescriptions failed to do me any permanent good, I had lost faith in all medicines. It was by accident that I came to use Dr. Chase's Nerve Food, for it had been recommended for Mrs. Van Wyck and did her so much good that she wished me to try it."  
"I did so, and was surprised at the results. It is now three years since I discontinued the medicine and I have not had an attack of the old trouble. I hope that others may benefit by my experience."  
The cures effected by Dr. Chase's Nerve Food are lasting because it builds up the system and removes the cause of trouble. 50 cents a box, 6 for \$2.50; at all dealers, or Edmondson, Bates & Co., Toronto.
