CRESCENT PICTURE PALACE.
The Crescent Picture Palace is presenting a great holiday programme today, a special Lubin feature in two reels is "The Downward Path."
May Abbey features in "Her Spanish Cousins" some beautiful Spanish scenery is portrayed in this subject. "Treasure Trove" is a strong Edison drama. Harry Beaumont and Charles Sutton feature in this great drama.
A regular rip and "Getting the Sack" are two lively comedies, ones you are sure to enjoy. Mrs. Harvey Collins sings "Just a little smile from you."

BRITISH THEATRE.
The beautiful entertainment which concluded last night at the British Theatre will be succeeded by another programme of equal excellence this afternoon and one which will continue until to-morrow night. At the afternoon performance Madame Olive Timmons will sing a song especially for the benefit of the children, a southern melody entitled: "A Hushin' You". At night she will sing (at the popular request of her many admirers) the late Stephen Adams' world-renowned classic: "The Holy City". Patrons are assured of a most magnificent rendition of this most difficult and beautiful song. They will hear Madame Timmons at her undoubted best. Fine superbly photographed pictures will also be shown and the celebrated Newfoundland Biograph Co.'s picture of local events, including the Mount Cashel Garden Party and Sports, the beautiful pastoral play, raising of the "Newfoundland Submarine", football, baseball, pony race and also photographs of notable residents. Miss Tapper and Mr. A. H. Allen will officiate at the piano, whilst the effects will be in the capable hands of John Cronan.

MILLION DOLLAR MYSTERY.
AT NICKEL TO-DAY.
The Harmony Duo, Messrs. Huskins and Cairns, were in great form at the Nickel Theatre again last night and their singing afforded pleasure to all. To-day they will be heard in new songs and it being half holiday there will be large audiences no doubt. To-day's picture feature is "The Million Dollar Mystery." This great story is becoming more interesting all the time. Hundreds of citizens are following it keenly. There are some good pictures selected for to-day and the public are assured of an entertaining programme. The performances begin at 2 p.m. and 8 p.m. sharp, so patrons should go early.

HEADACHES
Thousands of men and women suffer from headaches every day, other thousands have headaches occasionally, but not as frequent intervals. The best Doctor is Nature. To find the cause of many of these headaches, and in most other cases, knowing the cause, the doctor can prescribe the right medicine. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. The best remedy is A-K Tablets, which not only relieve the headache, but also remove the cause of it. A-K Tablets are the highest quality, and you can obtain them at all drug stores in any quantity, 100 cents worth or more.

SICK-HEADACHES
Sick-headache, the most miserable of all sicknesses, less its terrors when A-K Tablets are taken. When you feel the first twinges, take two tablets, and in many cases, the attack will be warded off. If it is not, take one A-K Tablet every two hours. The best and most certain relief can be obtained in 30 seconds.
Genuine A-K Tablets bear the K monogram. At all drug stores.

A Dinner and a Kiss!

"I've brought your dinner, father." The blacksmith's daughter said, As she took from her arm the kettle And lifted its shining lid.
"There is no pie or pudding, So I will give you this," And upon his foil-worn forehead She left a childish kiss.
The blacksmith took off his apron, And dined in happy mood, Wondering much at the savour Hid in his humble food; While all about him were visions Full of prophetic bliss; But he never thought of magic In his little daughter's kiss.

While she with her kettle swinging, Merrily trudged away, Stopping at sight of a squirrel, Catching some wild bird's lay, And I thought how many a shadow Of life and fate we should miss, If always our frugal dinners Were seasoned with a kiss.

S.U.F. Meeting

AND PRESENTATION.
A largely attended and interesting meeting of St. John's Lodge, No. 5, S. U. F., was held last night. A feature of the meeting was the presentation to the Lodge by Past Master W. H. Goodland, cleverly executed by himself, a Roll of Honour bearing the names of the eleven members of the Lodge who joined His Majesty's Forces, ten with the Regiment and one with the Naval Reserve. Mr. Goodland's gift is greatly appreciated by the Lodge.
The Scroll of Honour will be exhibited in the window of Messrs. Gray and Goodland to-day.

Call For Fifty Thousand Troops Coming Soon.

Ottawa, Aug. 30.—The return to Ottawa at the end of the week of Sir Robert Borden is expected to be productive of some interesting announcements with respect to those matters which have engaged his attention while abroad.

It is anticipated that following the plan of constantly increasing the contribution of Canada to the fighting forces of the Empire, there will be a demand for more troops, sufficient probably to maintain in the field two or three army divisions.

The intimation to this effect is not official, but the situation abroad and the issue involved make it very desirable, if not an absolute necessity. Any extra mobilization would be along lines identical with the past.

WHEAT TRANSPORTATION.

The question of transportation of the wheat crop and also that of taking it over and restricting its uses to British or Allied channels, has also been a very active subject of consideration, and in respect to this the Premier doubtless will have certain proposals to lay before his colleagues and Parliament. The subject is a very live one in the West particularly, and developments are awaited with great interest.

Another matter to be taken up at once is the one of extending the term of Parliament. The consensus of opinion here is that this will be done unless the Liberals strongly oppose it, in which event there would doubtless be a general election. The Liberal stand would be determined only when the proposal is made, but the present outlook is that they will agree to the principle of extension. Any difference therefore would arise over the duration of it. Cabinet Ministers are returning to the capital and by next week practically all of them will be here to deal with the various subjects arising from the Prime Minister's prolonged visit to the Old Country and the important conferences he has held there.

South Africa Helps East.

Pretoria, Aug. 11.—The Nyasaland Imperial Service Contingent, which was reviewed to-day before its departure for East Africa by Mr. Malan, Minister of Mines, is a splendid force of seasoned warriors. The contingent could have been recruited three times over. Colonel Moorhead is in command. Mrs. Louis Botha presented a standard with a springbok head on a yellow and blue ground.
Mr. Malan, in a speech, said that the Union Government had readily acceded to the request of the Nyasaland Protectorate to raise a contingent for service in that country because Nyasaland was part of the same Empire as the Union and also a neighbouring country in Africa.—Reuter.

FOREIGN MAIL DUE.—A local express, bringing a large foreign mail, is due to reach the city to-night.

Germany's Maritime Murders.

London News and Leader:—The sole aim of all legitimate warlike operations is to weaken the power of the enemy for the conduct of the struggle. Only a childishly ignorant German will believe that Great Britain's power of carrying on the war can be seriously affected by the sinking of a few liners. This is so generally recognized even in Germany that it is still felt to be necessary to defend the sinking of the Lusitania by the repetition of the exploded fable that she was carrying vast supplies of munitions. But what is to be said of a nation which carries its doctrine of the destruction of enemy commerce to such lengths that it is prepared to sink a ship of which the complement and freight must from the circumstances be largely neutral, if by so doing loss can be caused to the enemy country? But Germany not merely does this; she does it while claiming to be fighting for "the freedom of the seas."

Australian War Census Bill.

Ottawa, Aug. 31.—Australia is going further than Canada by its War Census Bill. The object of it is to furnish the Government with complete and accurate knowledge of the forces it aspires to organize.

Every male citizen of fighting age is compelled to give an exact account of his physical condition, his social and industrial status and his military capacity.
In addition there must be disclosed, in confidence, the nature, extent and value of every man's possessions. Australia's war outlay is computed at \$225,000,000 per annum.

EVERYDAY ETIQUETTE

"If, while I am making a call, the hostess rises to greet another caller, should I rise too?" Inquired Florence.
"It is not customary to do so. This is doubtless due to a wish not to intrude oneself upon the notice of the new arrival until the hostess shall have presented her," said her mother.

Self-Confessed German Spy.

New York, Aug. 31.—When arraigned in Brooklyn on a Federal warrant charging forgery amounting to nearly \$5,000, Ignatius T. T. Lincoln, formerly a member of the British Parliament and a self-confessed German spy, to-day asked that his case be adjourned for a week. The request was granted.

The alleged forgery was committed in London. Lincoln said in court that the charge was one "trumped up" in order to get him back to England, where, he said, he had reason to believe he would be shot as a spy.

An Automatic Drill Sergeant.

The automatic drill-sergeant is the latest product of the war and military necessity.
In a secluded square not far from the heart of the West End the drilling of recruits has gone on so long that frequenters lost all interest in military commands. But the other morning the stentorian tones which echoed about the old buildings and ordered a squad of recruits to "fall in" re-awakened their interest. In succession, but with perfect time, other orders were rattled out, and an old pensioner with memories of the drill sergeants who paraded the barracks square in his soldiering days chuckled with delight and hailed the unseen but far heard drill-sergeant as a true descendant of the Victorian Army era.

He hastened to a closer view of the owner of the voice, but two or three spruce "non-coms" idly twisting their canes and a group of Staff officers standing under a tree, were the only military men to be seen. Yet the orders came from where the officers were standing, and then the pensioner espied the bell of a gramophone. The gramophone was the drill-sergeant whose voice had stirred his solitary soul. Right through "squad drill" went the voice, and at last came the "dismissals." Only then the pensioner permitted himself to speak. "I knew it couldn't be human," he complained; "it ain't got no 'cuss' words—they do help a man so."

OPTIMISTS.

One fellow's schemes are always winning, however wild they seem; Dame Fortune on his plans is grinning, and realized is every dream. He buys a mine where sundry boobies have sunk their coin to no avail, and a straightway digs out gold or rubies, or some variety of kale. All things he touches turn to money, the desert blooms at his glance, and so the spittle he wears is stung, he cannot help but sing and dance. "I cannot understand," say stammers, "why folks denounce this best of globes, why knockers wield their rusty hammers, and kickers howl and tear their robes. Life has so many joyous features, so many charms beyond compare, that they are surely spineless creatures who growl around and paw the air." We do not heed the sunshine chatter of one who never knew reverse, who never found a thing the matter, who has no hoodoo jinx or curse. But when some horny-handed sweater, who's known hard luck, again, again, remarks, "The world could not be better," we lift our hats and say "Amen."

Offer Roosevelt \$250.

TO GO FIGHT WITH CANADIANS.
Milwaukee, Wis., Sept. 1.—Charles Meckel, a local German, has mailed a letter to ex-President Roosevelt at Oyster Bay, as follows:—

Dear Colonel:—We see by the papers that you are "spooling for a fight with the Germans."
Most Americans prefer to attend their own business. Therefore representing a small coterie of local men who have subscribed \$250 (two hundred and fifty dollars), I am instructed to tender you this amount to defray your expenses to enable you to join the Canadians who are going over to France.
This will give you the time of your life.
Meckel is not confident that Col. Roosevelt will accept the offer.

Britain is Willing to Make Concessions

To American Importers Who Wish to Obtain Christmas Goods Manufactured in Germany and Austria.
Washington, August 30.—Concessions in the enforcement against American commerce of the British Order-in-Council were announced to-day as a result of informal negotiations just completed by the foreign trade advisors of the State Department.
The British Ambassador Sir Cecil Spring-Rice assured the trade advisors that their informal representations in cases where the British orders have caused "undue hardship" to American commerce will receive special consideration.
The Ambassador called at the State Department personally to explain the extent of the British concessions, which are especially intended to meet the growing complaint of American importers that the Christmas trade is threatened by failure to obtain goods made in Germany and Austria, for which they had contracted.

Generally speaking, it is the intention of the British Government to permit the passage through the blockade lines of goods for which the American importers have entered into contract with German and Austrian firms. Heretofore it has been required that the money shall have actually been paid for the goods. Now, it will be sufficient to show that they were regularly contracted for, and that the American importer is really the person responsible for them, and title rests with him. Goods valued at many millions of dollars have accumulated at Rotterdam and await transportation to the United States. The order applies to those, but whether it will extend to goods yet in German factories, but under contract for delivery on this side of the Atlantic, is yet undetermined.

The success of private interests in London represented by special attorneys in securing the release of about \$600,000 worth of such goods now on the docks is explained at the British Embassy here as due to the fact that the local attorneys there were able to secure and present to the British authorities the proof required as to the character of the goods and the conditions of contract. Now it is planned to permit American importers to present proof at the British Embassy here, which, it is believed, will greatly facilitate importations.

The entire responsibility for the holding up of shipments of German manufacture intended for America is placed by the British authorities on the German Government and it is alleged that a contrary impression has been sought to be created because of ill-feeling against Great Britain. To set itself straight in this matter, the British Embassy issued the following statement: April 14, a formal notice was issued by the British Government that they would allow vessels carrying two shipments of dyestuffs which were paid for by delivery in Germany of certain cotton cargoes, to pass without interference, provided the vessels sailed under a neutral flag; that the shipments were made from Rotterdam, and the dyestuffs consigned to the Secretary of Commerce for distribution directly to the Textile Industries.
"This offer, which was refused by Germany, still holds good."
