FRANCE CELEBRATES THE GLORIOUS FOURTH.

PARIS, To-day.

President Poincaré called President Wilson yesterday that the French Government, agreeing with the national representation in Parliament, wished independence day to become a French holiday. To-day our two nations will join in memories of the ancient battles which won liberty for America, he said. The approaching victory will reward the Allies for their long efforts and ensure a fruitful and just peace, based on the rights of nations, and strengthened by the approval of human conscience. President Poincaré closed his message by expressing the best wishes and congratulations of France to the United States and President Wilson.

KERENSKY FOR RUSSIA.

PARIS, To-day.

Havas Agency—Expressing great admiration for the heroic struggle that France has made, and energetically affirming that there is nothing in common between the authors of the shameful treaty of Brest-Litovsk and true Russia, Alex. F. Kerensky, former Russian Premier, laid stress to-day on the fact that he represents no Russian party and carries with him on his mission no mandate from that country. No one worthy to be called a Russian will ever recognize the Brest-Litovsk treaty or the regime of terrorism, anarchy and tyranny that puts Russia at the mercy of the Germans. He said the Russian working masses who have fought for democracy and made untold sacrifices, should have the right to count upon the fraternal, unselfish and allied democracies. Socialist members of the House of Deputies gave a luncheon to Mr. Kerensky to-day. Among those present were Albert Thomas, Marcel Sembat, M. Montet and Marcel Cachin, Socialist leaders, and Rene Viviani, former Premier. In an address Kerensky said that the efforts of Russia for internal unity and for independence had been betrayed by the Bolsheviks, and expressed confidence in the future of Russia. The French speakers promised the support of France toward intervention in Russia, and united in saying that the Allies will safeguard the Russian from German autocracy. M. Viviani praised the attitude of America, which was ready to make any sacrifices to defend the freedom of France and Russia, without asking anything for itself.

BRITISH SHIPYARDS OUTPUT.

LONDON, To-day.

The British Admiralty announced last night that during the month of June, 134,159 gross tons of merchant shipping was completed in the United Kingdom yards and entered for service. The record of British shipyards for June fell below that of May when a total of 197,274 gross tons was entered for service. That was the highest figure for any month during the last year. In April, the shipping completed totalled 111,533 and in March 161,674 gross tons.

The camp this year promises to be a record one and will include in its number J. Co., from Bell Island and Capt. W. Lindsay and officers, also a contingent from Heart's Content under command of Capt. (Dr.) Arthur Anderson.

How One Britisher Successfully Fought

SIX GERMAN FLYING MACHINES.

London, June 26.—A remarkable account of the feat of a squadron commander of the Royal Air Force, who is now in London on leave, is being told at the Aero Club. The day he was to leave France for England he determined to attempt to bring down one more German before his departure at noon. At 9.40 his machine left the airfield. At 9.55 he met five German scouting Pfalz machines and one German two-seater, just east of Ploegsteert, Flanders. He shot down two scouts and so successfully chased two others that their pilots lost their heads and crashed their machines into each other, both collapsing in mid-air. The Englishman then attacked the German two-seater, shooting it down in flames despite the attempt of the fifth scout machine to interfere. Falling in its attempt, the last German machine flew away, escaping the vigorous pursuit of the Englishman who returned to the airfield in time for luncheon, and to catch his train.

NOON.

IRISH APPEAL TO WILSON.

DUBLIN, To-day.

The Mansion House anti-conscription conference, last night issued a message sent to President Wilson through Ambassador Page in London. The document is lengthy and recounts all the well known grievances concerning British mis-government in Ireland. It asks sympathetic judgment from the United States, at a time when Great Britain, which strove a century and a half ago to crush the American colonies for asserting the principle of no taxation without the consent of its representatives, now threatens to crush the Irish people unless they consent to a blood tax against the protests of their representatives. The document emphasises that up until the year 1900 the privilege of free citizens to bear arms in self-defence and always been refused in Ireland, and continues, during the American revolution the champions of your liberties appealed to the Irish Parliament against British aggression. To-day it is our turn to appeal to America. To-day as in the days of George Washington, nearly half of the American forces have been furnished from the descendants of our own banished race, yet while self-determination is refused, we are required by law to bleed to make the world safe for democracy in every country, except our own. Declaring that the bones of ten thousand children of Ireland are whitening on the battlefields of the present war, the appeal asks what is to be their reward. The spot on earth which they loved best, and which they hoped their sacrifices might help to freedom, lies unrescued under an iron long, tyrannical, 500 years old, forever like it adds, every man within the shores of Ireland to immolate himself in England's service, unless the clamor of a dominant caste be rebuked and stilled. The document concludes with an eloquent

Independence Day Honoured

In honor of American Independence Day, most of the city business houses are to-day flying all the bunting they possess. The public buildings and churches are also honoring the American holiday, and the various flags present a very pretty sight. Many people took particular notice of a flag down by the Royal Stores on Water Street, containing 60 caribou heads, 40 red and 20 brown, indicating that they have given 40 of their employees and 20 more have offered, but without success.

The obligation to furnish such information rests in the first instance upon the father of the child; or, in the case of his death or absence, upon the mother; or, in the case of the inability of both parents, then successively upon any person standing in their place, the nurse in attendance, or the occupier of the house within which the birth occurs.

As the Office of the Registrar General is situated in St. John's, it is ordered that the notification of all births in the City of St. John's from 1st July next shall be furnished or posted within forty-eight hours thereafter to the proper officer appointed to receive the same, under a fine not exceeding \$10 for every neglect to do so.

This Act provides that when any birth takes place information is to be furnished or posted within forty-eight hours thereafter to the proper officer appointed to receive the same, under a fine not exceeding \$10 for every neglect to do so.
