Herbert Bismarck's Coming Marriage. VIENNA, May 19.—The marriage of Count Herbert Bismarck on June 22 to the Countess Hoyos, daughter of the Count Countess Hoyos, daughter of the Count George Hoyos, is likely to be one of the most brilliant events of the Vienna season. The mother of Miss Hoyos was the daughter of Whitehead, the well-known torpedo maker, and there is a great deal of wealth in the family. The note of the German Kaiser, thanking Count Herbert for an invitation to the wedding, omitted, it is said, to convey the Imperial congratulations, and this fact is a subject of some comment.

Montreal, May 19.—The Star of last evening contained a strong article regarding the necessity of the Governor-General's interference in the present political crisis. Even the Star, which is ultra-loyal and Conservative in its utterances, is forced to admit in the course of a leaded article that the Governor-Generalship of Canada is on trial at this moment, and that Lord Stanley cannot shirk his plain duty at this crisis without forever weakening the office that he as an English per pledged himself to maintain. After referring to the cares of Lords Durham, Elgin, and Dufferiv, the Star concludes a striking article as follows: "Lord Stanley seemed to large property of the cares of Lords Durham, Elgin, and Dufferiv, the Star concludes a striking article as follows: "Lord Stanley seemed to use at a turning point in our history. He stood under the trees at Earnselifle when Sir John Macdonald was dying, and he aided in setting the new

Government upon a path whose deviousness has plainly shown the absence of the guiding hand. He watched them finishing an investigation that the dead Premier had frankly begun, by whitewashing the chief culprit. He saw a member saved by what a Conservative, Lieut.-(Ol. O'Bries, called 'a miserable piece of special pleading.' He stood by while grave charges against a Minister were silenced on the contradictory pleas that they were too old and that they could wait until another session. This year he has seen charges against another Minister diluted because they were 'too indefinite,' and the accusers of a judge told that they should leave the matter in the hands of the very men for whom he was charged with having sinned. On top of it all comes a bill to load the electoral dice in favor of the Government, and prevent the people from speaking their mind. If this is not a case that calls for the exercise of the Governor-General's prerogative, we may well hope that Canada may never see the day when his intervention will be necessary." the day when his intervention will be neces

Increases Made by Different Denomi

OTTAWA, May 18 .- The census returns in regard to religion were brought down to day. They claim that the total increase o the population in Canada during the ten years is 507,869. As a constituent in that increase they give the estimated population of the unorganized regions in the North of the unorganized regions in the North and Northwest, the returns from which have not been received in their entirety. Leaving out of consideration this estimated population of 32,168, there is shown an increase of 465,701, for which there are complete returns. That increase is divided as follows: Roman Catholics, 198,483; Methodists. 163,488: Presbyterians, 79,634. dists, 103,488; Presbyterians, 79,034; Church of England, 66,692; Lutherans, 17,629; Baptists, 7,224; all other, 2,151. The Dependence of Great Britain on Her Trade With the United States-The Price of Food and Raw Materials Must Not Be Raised on Any Account.

London, May 19 .- Lord Salisbury in a speech yesterday remarked that a grave matter, in which the prosperity of the country was involved, was the question matter, in which the prosperity of the country was involved, was the question of free trade. He said: "England only maintains the position which she occupies by the vast industries existing here, but a danger is growing up. Fifty years ago everybody believed free trade had conquered tneg world and prophesied that every nation would follow the example of England. The results, however, are not yet confirmed. Despite the prophesies of the free trade advocates foreign nations are adopting protection. the prophesies of the free trade advocates foreign nations are adopting protection. They are excluding us from their markets and are trying to kill our trade and this state of thing appears to grow worse. We live in an age of war tarills. An important point is that while nations are doing everything to obtain each other's commercial favor, none is anxious about the lavor of Great Britain because Great Britain has stripped herself of the armor, and weapons with which the battle is to be fought. which the battle is to be fought. The attitude which we have taken in regarding it as disloyal to the glories and sacred doctrines of free trade to impose sacred doctrines of free trade to impose duties on anybody for the sake of anything we get therebymay be noble, but it is not business-like. We cannot exclude either without serious injury to ourselves. I am not propared, in order to punish other countries, to inflict dangerous wounds on ourselves. We must confine ourselves to those matters wherein we shall not suffer much, whether wherein we shall not suffer much, whether imports continue or diminish. While we imports continue or diminish. While we cannot raise the price of food and raw material, there is a numerous mass of imports, such as wine, spirits, silk, gloves and laces, from countries besides the United States, which are merely luxuries, and of which a diminished consumption could be risked in order to secure the markets of our neighbors. I shall expect to be excommunicated for propounding such a doctrine, but I am bound to say that I think the free traders have gone too far."

According to another report the physicians declare that there were absolutely no indications of the passage of the electrical current through the system. The vital organs were in a normal condition, and it would have been utterly impossible to have ascertained the cause of death without previous knowledge of the electrocution.
