Ladies who glory in the fashionable furs of British North America will grieve to learn that the number of skins taken each year in the vast regions of the Hudson's Bay Company is decreasing at an alarming rate. The catch of fur-bearing animals last year was no less than 24,000 below that of 1888, while that, again, showed a falling-off of 9,000, as compared with 1887. The most notable decline was in the skins of the beaver, marten and musquash.

WHY ARE THEY BETTER THAN OTHER FOODS? Because they are more easily digested, as the starch in them is converted into dextrine, which is the first act of digestion done before they are eaten. They are more nourishing and more palatable.

WHAT PROOF IS THERE OF THIS?

Scores and hundreds of bona fide letters from persons who have had dyspepsia, diabetes and constipation, who have been cured by the simple use of these cereal foods, prove it. If anyone is in doubt they can with pleaure test their merits by using our Desiccated Wheat.

Boyd, C., and Ferguson, J., both retained the opposite opinions they expressed in that case as to be irrisdiction of the Divisional Court of the Chancery Division hariminal matters, and they agreed that the was a criminal matter. Boyd, C., however, waived his view in favor of that expressed by Ferguson, J., in order to allow the present appellant to go to the Court of Appeal or the Legislature, if he should be so advised. The formal judgment of the court, therefore, is that the appeal is dissisted on the ground of want of jurisdiction, victout costs. Aylesworth for the prosecutor; J. B. Clarke, Q. Through Pullmans and Dining Car Attached to Now York via Erio
Railway.

The Erie is the only line running through
Canada that gives the people of London the
above service, and it is to be hoped they
will take advantage of it by purchasing
their tickets via the favorite Erie and save
themselves the annoyance of changing cars
and jumping off the trains for means.
