EVENTFUL CAREER CLOSED.

A St. Louis Editor Who Was Saved from an Execution by the Confession of the Guilty Man.

St. Louis, Feb. 7.—Morris Neider, founder of the first evening German newspaper in the west, died here last week, aged 79 years, after a protracted illness.

The deceased had been a resident of this city for 50 years. At the time of the breaking out of hostilities between the north and south Mr. Neider published the State Journal, a secession paper in this city. For the publication of a seditious article he was arrested by the federal troops stationed here and his paper confiscated. A court-martial found him guilty of treason and sentenced him to be shot, but before the sentence was carried out a young reporter employed on the paper gave himself up, confessing himself to be the author of the treasonable article. Neider was released and the young man suffered death in his place.

FARMERS NOT TO BE HOODWINKED

They Know Whether Times Are Good or Bad—Action of the Central Institute.

TORONTO, Feb. 7.—At this morning's session of the Central Farmers' Institute some friction occurred over the adoption of the report of the executive, which took exception to some portions of the address of the president, J. B. McEwing, delivered on Tuesday afternoon.

The points particularly objected to were those remarking on the widespread depression throughout the country.

After considerable discussion the report of the executive was rejected, and the president's address adopted as delivered.

Are You Going
To the Ball?

What size slippers do you wear? If it is within the range of 2 1/2 to 4 you can't afford to buy them any place but Cook's. The reason is, we have bought two complete lines of American samples (only one pair of a kind) at a great discount and we intend giving the benefit of the bargain to our customers. These goods if bought in the regular way would retail from \$2 to \$5 a pair. Our prices run from 75c to \$2. We have them in white, cream, blue, pink, Nile green, heliotrope, lemon, gray, orange, gold, red, salmon, silver, slate, drab, bronze, straw, black oze, rose pink, patent leather, etc. No trouble to show goods.

London and Environs

—Don't leave off your flannels yet.
—Geo. Ertel & Co., of this city, shipped yesterday two incubators to Manitoba and two to Nova Scotia.

—It is interesting just now to be informed that a damp sponge worn inside the hat will prevent sunstroke.

—Mr. Wm. Hayden, of South London, has returned from a visit in England. He was accompanied by his sister, Miss Sarah Hayden.

—Inspector Bell has received a donation of \$5 from Mr. Thomas Kent to be applied to the purchase of bread for the needy poor of the city.

—The attendance at the London Bicycle Club rooms last night was small, and the election of a successor to Mr. Percy Carroll as president was postponed.

—Mr. Arthur Stringer left for Toronto today to read a paper on "Improving" the Modern Language Club of Toronto University.

—The ADVERTISER'S Sarcas correspondence (on another page) contains an interesting paragraph, referring to Rev. H. C. Speller, formerly of London.

—Mr. John Davidson, who has been on a prolonged visit with friends in this city, leaves for his home in Arifield, Eng., on Feb. 13. He sails from New York.

—Rev. R. E. Taylor, of the Sabrovois mission, Montreal, is on his annual visit to London and collecting funds to assist in promoting the mission work which he is conducting. Mr. Taylor will also attend the annual convention of the Brotherhood of St. Andrew in Woodstock.

—The City of London Horticultural and Agricultural Society directors have appointed as representatives to the Western Fair Board Capt. A. W. Porte, A. M. Smart, Col. F. B. Lays, Geo. M. Reid, Geo. Taylor, Jas. H. Brown, J. D. Sharnham, W. M. Spencer and Col. W. M. Gartshore.

—Field's Merry-makers will appear at the Grand tonight in the great English comedy "Masquerading," introducing new songs, dances and musical specialties.

Every purchaser of a reserved seat will receive five additional tickets for a lady if purchased before 6 p.m. There will be a matinee tomorrow, when the English society comedy "Lady Cyclone" will be presented. Tomorrow the Irish farce comedy, "McNab's Reception," will be given.

—The following notices of motion were given by Trustees of the Board of Education on Wednesday evening: "That it is the opinion of this board that free text books shall be supplied to public school pupils, and that No. 1 committee be instructed to make the necessary arrangements to supply the same after the mid-summer holidays"; also "that a commercial form be established in a central part of the city for the benefit of pupils not desiring to take high school work."

—Charles Dickson, a young comedian of high reputation over the border, who is somewhat of a stranger in Canada, appeared at the Grand last night. He made a good impression, and may rely on better patronage when he is better known here.

The performance was opened by curtain raiser, "The Salt Cellar," a humorous skit, cleverly presented. It was followed by a three act piece called "Innocent," based upon the main idea of Shakespeare's "Comedy of Errors." Three men, who look exactly alike, are continually mistaken by their sweethearts and involved in a series of funny predicaments. The action is extremely lively and sometimes bolder, and the situations and dialogue are sufficiently ludicrous to engage attention and tickle the risibles frequently. The company is a competent one.

—No. 2 committee of the Board of Education met last night, the following members being in attendance: E. R. H. Martyn (chairman), J. Turner, Dr. John Wilson, D. W. Blackwell, J. Johnston, U. A. Buchner, W. M. Anderson and Principal Merchant. A number of accounts were passed for payment. A plan for new closets at the Collegiate Institute, made necessary by the report of the Collegiate Institute inspector, was presented and considered.

On motion of Mr. Anderson the plans were adopted, and will be recommended to the board. Defective plumbing in the old part of the Collegiate Institute was complained of, the pipes having no fall to drain the water off. The cost of making the suggested alteration would be about \$50. On motion the chairman and Mr. Anderson were ordered to have the work done as cheaply as possible.

A new cupboard will be ordered for Princess Avenue school, and Mr. Turner will see that the doors in the old part of the same school are properly tightened. One screen will be procured for Aberdeen school and one for Queen's Avenue kindergarten. Necessary blinds will be furnished for Colborne street school. Another ventilating shaft will be erected at Aberdeen school. The committee will prepare the yearly estimates without delay, in accordance with the request of the City Council.

A New Club.

The meeting which was to have been held in the Foresters' Hall last evening in

order to form a Homing Pigeon Club was adjourned on account of the small attendance. The object of the proposed society is to promote the breeding of fancy pigeons, and by social intercourse, discussion of the varieties, training and racing, to develop and improve the homing pigeon. Although the attendance was not large, the efforts of the promoters are not fruitless, as is shown by the large number of prominent breeders, fanciers and others who have signified their intention of becoming members. Among others interested in the club are the following: W. J. McMillan, Detroit; F. J. Clatworthy, Iderton; Theo. Pearce, Mt. Brydges; C. Morris, Delaware; Sharp Butterfield, Windsor; F. Robson, Iderton; Richard Gibson, Delaware; J. A. Leitch, Glenora; G. Mowatt, Montreal; Col. Wm. Gartsshore, Capt. Denison, Col. Smith, Theo. S. Hobbs, M.P.P., T. G. Davey, Dr. Jonte, C. S. Hyman, N. S. Williams, Ed. Horsman, Ald. E. Parnell, Geo. C. Davis, C. B. Hunt, Lieut. Carpenter, F. Morgan, C. W. Davis, Dr. Niven and about 70 other prominent citizens. Announcement of further meetings will be made in due course. These interested should attend.

Business Expedited.

The board of works prove themselves to be hustlers. They started sharp on time last night and were through with business early. Theo. S. Walls asked permission to build a siding from the C. P. R. to his premises. The matter was left in the hands of the engineer to report on. A petition was received from E. Daly et al. for permission to place an old street car base by the sidewalk on York street for the use of the draymen. It was left to the engineer and chairman with power. In the matter of Mayor Little's recommendation on the necessity of adequate provision for the safe-keeping of municipal books, the chairman and engineer will prepare and submit an estimate of the cost. The chairman and engineer will also prepare No. 2's estimates as soon as possible. A little discussion was raised over the wage-roll. The council have made no provision this year as yet for its payment, and it was thought it would be illegal to pay the money at present. On motion of Ald. O'Meara the matter was left in the hands of the chairman with power. The full committee were present: Chairman Wm. Heaman, Aldermen O'Meara, John Heaman, Callahan, Nutkins and Parnell, Mayor Little and Engineer Graydon.
