Highlanders was landed at Candia yesterday, and their appearance in the city caused the most intense excitement. The populace were evidently ignorant of their coming until they were in the town. The Turkish troops were also at a loss to account for their presence, and apparently thought were about to be attacked. The Turkish officers had much difficulty in preventing their men from firing on the British troops. The garrison troops rushed to the shore from all directions, loading their rifles as they ran, and uttering threats against the British. The latter remained

The insurgents are for a credit of 800,000,000 francs to now occupying Malaxa. It was however badly wrecked by the fire of the rebels. It is evident that the Turkish troops here are no match for the insurgents. A body of troops made an attempt to gain the heights above Nerok-Ouru, where the Keratidi blockhouse is situated. With this position and the one at Malaxa in their possession, the insurgents would be able to completely blockade Canea from the land side. The troops had gone on a little distance, when they were attacked by insurgents, who drove the land side of the completely blockade Canea from that the Education Bill pass its third gales on her passage, during which her fore-topgallant mast was broken and some of her sails split.

MALAXA IN FLAMES. Montevardet and Halepa are both within range of the guns of the insurgents, who continue to shell places. Last evening part of Malaxa was blown up with dynamite and the rest of the town is burning. The Turkish warships in Suda Bay are bombarding the insurgents, but their fire appears to be wholly ineffective.

Malaxa is one of the towns mentioned by the foreign admirals that must not be attacked by Greek troops or insurgents. It was the disobedience of the insurgents to this proclamation that led the foreign warships to bom-
