

BILBAO, SPAIN, IN AN UPROAR

The Socialists and Anarchists Start Revolution.

MANY OF THE MOB ARE KILLED

Troops Obligated to Charge Repeatedly—Markets and Public Buildings Pillaged.

Madrid, Oct. 29.—General Vascos, the military commandant at Bilbao, telegraphs the Government that at daybreak yesterday morning the garrison occupied all strategic positions with the view of protecting various public buildings which the rioters seem determined to attack. General Vascos reports the cavalry repeatedly charged the rioters in the old part of the city. Some of the rioters were killed and many wounded. Revolvers and stones and other missiles were used by the rioters. The principal railways, under military protection, continue to run trains. All other traffic has been stopped. The military forces are considered sufficient to check incendiarism and attacks on property, but troops are kept constantly on the alert to prevent fresh outbreaks. The Government has ordered reinforcements and several thousand men are held in readiness in Madrid and other towns. It is believed here that the movement in and around Bilbao is assuming the proportions of a social revolution, long planned by socialists and anarchists, as was done in Barcelona two years ago. Premier Villaverde has determined to establish order at any cost. Newspaper reports of the disorder in Bilbao represent the strikers as having established a reign of terror. Markets were pillaged and their contents consumed or destroyed. Barricades were then erected in the streets. As there were only 5,000 troops in Bilbao, reinforcements were urgently summoned. The infantry charged a number of barricades. The strikers defended them with reckless courage, and desperate fighting ensued. Five rioters were killed and many wounded. It is rumored that many soldiers were wounded. As the barricades were captured the cavalry charged with drawn sabres, clearing the streets.

According to the latest accounts received here, the rioters have again started to pillage shops, and are endeavoring to raise new barricades. Some fears are entertained that the rioters will unite in force and attack the troops before reinforcements arrive. The strength of the soldiers is being weakened by constant alarms and the necessity of detailed patrols to guard factories and convents against which the fury of the mob seems to be equally divided.

In the Chamber yesterday the Premier confirmed the story of the attack on the barricades and the fierce fight following.

Premier Villaverde read a new dispatch from Bilbao announcing that many had been wounded in the cavalry charges on the barricades. The rioters were prevented from attacking the residences of the Jesuits. The captain-general of the province of Vizcaya has been sent to Bilbao. A ministerial council held last evening discussed the events in Bilbao and authorized various measures to restore tranquility.

BOTHERED FOR YEARS

Postmaster Belyea Then Tried Dodd's Kidney Pills and His Kidney Disease Vanished.

Lower Windsor, Carleton County, N. B., Oct. 26.—Up to H. Belyea, the well-known and widely respected postmaster here, adds his testimony to the long list of those cured by Dodd's Kidney Pills.

"Kidney Disease bothered me for years," says Postmaster Belyea. "I used medicines and plasters without getting any lasting benefit. Hearing of cures by Dodd's Kidney Pills I tried them with splendid results.

"They seem to have made a complete cure in my case, as I feel as well as ever I was. I believe Dodd's Pills are the right remedy for Kidney Trouble and will do all they are claimed to do."

Dodd's Kidney Pills cure all Kidney ills from Backache to Bright's Disease. If you cure the Backache you will never have the Bright's Disease.

STEAMERS ARRIVED

Oct. 28. At Father Point—Cervona, from Newcastle.
At New York—Kron Prinz Wilhelm, from Bremen; Lahn, from Genoa.
At Southampton—St. Louis, from New York.
At Glasgow—Corona, from Philadelphia.
At Liverpool—Utopia, from Boston; Oceano, from New York.
At Bremen—Kaiser Wilhelm II., from New York.
At Queenstown—Belgenland, from Philadelphia.
At Copenhagen—Oscar II., from New York.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The cure has so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: P. J. CHENEY & CO., Toledo, O. Sold by druggists 75c. Hall's Family Pills are the best.

Easy to take, easy to operate—

Hood's Pills

ST. LOUIS WANTS CASH

But the Reports of Bank Troubles Are Exaggerated.

New York, Oct. 28.—St. Louis continues to make demands on this center for cash. The sum of \$300,000 was sent by telegraphic transfers from the sub-treasury this morning and direct shipments of about the same amount were made by local banks last night. No definite news regarding the situation in St. Louis is obtained in authoritative quarters, but bankers profess to believe that reports have been much exaggerated. Private advices received by stock exchange houses agree that the substantial interests of St. Louis have the situation well in hand. Chicago and New Orleans also drew moderately on the sub-treasury this morning for "crop" money.

ONE ON THE BAILIFF

Locked in Barn by Man He Was Serving.

Chatham, Ont., Oct. 29.—In their official capacity bailiffs are not regarded in the light of welcome guests, but the reception given to Michael Dillon, bailiff of the seventh division court of the county of Kent, was not lacking in warmth. Dillon visited the farm of John Harron, and seized several of his cattle, under a distress warrant for rent. Dillon was himself in turn seized by Harron and a few of his friends, who locked the indignant bailiff in the barn. Meantime the farmer set about to fasten the gates and fences, thus preventing the removal of the cattle from the premises. In good season the worthy bailiff was liberated from the barn, but he was forced to depart without the animals.

Criminal proceedings were taken against Harron and his friends, the case being tried before the county judge of Kent. The men were convicted, but an appeal was taken to the court of appeal in Toronto. The high court quashed the conviction and the prisoners were discharged. The court also declared that it was not a case for granting a new trial.

A FOREGONE CONCLUSION

Londoners Were Quite Prepared for the Boundary Award.

Ottawa, Oct. 29.—"The decision on the Alaskan boundary case occasioned no surprise to Canadians who have been in London in the past few weeks," said Berkeley Powell, M. P., yesterday.

Mr. Powell has just returned from a two months' trip to England.

"Two weeks before I left for home," he continued, "it was common talk that the United States claims would be conceded. The newspapers were talking about it, and it was discussed in the clubs. I don't think that our men were heavy enough for those they were matched against. The Americans made a great swell; they were all quartered in one hotel, entertained most lavishly, and generally made good fellows of themselves in social circles. I found that the English people did not appreciate the value of Canada's claims. A great many of them took no interest in the boundary case. They were infinitely more concerned about Canada's connection with the Chamberlain preferential scheme. There seems to be a great desire to please the United States."

"What about Chamberlain?" replied Mr. Powell, "that Mr. Chamberlain is the one man in the public mind in England today. Every night he is being lionized because he is a favorite of the man; and again there are many who know nothing of the scheme, and don't profess to understand its scope or intention, who recognize his prestige and feel that there is much merit in his proposition or else he would not go into it. Body and soul, at this advanced stage of his life, there is a feeling in all circles that Mr. Chamberlain will succeed."

DOWIE GIVES IT UP

Will Leave New York a Week Earlier Than Intended.

New York, Oct. 29.—John Alexander Dowie addressed a slim audience at the early service yesterday on the "Eleventh Commandment," his own addition to the Decalogue, the wording being "Love ye one another." Dr. Dowie said that he had come to New York because he loved the people of the city, but he said the people of New York do not love him because of the vicious and untrue attacks made on him by the newspapers. At the "healing service," Dowie said, after an attack on church newspapers: "For many years I have held the political power in Chicago, and I control over 50,000 votes there. Whatever way I say the election shall go, it goes, and I shall have the same power here some day. Fifty thousand votes would control the situation here if I had them, and in five years I will control that number in this city."

Dowie today settled with Robert M. Farley, who sued him for \$1,000 for his legal services in defending J. Luther Pierson, the former Dowie follower, arrested for allowing his child to die without a doctor.

New York, Oct. 29.—Dowie has decided to end his campaign in New York one week earlier than originally planned, according to a notice posted at Madison Square Garden yesterday. This was an announcement by General Superintendent of Transportation Peters, that "all excursions from New York to Zion City will leave on Monday." It is said that Dowie will remain some days after the "army" leaves.

Chatham Has Deficit.

Chatham, Ont., Oct. 29.—A special meeting of the city council was held Tuesday night and Government Auditor P. H. McPherson's report was read. The report stated that the city has a deficit of \$49,734.39 on its hands. The report came as a thunderbolt to citizens and council. Expenditure by the council in excess of appropriation and expenditures for which no appropriations were made were the principal causes of the deficit.

Girl Tries Suicide.

Toronto, Oct. 28.—A 17-year-old girl from Lambton M. P. tried to commit suicide this morning by swallowing laudanum. She was removed to the hospital and will recover. She refuses to give any reason for her act.

THE SITUATION IN THE FAR EAST

Russia Reiterates Her Intention to Stay in Manchuria.

NO CAMPAIGN UNTIL SPRING

Muscovite Press Tells Japan She Cannot Have a Foothold in Korea.

St. Petersburg, Oct. 29.—A dispatch from Port Arthur says the Novykray—a newspaper edited by a member of Viceroy Alexieff's staff—after reiterating the assertion that the "Russian troops will remain in Manchuria until far eastern affairs are settled in accordance with Russian views," proceeds to outspokenly lecture the Japanese, necessarily with the approval of the Russian censorship.

Now," says the Novykray, "is precisely the proper moment for Russia to establish a political equilibrium in the east. The Japanese have failed in Persia, because they do not understand how to colonize. The efforts of the Japanese to obtain settlements in Korea, having their own jurisdiction, would lead to the subjection of the Koreans, and impair the sovereignty of Korea. Japan has not yet attained the status of a European state, and cannot be entrusted with the rights of the European pioneers of civilization. On the continent all that can be tolerated is not a settlement. In Japanese into Korea under control."

London, Oct. 28.—There is a certain respect from the Muscovite press, in reaching a modus vivendi in Korea, probably consequent upon consultation with their allies, Great Britain and France, and there seems to be a prospect of keeping the peace unbroken for a time. The statement of the Japanese Prime Minister that nothing in the present situation warrants any alarm, is decidedly reassuring, and may be taken in good faith at its face value. The trouble, however, is not a storm center has been postponed, but the postponement is not a settlement. In both cases the reasons of the postponement are obvious. They are economic. No military campaign either in the Balkans or on the Yalu and Tumen, the Russians and enough to reach the Shantung coast, and by common consent there may well be a suspension of activities until next spring. But we must remember that the antagonists will rest on their arms, and as soon as spring opens we may expect to hear a renewal of the warlike alarms, all the more serious because of this hibernatory delay.

CURTAILING COAL OUTPUT

30,000 Men To Be Laid Off for One Week.

Pottsville, Pa., Oct. 28.—The order to suspend all of 43 collieries and washeries of the Philadelphia and Reading Coal and Iron Company for one week for the purpose of curtailing the production of coal, went into effect today.

The Philadelphia and Reading Railway, Crews, telegraph operators and others employed in the work of transportation will be laid off for one week. Upwards of 30,000 hands are thus laid off for one week.

KILLED STEPFATHER

Ottawa Man Is Acquitted by the Jury.

Ottawa, Oct. 29.—Gustave Kollesch was acquitted last night on a charge of killing his stepfather, August Rebske, in a fight a few weeks ago. Rebske was cruel to his wife, and the stepson, a one-armed young man, injured, and in a fight gave his stepfather a kick which caused rupture and subsequent death. A coroner's jury brought in an open verdict that death was due to "intestinal obstruction due to rupture, but how he was ruptured we have no evidence to show." As there was an abundance of evidence about the fight the verdict caused some surprise.

A CHAIN OF ACCIDENTS

Eight Men Injured in One Day at Sydney Steel Works.

Sydney, N. S., Oct. 29.—Eight workmen were injured as the result of a remarkable series of accidents which happened at the steel works here yesterday. Three were injured at one time by being struck with an electric charge in the open hearth furnaces, which had suddenly backed up while the men were sitting near a wall of the building. Another man named Walker was severely hurt about the back at the same place by a weight falling on him, while another man named Clark fell into a pit at the rear of one of the furnaces and had his back broken. A carpenter named McNeil fell from the roof of the repair shop, a distance of fifty feet, sustaining internal injuries, and two more were injured at the blast furnaces and the blooming mill respectively.

A man may be the architect of his own fortune, but he can't induce the sun to shine in every room.

Vapo-Cresolene
Established 1879.

Whooping Cough, Croup, Bronchitis, Coughs, Grip, Asthma, Diphtheria.

Cresolene is a boon to Asthmatics.

CRESOLENE is a long established and standard remedy for the diseases indicated. It cures because the air rendered strongly antiseptic is carried over the diseased surfaces of the bronchial tubes with every breath, giving prolonged and constant treatment. Those of a consumptive tendency, or sufferers from chronic bronchitis, find immediate relief from coughs or inflamed conditions of the throat. Descriptive booklet free.

CRESOLENE ANTISEPTIC TABLETS dissolved in the mouth, are effective and safe for coughs and irritation of the throat. 10c. a box. ALL DRUGGISTS.

LEEMING, MILES & CO., 1651 Notre Dame St., Montreal, Canadian Agents.

COPIED FROM BOERS

The War Office Adopts a New Bandolier.

London, Oct. 28.—The war office has adopted a new pattern of cartridge bandolier and pouch for the army. The pattern used during the South African war came in for severe criticism from the war commission. Tenders are now invited for half a million bandoliers of split cowhide and half a million pouches of bridle leather. The new type of bandolier resembles that which was employed by the Boers. The old type of bandolier used by the English soldiers in the war was made of webbing, and carried cartridges horizontally packed in separate divisions. It was found to be useless as it worked loose and lost ammunition.

HICKS-BEACH TO EXPLAIN

Why He Decided to Support Premier Balfour.

London, Oct. 28.—The curious shifting of the political relations of prominent men resulting from the fiscal controversy continue to be illustrated in a striking manner. While the apparent conversion of Sir Michael Hicks-Beach, an ex-chancellor of the exchequer, to the policy of Prime Minister Balfour is universally discussed, the Duke of Devonshire, who recently resigned his post as president of the council, has written a somewhat puzzling letter which can be interpreted as an expression of the opinion that it is desirable that free trade Liberal-Unionists should re-enter the Liberal party. Sir Michael Hicks-Beach has not denied the statement that he has decided to support Mr. Balfour in carrying out his programme. He has promised to make an explanation of his position in a speech.

CABLE COMPAN VLOSES

Australian Commonwealth Vetoes Extension of Premier Barton's Plans.

Ottawa, Oct. 28.—The Government has received word from Australia that the commonwealth senate has turned down the arrangement made by forming the Shantung Extension Cable Company, which gave unfair advantage to that concern in competition with the State-owned all-British Pacific cable. Against this agreement the Canadian Government protested both to the imperial and Australian authorities, but Sir Edmund Barton contended that the arrangement extended over the entire commonwealth for the limited period of ten years, the advantages which the Eastern Extension Company possessed in New South Wales in perpetuity, and that the extinction of this perpetual franchise was a distinct gain for the Pacific cable project.

This excuse was, however, regarded by Canada, as a partner in the Pacific cable, to be a mere pretense for giving the Eastern Extension Company greater powers of competition. The same view, happily, was taken in the Commonwealth Senate, where Senator Sturges moved an amendment to the effect that the arrangement be not ratified until the partners in the Pacific cable enterprise had been heard on the subject. This amendment, it appears, was carried by 20 to 16, thus knocking the unfair arrangement out for the present at least.

CANADIAN HORSES WON

Make an Excellent Showing at Chicago Horse Show.

Chicago, Oct. 28.—The finest lot of horses ever brought to Chicago are on exhibition at the fourth annual Horse Show, which opened at the Coliseum Monday afternoon. From Denver and Colorado Springs, from Dallas, Texas, on the south, to Toronto, on the north, the stables of horse lovers and horse owners are represented, more than 500 different animals being entered for the many valuable prizes offered.

On Monday, Crow & Murray, of Toronto, won the first in the lightweight and qualified hunters, and were third in the lightweight green hunters. George Pepper, of Toronto, won second in the matched carriage pair under 15.2, and was third in the four-in-hand. First and second in the lightweight green hunters on Tuesday, Crow & Murray won first and third in the green hunters' middle weight class, and was third in the carriage pairs, under 15.1, and second in hunt club team and heavyweight green hunters.

Exit the Toy Pistol.

Chicago, Oct. 29.—Chicago children are to be protected from the toy pistol, which, through a mistaken idea of patriotism, was allowed to cause the death of nearly 400 persons following this year's fourth of July celebration throughout the nation. Ald. Patterson's ordinance prohibiting the sale or gift of this deadly toy to minors was recommended for passage yesterday, the judiciary committee of the city council so voting.

THE WEATHER TODAY—Fine and warm.

Now for Blankets, Comforters and Eiderdown Quilts

WE have remarkable advantages over those who only buy in a small way. We sell so many Blankets and Comforters that we have to buy many, and the people who sell to us are so anxious to retain our custom that they see that we get the cream of their output and place us on the ground floor in the matter of price. Buying from us you are sure of special advantages. We are now making a stupendous showing of beautiful new goods bought direct from the manufacturers before the recent advance in prices.

FINE WOOL BLANKETS—WONDERFUL PRICES TO WIN YOUR CUSTOM.

Extra large size (66x36), very fine weave, with twill finish; a beautiful clear White Wool Blanket, with pink or blue borders; easily worth \$3.25 pair. Our special price the pair only \$2.50.

Large double bed size fine all wool Blankets, with thick fleecy nap. A warm cosy blanket, good value at \$3.50 per pair. Our special price for this line only \$3.00 pair.

Another special all pure Canadian Fleecy Wool, with thick, short nap that will not get rough nor pull off; warranted unshrinkable; shown in five sizes; any of them worth from 50c to \$1.00 more than marked price, according to size. Our special prices \$3.00, \$3.75, \$4.50, \$5.00 and \$5.50.

RACE ENDS IN DEATH

Engine Chased by Runaway Cars in Derailed.

Denver, Col., Oct. 29.—Chased by fifteen heavily laden ore cars, Samuel Brown, an engineer on the Rio Grande, Monday night raced for life down Marshall Pass, only to die after the danger was past. His engine and one car jumped the track and Brown, with Fireman Simon and Brakeman Mulcahey, met instant death.

The train parted just after leaving the summit, and Brown saw that he must outrun the rear section or be overwhelmed. He opened the throttle, warned his fireman, and with death before and behind him plunged down the grade. Five miles from the summit the runaway cars jumped the track and were totally wrecked. Three miles further on the engine with its three occupants was derailed.

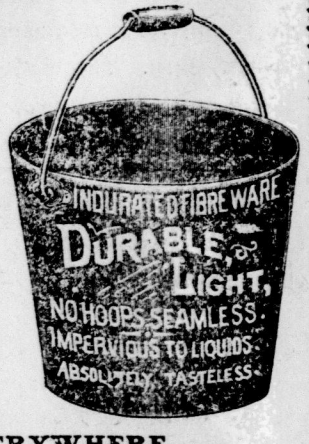

BE SURE to see that the INDURATED FIBREWARE TUBS, PAILS, ETC., YOU BUY BEAR THE NAME

They are manufactured by NEW PROCESSES and are SUPERIOR to any other makes on the market.

FOR SALE BY DEALERS EVERYWHERE.

DONALD McLEAN, AGENT, 436 RICHMOND ST., LONDON.

The wife of a Shropshire farmer some months ago told her husband that she had been swallowing needles, etc. She was taken to the infirmary, where an operation was performed. In her stomach were found needles, pins, nails three or four inches long, a button hook, safety pin and other articles—150 in all. She died, and a verdict of suicide while temporarily insane was returned.

George B. Smith has been mourned and eulogized on every Memorial Day at Augusta, Me., for about 30 years as one of the gallant soldiers who fell with Custer at Little Big Horn. Mr. Smith has been alive all the time, however. He writes to his sister, a resident of Augusta, that he is very much alive, and is making money running a stock farm at Oakland, Cal.
