Quebec, Oct. 17.—The general election will not take place until a week hence, and it may be of interest to know something of the probable result in this district. Those who have not declared themselves, especially the independent voters in the city and district of Quebec are now coming forward daily in large numbers to declare that they will vote for the Liberal candidates in their respective ridings. Of course, there never was a doubt in the mind of the Liberal party leaders that a solid delegation, with perhaps three exceptions, would be returned to support the Laurier Administration, but recent events tend to unmistakably show that eighteen out of nineteen constituencies would elect Liberal members. This will be a gain of two members, one in Dorchester and the other in the county of Quebec, which elected Conservatives in the general election of 1904. Nevertheless, the Conservatives are putting up a good fight in six or seven constituencies, wherein they are of opinion they have a good fighting chance for success, especially in three ridings—Quebec West, where the Liberal candidate and ex-member, Mr. Wm. Power, is opposed by the millionaire lumber merchant, Mr. Wm. Price, who, however, will suffer defeat at the hands of the Government candidate; in Dorchester, heretofore represented by Mr. Flynn, ex-Premier of the Province of Quebec, is running against Mr. Ernest Ray, ex-M.P.P., a young, able lawyer and staunch Liberal, who is already conceded victory by the party leaders of both sides in the constituency.

Hon. L. P. Pelletier, another former local Conservative Minister, is seeking election in the county of Lotbiniere against the Government candidate, who is sure of again capturing the county by at least 300 majority.

Charlevoix is the only exception in which the Conservatives are sure of winning. This county has been represented in the House of Commons by the well-known Montreal stock broker, Mr. Forget, who not only nurses his constituency year in and year out but by his wealth is able to spend money liberally to hold the allegiance of the electors. He recently purchased four stations, which he has put at the disposal of the farmers. But, notwithstanding all this generosity, the electors are not satisfied. At heart they have confidence in Sir Wilfrid Laurier and his Liberal Government, and have made strong appeals to the Liberal organizers to put in nomination for the county a good man, whom they promise to support. This has so alarmed Mr. Forget that he is now go-

ing about the county declaring that there will be a change of Government on October 29th, when he will be given a Cabinet portfolio, and will only accept office as Minister of Public Works that will enable him to enrich the county of Charlevoix. In the meantime the Liberal organizers have harkened to the wish of the electors of the county, and have chosen Mr. Camille Paulin, a lawyer, from River de Loup, to oppose Mr. Forget, and a close fight for the constituency is now on.

The fight in Quebec county between the ex-member, Mr. Lorenzo Robitaille, and the Liberal standard-bearer, Mr. Joseph Turcotte, is apparently undecided, in favor of the latter, who is an eloquent speaker, and fairly defeats his rival in every public meeting where both candidates meet in controversy. Betting these days is not on the possibility of Mr. Robitaille winning, but even money that he will lose his deposit.

It is very evident from the want of old-time enthusiasm manifested in the city and district of Quebec during the time of elections that the electors look for a victory of the Laurier Administration by an overwhelming majority, and even money is wagered in all quarters that the result will give Sir Wilfrid at least fifty majority on the next Parliament. The Tory scandals are not making any converts in this electoral centre. Even many electors disposed to favor the Conservative party do not hesitate to express themselves on this head, and say the Tory leaders not only fail to furnish proof, but have overstepped the mark, and thus disgusted the independent vote of the county.

Heads of financial institutions discussing the political situation say it would be suicidal to return the Conservatives to power at this time, which would disturb the financial equilibrium of the country, especially putting faith in a party without capable leaders, or at the mercy of the Fosters, Fowlers and Bennetts.

New Feature in Time-Tables.

A reconstruction has been made in the arrangement of the complete time-tables issued by the Grand Trunk Railway System, which will be appreciated by the travelling public. Where tables are shown of the condensed time of trains between the several points where through equipment is run, this equipment is shown directly opposite the time-table, giving passengers the information they desire in the easiest possible way and without turning to other pages to find what equipment is on several trains shown. To make railway time-tables plain to the travelling public is a problem with the railways, but this new innovation has overcome a considerable amount of trouble which has been experienced in the past in knowing what equipment could be found on through trains.

The walls of the breakfast room were chalked with the word "Warn," an arrow and other mystic signs, which were supposed to have been the marks of the burglars.

A friend of Mr. Pardoe stated that he had gone in for the scholastic profession and was to enter on a university career in the course of a few days. He possessed strong imagination and had romantic ideas.

Miss Pitcairn, who was carried forward by the bench, said the damage they did to the house by breaking open the bedroom door was to make the affair look like the work of a

burglar. She admitted corroborating the story of the burglary told by her stepmother, and said she was going to sell some of the things to go away from Hanley and get a situation.

Detective Pemberton stated that Pardoe after arrest referred to the affair as "a huge Gilbertian joke, which would cause roars of laughter."

Dominion Car Works Receives Big Order From C. P. R.

Montreal, Oct. 18.—The Dominion Car and Foundry Company, which has been all but closed down all summer, owing to the slack demand for their output, will open this week with a full staff of a thousand men. This opening is made possible by an order for 500 cars for the C. P. R. The company expects to keep open right along now.

Montreal, Oct. 18.—The amateur "burglary" mystery at Hanley was elucidated yesterday, when Miss Margaret Leonard Pitcairn and Richard Geoffrey Pardoe, fellow-students at the Hanley Pupil Teachers' Centre, surrendered to their bail at the local police court, to answer a charge of breaking into the house of Mrs. Pitcairn, the stepmother of the first-named delinquent.

Mrs. Pitcairn, so the story went, came home one night a fortnight ago and found a piece of poisoned meat thrust through the letter-box. She went upstairs and found that the bedrooms had been ransacked, and that silver, jewelry and valuable china were missing.
