The
Only
Remedy

STRONGLY INDORSED BY A CLERGYMAN.

"Your Herpicide has proved a great success. I have used one full bottle, and the result is surprising. The scalp has been thoroughly cleansed from dandruff, the old hair has been softened and strengthened, while soft, short hair has appeared in the bald spots. I have also been greatly relieved from headaches, and most earnestly recommend it as I have been to try Newbro's Herpicide."

Pastor First Presbyterian Church, Hanging Rock, O.

PROMOTION EXAMS. OF CHELSEA GREEN SCHOOL

List of the Scholars That Have Passed the Various Grades.

Report of the promotion and review examination of the Chelsea Green school. Names in order of merit.
Junior IV, to Senior IV.—Herbert Needham, Lillian Cooper, Maggie Fleming, Virgie Addison, Adeline Chambers, Alfie Clayton.
Senior III, to Junior IV.—Edna Tye, Gladys Cornelius, Violet Addison, Edna Clayton, Adeline Haynes, Frank Corby, Percy Greenfield.
Junior III, to Senior III.—Bert Haynes, Ethel Gibbling, Willie Bourne, Frank Spice, Viola Prince, Recommended—Harry Corby.
Grade IV, to Grade III.—Elsie Bouden Norman, Greenfield, Daniel Fleming.
Grade III, to IV.—George Clayton, James Prince, Mabel Clayton, Florence Corby, William Westwood, Irene Steele, Fleming, G. Frances, Gibbling, Bertha Chittick, Recommended—Gordon Haynes, Jack Millman.
Standing of Junior Classes.
Senior Part I.—Carrie Pearson, Arthur Cooper, Alfretta Bourne, George Haynes, Rosie Bourne.
Junior Part II.—George Tye, John Pearson, Edna McBride.
Senior Part I.—Stanley Morningstar, George Bourne, Percy Clayton, May Needham, John Strain, Bertha Greenfield, Raymond Durand, Irene Steele.
Junior Part I.—Walter Gibbling, Jay Haynes, Harold Chambers, Forby Durand, Maggie Chittick, Gladys Prince, Clayton Strain, Fred Tye, Edna Clayton, Richard Welch, George Fleming, Ethel C. K., Willie Alteman, Winnie Cornelius, Alex. Strain, Edna Weston (absent).

MUCH INCONVENIENCE IN IMPORTING EGGS

Poultry Men Will Memorialize the Minister of Customs on the Matter.

At the regular monthly meeting of the London Poultry and Pet Stock Association held last evening, a resolution was passed instructing the secretary to bring to the attention of the minister of customs, in London, the inconvenience to which poultrymen are put in importing eggs for hatching. The small duty of three cents in itself is not a serious tax, but essential, in the charge was laid by Inspector Sanders, who had information from various sources, which led him to believe that the child was a short time, had been taken from her mother in Greece against her will, and also against her mother's will. She complained of her father being brutally ill-used by her kicking and beating her, and pulling out her hair. She stated that he was a man of very violent temper, and would be very cruel and terrible. At the time she was being interviewed the girl complained of pains in her back, caused from kicks given by her father.

It was decided that light and dark Brahmas would be exhibited at the August meeting of the association for criticism. In discussing the matter of production and growth of young stock this year, the general experience of the members seemed to be that hatches were not a good average, and that the development of the young stock had been somewhat slow, owing to the unfavorable and late weather. However, now improving, and London men will doubtless be well to the front at the fall shows.

Quick Work.

One member reported last January hatched pullets now laying, and another went him one better in claiming some February-hatched ones. President McNeill said that an international show was to be held in Buffalo in January next, they had done him a favor, and he hoped the London boys would be on hand to compete in the prize list.

A member complained of the inferior quality of feed supplied in the local market for poultry. Oats, he said, were little better than chaff. Oats in England were the most valuable of chickens' feed, but they had them weighing 40 pounds to the bushel. Mr. Glass told him that our farmers were growing now, weighing 30 pounds to the bushel, and he was pleased to give the address of several farmers whom he knew could produce as good oats as could be found in the world, and right near home in the Township of London.

Mr. McNeill supported the same view. He told the members that Canadian grain was the equal, and in some respects the superior of any in the world, and Canadian chickens men had shown that in any breed and in all classes, they were able to grow chicks that would compare favorably with any raised elsewhere on the face of the globe. Right here in London, and in the largest of the shows, and hold their own and more.

M'CORMICK—GOODWIN

Rev. W. Godwin's Daughter Married at Parkhill.

On Wednesday, June 30, the Parkhill Methodist Church was the scene of a pretty wedding, when Miss Eva Godwin, daughter of Rev. W. Godwin, was married to Rev. John M'Cormick, pastor of the Methodist Church, Malden. The church was beautifully decorated for the occasion and was almost filled with interested spectators. The ceremony was performed by the father of the bride and the wedding music was played by Miss Kirkland, of Galt. During the signing of the register, Miss Maud Robinson sang "The Haven of Love." The bride wore an empire gown of point d'esprit over white taffeta with train and the crowning veil and wreath of orange blossoms; she was given away by her brother, Orville Godwin, of Washington. The bridesmaid, Miss Retta Hicks, of Amherstburg, was gown in pink taffeta silk and black picture hat. The best man was Benjamin McCormick, of Listowel. A number of Londoners were among the guests.

APPOINTED TO SENATE.

Ottawa, July 2.—The Canada Gazette announces the appointment of Hon. Arthur Boyer, Montreal, to the Senate, to succeed the late Senator Thibaudeau.

MINARD'S LINIMENT RELIEVES NEURALGIA.

MUSKETRY EFFICIENCY RULES ARE DISLIKED

Many Officers Claim They Are Unfair Both to Them and the Men.

Resolutions expressing considerable dissatisfaction with the order in regard to making efficiency in musketry the basis of efficiency pay have been received at local headquarters from the officers of the regiments who were under canvas at the district camps in Walkerton, Elora and Woodstock. The officers claim that while they agree with the principle embodied in the order it was a mistake to put it into force, an such late date as it put them in an embarrassing position towards their men. A large majority of the men had enlisted on the understanding that they were to receive pay as in other years. Many of them were entirely new, and when they went into training were unable to make scores sufficiently high to entitle them to efficiency pay. The officers also claim from actual experience that a number of the men who were sent camp and who have done good shooting on many occasions at Bisley were unable with the new Ross rifle to make scores entitling them to efficiency pay. If crack troops were sent to camp, the unfair, they contend, to ask recruits to do it. The inference is that the men are simply given the rifle they have seen before, and after a brief lesson in instruction, are put down to fire. The recruit does not get his sights right, if the light is bad, or if he is several minutes in finding out where he is shooting, the chances of his qualifying for any efficiency pay at all are small.

LEAVES THE CITY TO ELUDE SUMMONS

Warrant Out for a Greek Citizen Accused of Cruel Treatment of Daughter.

The police all over the country have been notified to keep a sharp lookout for George Hrisikos, a Greek, who, until last night, lived in East London. Hrisikos was to have appeared in court this morning on a charge of brutally ill-treating his 13-year-old daughter. The charge was laid by Inspector Sanders, who had information from various sources, which led him to believe that the child was a short time, had been taken from her mother in Greece against her will, and also against her mother's will. She complained of her father being brutally ill-used by her kicking and beating her, and pulling out her hair. She stated that he was a man of very violent temper, and would be very cruel and terrible. At the time she was being interviewed the girl complained of pains in her back, caused from kicks given by her father.

PERSONAL MENTION

Mr. James Moffatt, formerly of London, now of Buffalo, N. Y., accompanied by Mr. Jack Hume, also of Buffalo, arrived in town yesterday. The trip was made from Buffalo on wheels, the boys leaving Monday and stopping en route at Grimby, Paris and Woodstock. They will spend the summer returning by the same means to attend school in Buffalo in September.

Mr. R. T. Jones and daughter Bessie have gone on a visit to his brother, Rev. T. C. Jones, of Durand, Mich.

Mr. Charles Hoskin, of the street railway department, has purchased the property of W. J. Laskey, 475 Talbot street. Mr. Laskey thinks of going to the coast for his health.

Mr. H. McLaughlin, principal at Canadian school, was presented with a beautiful pin and a suitable address by his pupils prior to the close for the holidays.

The Monday school intended holding a picnic at Alexandria Park on Wednesday. Games and amusements for the scholars and children will be held, and the town band will be there.

Mr. Robert Sully and Mr. Joseph Sully, of Toronto, have been visiting Mr. and Mrs. William Sully, South London. Mr. Robert Sully, who has just returned from Europe, leaves for Seattle Monday.

Mr. C. B. Higgins (nee Lillian Skinner) will receive 476 Queen's avenue, Monday afternoon and evening, before leaving for Moosejaw.

WRIGHT HIT THE GROUND

Aeroplane Came to Grief at the Washington Manoeuvres. Washington, July 2.—Orville Wright flew down the west side of the drill ground at Port Myer in his aeroplane today, 40 miles of more an hour and a hundred feet in the air. His engine coughed and skipped its regular explosions. The propellers jerked about in uneven fashion as the machine sped onward, floating gracefully, but evidently in trouble. At the end of the field the aeroplane curved to the left, as it had done before and as it should. The noise of the engine became more and more irregular and suddenly stopped. The machine, with its propellers dropping 15, maybe 20, feet, and then glided at an angle toward the earth. The speed was reduced by this time to 30 miles an hour, according to Orville Wright's own estimate and then the aeroplane rushed earthward.

The right plane struck a young sapling, six or seven feet in height, which, Orville, looking downward from a hundred feet in the air, thought was a bush. The whole car swung violently and sharply to the right, landing with great force on the ground. The runners beneath the car smashed to pieces and the Wright aeroplane landed heavily on earth and sent up a cloud of dust from the grass-covered soil which it cut and tore.

Orville was unhurt, but his escape was a narrow one, and the wonderful car was cruelly damaged. The right end of the lower canvas-covered plane was torn and bruised in such a fashion that it will take days to repair.

STEEL BONDS. Montreal, July 2.—The Dominion Iron and Steel Company has called to Sproyer Bros., London, and the Dominion Securities Company, \$1,000,000 of 5 per cent consolidated mortgage bonds which will be shortly offered to the public at 94.

Don't Go

On your vacation minus the toilet preparations you appreciate so much. Creams, Sunburn Lotions, Tooth Paste and Toilet Waters are as necessary to the traveller as soap and water.

We might suggest BALM-ZOIN as a dainty toilet luxury. No stickiness, no grease, no harm and little expense. Twenty-five cents.

Strong's Drug Store
184 DUNDAS STREET.

HYDE PARK METHODIST SUNDAY SCHOOL PICNIC

Names of the Winners of the Events at Springbank Park.

A very successful outing was held at Springbank when the Hyde Park Methodist Church Sabbath school held their annual picnic. About 75 or upwards were in attendance, and all expressed that they had spent a very enjoyable and profitable afternoon.

Following is the list of prize-winners in the various races:

Boys' race—Austin Springett, Herold Keays, Virgie Cooper, Irene Smith, Norma Springett, 2 Louie Smith, 3 Marjorie Springett.

Girls' race, 10 to 15 years—1 Mary Wilson Westwood, 2 Roy Vanstone, 3 Willie Robson.

Boys' race, 16 to 15 years—1 W. Fortner, 2 W. Springett, 3 T. Morris.

Young ladies' race—1 Miss K. Fortner, 2 Miss R. Grey, 3 Miss B. Springett.

Young men's race—1 R. E. Springett, 2 W. E. Shilleto, 3 R. Guest.

Married ladies' race—1 Mrs. W. Cooper, 2 Mrs. R. E. Springett, 3 Mrs. C. H. Cooper.

Three-legged race—1 R. E. Springett and C. H. Cooper.

Chum race—1 Mary Springett and Bertha Springett.

Consolation race—1 Queenie McDowell.

Personal Mention

YOUR SAVINGS ACCOUNT

MAY BE SMALL at first, but the noticeable feature of Bank of Toronto Savings Accounts is that they grow.

We are constantly opening accounts for small sums, but these usually increase to amounts that are very satisfactory to both Depositor and Banker.

The first deposit acts as a magnet for the odd amounts that are so apt to be wasted.

THE BANK OF TORONTO

THREE OFFICES IN LONDON.

The skids or runners underneath the machine were bent and broken, but otherwise the machine had not suffered much from the battering it received.

Orville climbed from his seat almost immediately after the machine lighted. The Wrights were pretty blue when it was all over and their bruised pet was taken back to the aeroplane shed, but they put on a cheerful front and said that as far as they were able to learn from a cursory examination the machine could be soon repaired. The accident happened on a second flight. Previously to it, Orville had ascended and remained in the air on a beautiful flight lasting 11 minutes and 50 seconds.

A DOUBLE EXECUTION

IN THE LAST CENTURY

Growsome Spectacle That Was Witnessed on the Outskirts of Toronto.

Toronto, July 1.—The apparent growing aversion on the part of the public to the execution of the extreme penalty of the law in cases of capital crime is symptomatic of the marked change which has taken place in public sentiment in regard to executions. Fifty years ago a hanging with all its repulsiveness was a popular spectacle, which attracted even in Toronto thousands of people, women included, and was the occasion of a fete day. There are living in the city many who can recall such gruesome exhibitions, and as showing the change which has taken place, a description of Mr. R. P. Eason, of the Great Northwestern Telegraph Company, of a double execution carried out on March 4, 1859, may be of interest.

The prisoners executed were James Fleming, a young telegrapher, 17 years of age, who fatally stabbed a companion named Madigan, and John O'Leary, who killed his employer.

Fleming was an operator with the Grand Trunk Railway when he committed the crime for which he paid with his life. Of respectable parentage, he unfortunately acquired loose habits and began to keep evil company, and it was after a jollification with Madigan and some others that a quarrel arose and he stabbed Madigan through the heart.

O'Leary had a misunderstanding with his employer, a Mr. Cole, about his wages, and attacked him with a knife, inflicting injuries which resulted fatally.

Mr. Eason, in describing the scene at the double execution, says the scaffold was erected at a considerable height from the ground on the south-west wall of the old jail. That ancient prison house stood near Gooderham's distillery, and just east of the Fairgreen, a large piece of land lying on the bay front between Frederic and Princess streets. Agricultural fairs were held here, and even circuses pitched their tents on these grounds. Country people came trooping into the city in large numbers to see an execution. Farmers drove in with wagons, bringing their families along, and women were about as numerous as men. On some occasions when the weather was fine, many of the country people arrived in the city on the previous night and securing a favorable cologne of advantage in the neighborhood of the jail remained in this position all night and until the execution took place.

In this way they obtained a sort of front seat from which to view the repulsive and demoralizing exhibition. On the day of Fleming and O'Leary's execution the weather was cold and today, 40 miles of more an hour and a hundred feet in the air. His engine coughed and skipped its regular explosions. The propellers jerked about in uneven fashion as the machine sped onward, floating gracefully, but evidently in trouble. At the end of the field the aeroplane curved to the left, as it had done before and as it should. The noise of the engine became more and more irregular and suddenly stopped. The machine, with its propellers dropping 15, maybe 20, feet, and then glided at an angle toward the earth. The speed was reduced by this time to 30 miles an hour, according to Orville Wright's own estimate and then the aeroplane rushed earthward.

The right plane struck a young sapling, six or seven feet in height, which, Orville, looking downward from a hundred feet in the air, thought was a bush. The whole car swung violently and sharply to the right, landing with great force on the ground. The runners beneath the car smashed to pieces and the Wright aeroplane landed heavily on earth and sent up a cloud of dust from the grass-covered soil which it cut and tore.

Orville was unhurt, but his escape was a narrow one, and the wonderful car was cruelly damaged. The right end of the lower canvas-covered plane was torn and bruised in such a fashion that it will take days to repair.
