Tickets to be valid on this car must be marked "Alma College Special."

VERVILLE, LABORITE, DEMANDS PLEBISCITE ON NAVY QUESTION

Robust Canadianism in Mr. Pardee's Speech on the Subject.

Ottawa, Feb. 11. — The event of the day was an amendment to the resolution of the Prime Minister, providing for the contribution by Canada of three Dreadnoughts to the naval forces of the empire, proposed by Mr. Alphonse Verville, the Liberal member for Maisonneuve, Montreal, Mr. Verville, although a member of the Liberal party, is best known to the public as the representative of organized labor. Indeed, he entered the House in 1906 as a Labor member, carrying the by-election against the Liberal Government, occasioned by the death of the late Hon. Raymond Prefontaine. He was re-elected on the Liberal ticket in 1908 and in 1911, but has always been regarded as a spokesman of the Trades and Labor Congress of Canada. His amendment calls for a plebiscite, or possibly a general election, declaring that the proposed vote of thirty-five million dollars should not become effective until submitted to and approved by the electorate.

Crisis Thursday Night. The vote upon the Verville and Laurier amendments, and the substantive resolution of the Prime Minister, will be taken on Thursday night. The debate today was opened by

Finicky Appetites Put in Order

You Can Sit Right Down and Eat Anything Served If You Get Acquainted With Stuart's Dyspepsia Tablets.

With a most pathetic sigh, the dyspeptic sits down and "views with alarm" his hungry companions. Now, the best doctrine for most people to hand out to suffering stomachs is to compel a square meal with Stuart's Dyspepsia Tablets. To sit down to a good meal and eat whatever is served is getting back to the good old days when granddaddy carved the roast; when the family made a clean-up; and when good appetites with sound digestion produced the men and women that have made our nation what it is. Stuart's Dyspepsia Tablets are a natural restorative of healthy action to the stomach and small intestines, because they supply the elements that the weak stomach lacks—pepsin, golden meal and other digestives.

If you are afflicted with any symptoms of stomach trouble, be assured that your digestive organs are losing power—they need help and there is no more sensible help to be given them than to supply elements which will do the work of digestion for them. Stuart's Dyspepsia Tablets have been found by test to have digestive powers, one grain of the active principle of these tablets being sufficient to digest 3,000 grains of ordinary food. It is plain that no matter what the condition of your stomach, or how far your disease has progressed, one of Stuart's Dyspepsia Tablets taken at meal-time will do the work—give your stomach an opportunity to regain its lost powers, the muscles will be strengthened, the glands invigorated, and you will be a new man.

All druggists sell Stuart's Dyspepsia Tablets, at 20 cents a box.

Hon. Rodolphe Lemieux. He was followed by Mr. F. F. Pardee, the chief Liberal whip, who made a speech of robust Canadianism. Mr. Carroll, of Cape Breton, also spoke in opposition to the Borden resolution. As usual, only Liberal members took part in the debate.

Lemieux "Ardent Canadian." Mr. Lemieux declared that the naval question was the most important subject which had been brought before the House since Confederation.

"Col. McLean declared he was an ardent imperialist," Mr. Lemieux continued, "but I am not an ardent imperialist. I am an ardent Canadian." If the tie which binds Canada to the British Empire is strained too much, it may break, Mr. Lemieux declared. He was greatly surprised to hear the argument put forward that Canadians could not be found to serve in the Canadian navy. The Conservatives in 1909 had declared themselves as bitterly opposed to contribution, but today they were declaring themselves in favor of it, and indeed intimating that they had always been in favor of the present policy.

Divergent Views in Cabinet. It was scandalous, Mr. Lemieux declared, to see ministers of the crown pretend to be united on the Government's policy when they held such divergent views.

In 1911 the gentlemen who represented the Nationalist faction, and who are now occupying seats in the Government, declared from the House that they favored a plebiscite or referendum on the naval question, but now that they were safely lodged in their seats they advocated contribution without first consulting the people's wishes.

"Both the Nationalists and the Conservatives were victorious in the election of 1911; Canada was the vanquished," declared Mr. Lemieux, amid cheers from the Opposition.

The present policy, he said, was neither British nor Canadian, and the three phantom ships would add three million dollars per annum to the burden borne by the now overtaxed British workman.

Borden Not Consistent. The Prime Minister, when in Opposition, had denounced the contribution policy as one likely to sever the bonds between Canada and the motherland. "Now," declared Mr. Lemieux, "he is in favor of that very policy." The Opposition had been urged to abandon their principles for the sake of imperial unity, imperial unity, Mr. Lemieux observed, meant to many minds militarism. In his opinion the unity of the British Empire was best promoted by preserving the autonomy of Canada. The Government's policy, the ex-minister declared with some heat, should not and could not be forced on this country without the Government first dissolving Parliament and submitting that policy to the judgment of the electorate.

Disappointed in Foster. Mr. Foster (West Lambton), who followed, read extensively from the speech delivered by Hon. Geo. E. Foster on March 29, 1909. This speech he considered in the Dominion Parliament, and represented, to his mind, the best Canadian thought and the highest imperial sentiment. In that speech the present Minister of Trade and Commerce, in Mr. Pardee's opinion, had been a Canadian, first, last, and all the time. In March, 1909, and subsequently at the Dominion Day dinner at London, the present Prime Minister had declared in unmistakable terms for a Canadian navy, and had scouted the suggestion that such a navy meant a step toward separation from the Em-

pire. Indeed, Mr. Borden had then declared that the naval service law passed by the Laurier Government was a step in the right direction.

AGITATION TO MAKE SOUTH LONDON UNIVERSITY DISTRICT SUGGESTED BY DR. AXFORD TO PROGRESSIVE SOCIETY

Physician Believes Colleges and Other Educational Institutions May Be Secured by Concerted Effort—A "Big Ben" Wanted for the Normal School.

The first regular meeting of the South London Progressive Association was held in Shaw's Hall last evening, and, although the new organization was only five days old, there was a large attendance. President William Gerry occupied the chair.

A committee, of Messrs. Gerry, Dr. Axford and William Smith was appointed to draft the bylaws of the association, which will be presented at the meeting next week. Messrs. McArthur and William West were appointed auditors for the year. President Gerry was empowered to make the necessary arrangements for the use of the hall.

Dr. E. Axford made a striking suggestion towards the improvement of South London.

Secure Educational Institutions. "The faculty of the Medical School," he said, "has already obtained options on property on Wellington road for the purpose of erecting a new school, and I think that if this association were to take some action is regard to getting more educational institutions for this part of the city, would prove to be of great benefit. South London will never become a manufacturing section, and it will do no harm to attempt to obtain several schools or colleges. If the Medical School is secured, it might be possible to obtain

THRONG OF 1,200 SEE ODD STUNTS AT "Y" CARNIVAL

Hypnotic Exhibitions, Wireless Demonstrations and Microscopic Tests Witnessed.

WONDERFUL MEDLEY OF UNIQUE EVENTS

One Man Drinks Milk Under Water—Amateurs Have Boxing Bouts.

The Young Men's Christian Association, co-operating with the Young People's Societies of Adelaide Street Baptist Church, Christian Church, Centennial Methodist Church and King Street Presbyterian Church, tendered a reception and athletic carnival to 1,200 people in the Y. M. C. A. Building on Tuesday night.

The guests for the occasion were the members of the association, and the employees of the following cast end manufacturing concerns: Grand trunk carshops and roundhouse, Geo. Whitcomb Sons, O-Pee-Chee Gum factory, Empire Brass, London Street Railway, Dominion Fittings, Globe Casket and Columbia Handle.

Forced to Hold "Side" Shows. The program consisted of musical numbers, athletic events, experiments in meteorology by Professor Bowman, aquatic sports, gymnasium games and hypnotic turns. The program was so well filled that several things had to be carried on in various parts of the building at one time.

The auditorium was crowded to hear a splendid musical program, consisting of selections by the London Male Chorus, under the direction of Mr. Charles Foulkes, solo by Miss Weston, cornet solo by Gordon Thompson, and a recitation by Miss Georgia M. Newbury. Every number was well rendered, and was heartily applauded by an appreciative audience.

Exhibit From Industrial School. The educational side of the evening was not neglected at this function. Principal Beal, of the Alexandra school, gave a fine exhibit of work done by the attending students in the industrial school. The exhibit resulted in many compliments, and will be the means of securing for students for the school. A wireless telegraph system was installed and successfully operated by Messrs. Crystall and Martin.

By means of the microscope and polarizer, Professor James Bowman was enabled to exhibit various crystallized metals and the elements in their composition. He also showed the method of weaving textile fabrics, and demonstrated the taking of deep soundings, and exhibited specimens of minute shells and animals which have their existence in the ocean.

Some Amateur Bouts. Followers of the boxing ring had their curiosity satisfied by seeing some pugilistic exhibitions by several aspiring amateurs in the downstairs department. Some interesting wrestling and fencing events were also pulled off.

Under the direction of Stewart Lashbrook, a number of swimming races were held. The 50-yard race was won by C. Stevens, with C. Hutchinson and R. Kerr, second and third.

Exhibitions of life-saving were given by Messrs. R. Clinger, C. Stevens, C. Hutchinson and J. Whitelaw. A man eating bananas and drinking milk under water is an unusual feat but this event was successfully accomplished by Roy Clinger. The athletic events in the gymnasium were interesting and the lovers of sports gathered in that department. An exhibition of indoor baseball between two picked teams created much amusement. Frank Brown featured the game by jumping three feet in the

heart of hearts, still preferred a Canadian navy to contribution. They were forced, however, to uphold the present policy of the Government, because of an ironclad agreement with Mr. Bourassa. By this agreement the present Government had come to power.

ASK SUPERVISION OF THE BANKING SYSTEM

West Elgin Liberals at a Big Meeting Censure Frenzied Speculations.

[Special to The Advertiser.] Dutton, Feb. 11.—At a reforming meeting of the West Elgin Reform Association, strong resolutions indorsing Mr. N. W. Rowell, K. C., and Sir Wilfrid Laurier were unanimously passed, as well as the following resolution submitted by Alex. Darrach, of St. Thomas, as follows:

"That, whereas, the people of Elgin County have suffered severely by reason of the opportunities afforded by the present banking laws to those in control of the banks to engage in stock gambling and frenzied speculation with bank funds, and for other well-founded reasons, the Liberals of West Elgin ask for adequate supervision of the banking system."

The wireless offices here have a stack of messages, received by cable, for Mrs. Scott; but all efforts to get an answer from the Aorangi since news of his death, although the short range of the Aorangi's wireless, which reaches only 200 miles, protects her grief from the world.

MRS. SCOTT LEARNS OF TRAGEDY THROUGH A WIRELESS MESSAGE

Honolulu, Feb. 11.—Mrs. Robert Scott, travelling toward New Zealand on the steamer Aorangi to meet her husband, probably knows tonight of his death, although the short range of the Aorangi's wireless, which reaches only 200 miles, protects her grief from the world.

The wireless offices here have a stack of messages, received by cable, for Mrs. Scott; but all efforts to get an answer from the Aorangi since news of his death, although the short range of the Aorangi's wireless, which reaches only 200 miles, protects her grief from the world.

Spoons Like Good Things in Them

Ask the children about it. Think it over yourself for YOU are a grown-up child.

SURE IT'S TRUE—that's why the dish ran away with the spoon that time.

Delights most everybody—it is such a good, pure, wholesome blend of the delicate food flavors of wheat, rice and corn.

It's difficult to find a food more nourishing and palatable.

Suppose you have this rich, creamy, hot porridge in mind for
