Benson, from freezing with the death of his partner, P. A. Benson, from freezing with the death of his partner, P. A. Benson, from freezi Both were experts on snowshoes and made good progress over the deep

But they died in a good cause and died heroically. They were not trying to come out of the country to save themselves. Four heroes had two brother miners, sick unto death with scurvy, whom they were drawing on sleds across to Valdez, where proper medical treatment could be secured. The treacher the manner of the country to save themselves. Four heroes had two brother miners, sick unto death with scurvy, whom they were drawing on sleds across to Valdez, where proper medical treatment could be secured. The treacher the left it. He will return in the spring and give the body a proper burial."

"It was six miles to timber, and neither had with them a change of clothing, and before fuel could be obtained for a fire, Benson laid down and could not be aroused from his long sleep. His partner was compelled to leave his body in the snow, after marking the place where he left it. He will return in the spring and give the body a proper burial."

"It was six miles to timber, and neither had with them a change of clothing, and before fuel could be obtained for a fire, Benson laid down and could not be aroused from his long sleep. His partner was compelled to leave his body in the snow, after marking the place where he left it. He will return in the spring and give the body a proper burial."

WHO THE MEN WERE. Four of Logan's party were members of an ill-fated party that left New York city months ago for the Copper river country. Nine men formed the Scientific Prospecting Company, of New York. Six of them have met death in the Copper river country. Two of them re-turned disgusted with the Copper river country. Four of those frozen who be-longed to it were Allerman, Miller, Schultz and Erhardt.

Three others died from scurvy at Twelve-Mile and at Copper Centre, but their names cannot be learned.

Only one of the seven who remained in the country. on March 6, they must have a to death the last week in They were not discovered untry—George Huber, of Brooklyn—has come out alive. He reached here on the Excelsior last night, sick with scurvy, and he will go on home just as soon as he is able to do so.

Although Mr. Whyte did not go to Robson where the company are at work on their Boundary Creek line, he had a lang talk with the acciprost in the second

long talk with the engineer in charge and learned that work is being carried on very satisfactorily. Some delay was caused in the work on the big tunnel this side of Robson by the severity of the weather, the water used to drive the compressor plant which works they are learned. compressor plant which works the steam drills being frozen. Of the thirty drills on the ground only two could be operated. This, however, will not delay the completion of the line as a switchback is being constructed and will be used

until the tunnel is completed. On the main line the wooden trestle are being replaced just as quickly as possible by steel bridges and where posible masonry arches. The wooden tressteamship, will wire this morning to the the only danger being from fire and the homes of the victims to notify relatives long blockade that would result should one of the wooden bridges be burned.

Mr. Whyte was asked if the report

> their opposition to the Corbin charter had any foundation in fact. He replied that the company would certainly oppose the charter, not only on their own ac-count, but because they believed that in the interests of Canada, the charter shauld not be granted. The Canadian and Provincial governments, he said, were doing their best to induce people to settle on the plains of the Northwest and in the vellers of Pritial Colority. n the valleys of British Columbia, point ing out to them that there was a grea home market in the mining districts. Should the Corbin railway be built all the Boundary Creek districts would come from Washington and the Canadian valleys would remain unsettled. Then, too, ores would be taken to the American smelters and the project on foo to erect smelters on the Canadian side of the line would be killed. The idea that the line would give the Grand Frunk an entrance into British Columia and eventually bring it to the Coas was, Mr. Whyte said, very far fetched. The Grand Trunk had no interests West of Chicago and there was nothing to in-

> Long List of Dead and Dying-Victims Perish While Fleeing Over Trails.

Seattle, March 17.—An epidemic of lan scurvy is sapping the life of the hundred of once sturdy men now in the Copper river country. Ten deaths are known to have occurred in the last three months from this disease, and over fifty cases which may result fatally are reported. No portion of the country seems to have escaped. The river valley is a great hospital, where every settlement is a ward for dying men.

A partial list of the dead is as follows: S. Williams, Los Angeles, Col.; John Rahe Honolulu; Nick Urban, Pittsburg, Pa.; Jaci Harden, San Jose, Cal.: D. G. Meadville, Mo.; Dan Manard, Meadville Mo. Besides these are one death at Twelve Mile City and three at Copper Centre. The names of the victims are unknown.

The story of disease and death, which reached here last night by the steamer Excelsior from Orca, is one of the most horrifying that has come from a district aiready famous as a wholesale burial ground. Reports from Orca, Eak, Twelve-Mile, Bremner and Copper Centre are the same. Scurvy is everywhere. At the last place thirty of the sixty, settlers are in an improvised hospital, and it is reported that the attending physician has little hope of saving their lives. At Twelve-Mile there are six cases, one of which had prowed fatal at last advices. Eak, three miles south of Orca, had fourteen cases when the Excelsior sailed, some of the sick men having been brought down the river 110 miles from Bremner, the trip being made over seven feet of snow. On the Excelsior were six men who had resufficiently to make the trip

of the twenty-eight men camped within radius of ten miles from Bremner City, hirteen have been stricken with the dread disease up to January 14. Three had died and others were near death's door. On the morning of January 14 the ten surviving sufferers left for the Coast under the care of fourteen fellow pros pectors, who, beside hauling the five help Herald for criminal libel, the decision of the court being that the allegations were insufficient in law, disclosing as they did no criminal offence. Mr. C. A. Cornellier, counsel for Col. Hughes, asked leave to appeal.

pectors, who, beside hauling the five helpless patients, were obliged to carry sufficient provisions to last at least four weeks, a less amount being unsafe for so long a trip at that time of the year.

It is 110 miles to the nearest steamship landing, and but thirty-three less to the

anding, and but thirty-three less to the nearest settlement of whites, the Alganak trading post. It was in the hope of securing a change of diet that the men braved the January storms and started out over seven feet of snow with the mercury registering 22 degrees below zero.

The first case was reported about the beginning of October, and the second near the middle of the month. Then the others followed so rapidly that it was realized the disease was of an englishing nature. lisease was of an epidemic nature. Dr. Frank Menough, of Brazil, Ind., stopped at Bremner on his way up the iver, and spent three weeks taking care river, and spent three weeks taking care of the sick men, giving his services and furnishing medicines free of charge. Upon his departure Dr. Winslow, of Los Angeles, made a hospital of the Charles Crafton cable and taken the charles craft. ton cabin and took charge of the afflicted

S. Milligan died there. He was a man of about 60, a member of Golden Rule Lodg, I. O. O. F., of Los Angeles, Cal., and leaves an only surviving relative, a and leaves an only surviving relative, a sister, somewhere in that state.

While these events were transpiring at Bremner City, a much sadder scene was being enacted on the Island opposite the mouth of the Bremner. There, living in a tent all alone in the deep snow, was Gus Mueller, and some distance away were Nick Urban and John Rahe. All were sick and isolated from the control of the control o

Mueller and Rahe were found a rew days later by a relief party from Bremner City, too late, however, to save Rahe. He died on the island and was buried by his partner's side. Nick and Rahe, by which names they are generally known, left \$240 to be used in assisting the sick at this place. Urban has a family somewhere in Pannshyster. Pennsylvania, and Rahe's wife and children are with wealthy relatives in Hono-

Dr. Winslow was taken with the disease winsion was taken when the dector comes to walk this morning. The dector comes from Los Angeles, Cal., but has anothe home in Mansfield, O., his wife, a coust

San Jose, Cal. He leaves a young wife self. The application was refused at the last sitting of the court as the present holder of the license was in Australia, and under the new Liquor License act the application for the transfer cannot be made by the owner of the property, as was the case under the former act. The application was granted and the writ will be issued.

CHOSE SPEEDY TRIAL.

Large Pots, 1x1½ each (English Rate.)
Editor "Household Words" says: "We are constantly appealed to for remedies which can safely be used in domestic practice for such ills as skin eruptions, burns, scalds, inflamed eyes, rheumatic and neuralisic pains, as well as colds in the chest. In all such cases, and, indeed, in a host of others, we have found Calvert's Carboile ointment invaluable."
