How Champagne

Is Made

The dosage is the last process in the preparation of French Champagne and depends upon the market for which the wine is intended. France, Germany and in fact most of the Continent preferring not as dry champagne as Great Britain and the United States, which demand wines of extraordinary dryness. The fact that Americans are always willing to pay for the best is one reason why the house of G. H. Mumm & Coexports its choicest products to this country.

Some brands produce heavy wines by the addition of alcohol, but G. H. Mumm & Co. have always aimed to furnish a pure champagne and of the very best quality, the Extra Dry heing of its type unexcelled, while the Selected Brut is pronounced by connoisseurs the finest brut champagne imported into the United States, all cuves being made of vintage wines.

CAMPBELL'S Everything Ready to Wear

ANNOUNCEMENT FOR 24TH

OUR SHOWROOMS are packed from end to end with handsome gowns, pretty suits, smart coats, beautiful neckwear, belts, underwear, and hosiery; but it is just those feminine frocks and frillings that you cannot obtain elsewhere to which we desife to draw your attention. Our goods are all ready to wear, all fresh and new, all of the very latest

THE "MADAM BUTTERFLY" JAPANESE JUMPER GOWN, the very latest suit for ladies, is to be seen in perfection in our showrooms in delicate lingerie, striped silk, muslin or fashionable Shantung. We are displaying this, the latest fashion creation, almost as promptly as London and New York.

LINEN COSTUMES.—We are not, content to display merely the ordinary lines; our endeavor is always to obtain something exclusive and just a little later in fashion than the rest. Starting at \$4.25 we have a most rich display of LINEN COSTUMES right up to \$35.00. It would be difficult to select one out of the hundreds shown, which has not some powerfully attractive quality either in the material or trimming or the style, but we cannot avoid calling particular attention to a quantity of new creations in white linen, richly embroidered and trimmed with valenciennes insertion and finished with very delicate

SOMETHING SUPERIOR in shirt waist suits is seen in several new arrivals in sheer Linen; three piece suits in different stylesor again, a new Jumper effect in White Sheer linen relieved by elegant embroidery and fine valenciennes lace, or in the same shipment are suits in white lines richly embroidered in many new and charming designsexquisitely embroidered and elaborately trimmed with valenciennes lace. The suits referred to range in price from \$15.00 to \$21.00

VERY HANDSOME SAMPLES of London, Paris and New York Coats in Pongee, Shantung, Lustre and light grey Tweeds, have just arrived. These goods are advanced samples and cannot be surpassed for quality of material or fashion. Being samples we are enabled to offer them at special and most tempting prices, viz., \$11.00, \$15.00 and \$21.00 CREAM SERGE is always popular, smart, and becoming, for regatta, holiday and summer wear. We have just received new creations in this material in long and short coats; twenty-eight and fifty inches long at prices ranging from \$15.00 to \$25.00

THE ABOVE are only a few out of the vast quantity of ladies' wearing apparel which awaits your inspection in our showrooms to which we cordially invite you.

gard to gold said to exist in the neighborhood of the Omineca valley.

For many years the Chilcoten Indians have been finding gold in this district, and have been making annual trips to Edmonton, where they have sold and bartered gold. It has been no frequent thing for these Indians to arrive in Edmonton with necklaces made of nuggets. Although several parties of adventurers and prospectors have made trips into the dispersion of the charge of the races the bars are openedd under the grandstand, and it is said under the gran pectors have made trips into the dis-trict, none of them have ever been

OPPOSITION STEAMER FOR WEST COAST

Union Steamship Company Will Operate When New Boat Arrives Here

MAY COMMENCE IN AUGUST

Motor Lifeboat for the West Coast-Princess May Takes Large Cargo to Northern Ports

The Union Steamship Company is to place a steamer on the West Coast route, running from Victoria to Quitsino via the usual ports of call. Ansino via the usual ports of call. Announcement to this effect was made yesterday by J. H. Wrigley, a director of the Union Steamship Company, who recently arrived from Liverpool, and, accompanied by his wife, is registered at the Driard hotel. This route has been exclusively served by the C. P. N. and then the C. P. R. vessels, and, aithough a local company was formed although a local company was formed some time ago to purchase a steamer for the route nothing was accomplish-ed. When the Union Steamship Company places its steamer on the run to the West Coast ports of Vancouver island it will be the first time that any opposition has been given to the C. P.

R. steamer in that service. Mr. Wrigley said yesterday that the steamer Cariboo, the new twin screw steel passenger steamer being built at the Ailsa shipyards on the Clyde, is nearing completion and, if labor troubles do not prevent early delivery, will arrive here in August to be placed on the northern route. As soon as the Cariboo arrives one of the company's teamers will be placed on the Victoria- Quatsino and way ports route. That there is a field for improved service on the West Coast of Vancouver Island is evident, and with the con-tinuous growth of the industrial de-Interesting People on Skeena velopment of the Island coast that field will grow rapidly. It has not been dewhich of the Union Steamship Company's steamers will be placed on that route, and probably no decision

will be reached until the steamer Car

The tribe is known as the Gitkslans (people of the Skeena) and not many years ago its members were just as celebrated as any others of British Columbia for potiateless and all the praccious model of the steamer caribon will be an improved Camosun, said Mr. Wrigley. She is to be a steel twin screw passenger steamer—the Camosun has a single screw—with watertight compartments, double bottom and of steel throughout, built according to the highest class at Lloyds. There will be first class accelebrated as any others of British Columbia for potiateless and all the praccional commodation for 150 passengers and Sole Agents
