MEDICAL.

Consumption Can be Cured.

ONTARIO PULMONARY INSTITUTE,

No. 135 Church Street,

(opposite the Metropolitan church),

TORONTO.

M. HILTON WILLIAMS, M.D.

PROPRIETOR.

All diseases of the respiratory organs treated by "Medical Inhalations," combined with proper constitutional remedies.

Permanently established for the cure of all the various diseases of the Head, Throat and Chest, viz: Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Ophthalmia (Sore Eyes) and Catharrhal Deafness; also Diseases of the Heart.

Our system of Practice consists in the most improved Medical Inhalations, combined with proper Constitutional Treatment. Having devoted our time, energy and skill for the past fifteen years to the treatment of the various diseases of the

HEAD, THROAT AND LUNGS,

(During which time we have successfully treated over 30,000 cases), we are enabled to offer the afflicted the most perfect remedies and appliances for the immediate cure of all those troublesome afflictions.

CATARRH.

As we have seen in tracing the relation to Nasal Catarrh and throat diseases to consumption, there are times, perhaps days, or even whole weeks together, when the affection gives little or no annoyance, and the patient flatters himself that it has entirely passed away, when a sudden cold or other cause of irritation occurs, and the progress of the disease is materially hastened. At this season of the year, not unfrequently, the disease becomes apparent, and admonishes the patient of the terrible future which must follow if the inflammation is not speedily allayed. Many there are who endeavor to convince themselves that the evil is not of any magnitude, and will soon pass away with the special cause of the irritation; but experience will prove to them the fearful error as it has to thousands who have preceded them to that "bourne from whence no traveller returns."

No one, therefore, who is afflicted with nasal catarrh or throat affection is safe while it is suffered to exist. Often slight causes give rise to serious complications, for example: The Uvula, or pendulous organ which hangs down from the palatine arch, just over the roots of the tongue is very apt to get inflamed, and its parts becoming relaxed, it stretches out lengthwise, so that its extremities sometimes rest upon the tongue, touching it and causing an unmanageable cough.

The cause was trivial at first, and might have been quickly removed. How important it is, therefore, that before the patient enters upon any course of medication a careful examination be made by one competent to decide upon the nature and extent of the disease.

Inhalations are applicable to all diseases of the respiratory organs, including catarrh, throat diseases, asthma, bronchitis, consumption; and thousands of cases can be cured by this mode of treatment when nothing else can reach them.

Consultation free, and prices of the institute within the reach of all.

The very best of references given from those already cured.

Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally, may write for "List of Questions" and circular, both of which will be sent free of charge. Address

WATCHING THE STEAMERS

FOR THE ASSASSINS OF LORD CAVENDISH AND MR. BURKE.

Ten Arrests at Liverpool Yesterday—Of no Importance, However—An Extraordinary Story from New York.

LONDON, May 17.—The Liverpool police searched the steamer Egypt, which sailed to-day for New York. Ten men stowed in different parts of the steamer were arrested. Two appear to be Americans and three Irishmen. They are fairly well dressed. The remainder are seafarers.

There is a very general feeling that the state of Irish politics will lead to a dissolution of parliament and possibly a change of ministry. It is likely the tories will obstruct Irish measures in parliament.

On the second reading of the repression bill the government will indicate its readiness to make a considerable number of amendments. The clauses relating to public meetings and newspapers will be greatly modified. There is a good deal of dissatisfaction among the home rulers with the Kilmainham compact. It is stated it has endangered Parnell's position as leader.

The police do not believe the stowaways on the steamer Egypt are connected with the Dublin crime.

AN EXTRAORDINARY STATEMENT.

The Assassination Planned in America—How it was Executed—Who the Assassins Were.

NEW YORK, May 17.—Advices received from Irish revolutionary sources state that beyond a possibility of doubt the assassinations were plotted in this country. The original plot did not include Lord Cavendish, but the assassination of Forster, Burke and Gladstone were arranged. The plotters were connected with the extreme branch of Irish revolutionists, who for a long time had their headquarters in this country. A document authorizing the assassination of the three officials was prepared at a special meeting of the executive council of the organization at which Irishmen from Canada and the United States were present. Two men were selected to execute the proclamation and a large sum was given to equip them. The men landed at Liverpool and remained in England awaiting instructions. In a few days they received an order revoking the sentence upon Gladstone. Forster was dogged from the moment he left England. From Holyhead to Dublin, one of the men following him secured a stateroom almost adjoining Forster's. He had an infernal machine with him, but was constantly foiled through the vigilance of the officials. While speaking at Tulla one of the men shot at Forster with an air gun, but the bullet struck a policeman. There were only two men engaged in the assassination of Lord Cavendish and Burke, and there was no car as stated. It is alleged the assassins are now on their way to this country and expect to avoid the detectives.

The steamer Scythia has been searched by the United States marshall, but no suspicious persons were found. The steamer State of Indiana which arrived to-day was also searched with the same result.

Gossip from Rome.

ROME, April 30.—The vatican had a sum of money invested in the Union Generale, It was feared that all would be lost, but M. Bontoux has undertaken to repay it, accepting the obligation in his own name and in the names of all the members of the new union.

The pope has given 15,000 francs to an institution founded by Pius IX. for the protection and education of young mechanics.

Von Schloezer has presented his credentials to the pope. Since Von Arnim left the vatican no Prussian ambassador has passed its doors until now.

Wagner is in Venice. He goes very often to the Piazza to hear the open-air concerts. A few days ago he entered the circle of musicians, shook hands with the leader, and expressed a desire to hear rendered the overture to "La Gazza Ladra." The leader despatched a messenger for the score, and the band played it on the spot to the immense satisfaction of Wagner, who was profuse in his compliments.

It is the fashion in Milan to grow fruits instead of flowers for house plants. Some elegant parlors are almost converted into little orchards.

The 21st of this month was the 2635th anniversary of the foundation of Rome. The day was formerly celebrated, but the practice has of recent years fallen entirely into disuse.

It is the intention of M. Baccelli, the minister of public instruction, to ask parliament for an appropriation of 9,000,000 for the restoration of the Pantheon. It is said that Baccelli's idea is to pull down the houses that surround the Pantheon and dig to the level on which the building formerly stood, thus making a sort of sunken square, as is the Forum of Trajan.

I told you some time ago of the capture by brigands of M. Notarbartolo, ex-mayor of Palermo and director of the bank of Sicily. He has been released, his family paying a ransom of 50,000 francs. The success of this band has greatly stimulated the business of brigandage in Sicily.

Dining Minister Morton.

ROUEN, May 17.—At a banquet given to Morton, United States minister, by the municipality to-night, the mayor referred to the long existing amity between the two countries, and called attention to a project for widening the Seine, so that a line of steamers can be run direct between Rouen and American ports. Morton expressed hope for the success of the project, the completion of which would not only expediate the transportation of cotton, but the importation of cheap American meat for workmen.

The Egyptian Crisis.

CAIRO, May 17.—The ministers having expressed a hope that the squadrons would be withdrawn immediately on arrival. The British and French consuls replied that they could hold out no such hope. It is understood the consuls will demand the disbandment of the army and the banishment of the lately promoted colonels and the Circassian officers be exiled.

Five Turkish men-of-war have arrived in Suda bay.

COTTON CARGO ON FIRE.

The Steamer Rio Grande with her Cargo Burning Near Philadelphia.

DELAWARE BREAKWATER, May 17.—The Mallory line steamer Rio Gaande, from Galveston for New York, arrived this morning with her cargo of cotton burning in the forehold and amidship. The passengers were transferred at sea to a bark bound for New York. The vessel will probably have to be sunk to extinguish the fire.

The vessel is valued at $250,000. The value of her cargo is unknown.

PHILADELPHIA, May 17.—The name of the bark which took the passengers of the steamer Rio Grande is now ascertained to be the Beppino A, from Philadelphia for Genoa. She will probably transfer the passengers to a passing steamer. If she finds it impracticable she will return.

Trial by Jury in Spain.

MADRID, May 17.—Great interest is excited by the debates commencing to-day in the chamber of deputies on the government measure instituting oral and public trials. The attorney general has resigned, and will introduce a counter scheme in favor of the establishment of the jury system. Segasta declared the country was not ripe for it, and will make the government's scheme a cabinet question.

A Large Fleet.

The Deadly Bridge.

PETERBORO, Ont., May 17.—Ralph Gibson, aged 27, a brakeman on the Grand Junction railway, was knocked off the top of a freight train to-day while passing under a bridge. The locomotive ran over him and mangled him in a terrible manner. He only lived two hours after the accident. He belonged to Belleville and had only been two weeks on the road.

A Young Woman Attempts Suicide.

LONDON, May 17.—A young woman named Anderson, daughter of a London East widow, attempted to commit suicide by jumping off Kensington bridge to-day. She was observed by Mr. Wm. Murray, assistant county treasurer, and deterred till a constable arrived. She passed through the fires of Michigan recently, and had her mind unsettled thereby.

Another Ottawa Bigamist.

OTTAWA, May 17.—Four years ago Charles Dawson, a married man with eight children, deserted his wife and left for parts unknown. His wife afterwards became aware of the fact that he had married another woman in Oswego, N.Y. He recently came back to Ottawa and threatened to make it hot for his first wife should she attempt to take any proceedings against him. Not being well versed in the law, she allowed him to bluff her.

Smallpox Excitement.

SAN FRANCISCO, May 17.—There is intense excitement here over smallpox among the Chinese on the steamship Altenower. Eighty-six cases of confluent smallpox has been discovered since the arrival of the vessel. All on board were vaccinated without effect. The patients have been removed to an hospital. The vessel is quarantined thirty days from date of each new case. The detention cost the owners $400 per day. The steamship Arabic also arrived with 1200 Chinese. All have been vaccinated. The steamship Canopis will soon arrive with 2000 coolies.

WALKERVILLE, Ont., May 17—The Walkerville schools have been closed, and no services will be held in the churches until the smallpox excitement at Windsor has abated.

The Question of Color.

Alfred Jackson has not yet got to work at the postoffice. The letter carriers are still filled with virtuous indignation at his appointment and declare that they will not work with him. It's about time that the postmaster let them know who was boss of the shop.

It was reported as a probability that Mr. Jackson would be transferred to the custom house.

PARLIAMENT PROROGUED.

SPEECH OF HIS EXCELLENCY THE GOVERNOR-GENERAL.

The Civil Service Measures—A Buoyant Revenue—Treaties with France and Spain—Throwing Off the Yoke of Taxation—Dissolving Parliament.

OTTAWA, May 17.—The fourth session of the fourth parliament of Canada was prorogued this afternoon by the governor-general. At 5 o'clock his excellency proceeded in state to the parliament buildings, where, the weather being fine, a large assemblage of people had gathered. A detachment of the Foot Guards formed a military escort, and the usual booming of canon was heard from Nepean point, across the river from the parliament buildings. The following was the

SPEECH OF PROROGATION:

Hon. Gentlemen of the Senate; Gentlemen of the House of Commons.

I desire to convey to you my best thanks for the earnestness and assiduity which you have shown in the performance of your parliamentary duties, and I am glad to believe that, on returning to your homes you will find the country everywhere enjoying a large measure of prosperity.

The civil service act will, I trust, be productive of the best results. It will improve the organization and add to the usefulness of that service already so efficient.

The measures relating to the extradition of fugitive offenders, to the winding up of insolvent banks, insurance companies and trading corporations, and for amending the criminal law, are all of an important nature.

The appropriation in aid of railway enterprise will tend greatly to open up vast tracts of fertile country hitherto almost inaccessible to the settler.

The annual grant for the encouragement of the sea fishermen will be of great value to that important branch of the national industries.

The removal of the duties on tea and coffee will lessen the cost of those important articles of food to the people and the repeal of the stamp tax on bills of exchange and promissory notes will be appreciated by the commercial community as a relief from an irksome burden, while the transmission of newspapers and periodicals free from postage will be accepted as a boon by the whole country.

Our manufacturers, already in a prosperous condition, will be further aided by the abolition of the duties on metals and other raw materials used in their several productions. It is satisfactory to know that the buoyant state of the revenue will permit of these reductions, amounting to about a million and a quarter of dollars, to be made without inconvenience.

During the recess my ministers will continue their efforts to secure favorable commercial arrangements with France and Spain. In these endeavors the high commissioner will receive the same hearty support from her majesty's government and the imperial diplomacy as has already been given to him. Such support must greatly strengthen Canada in any negotiations entered into for the improvement of her trade with foreign countries. It has been the more readily accorded that her majesty's government rely on no preference being given by Canada against the trade or products of the mother country.

Gentlemen of the House of Commons:

I thank you in her majesty's name for the supplies you have granted, which will be expended with all due attention to economy.

Hon. Gentlemen of the Senate; Gentlemen of the House of Commons:

I heartily congratulate you on the rapid and successful development of our manufacturing, agricultural and other industries. I am, however, advised that their progress would have been still greater were it not that capitalists hesitate to embark their means in undertakings which would be injured, if not destroyed, by a change in the trade and fiscal policy adopted by you in 1879. In order therefore to give the people without further delay an opportunity of expressiny their deliberate opinion on this policy, and at the same time to bring into operation the measure for the readjustment of representation in the house of commons, it is my intention to cause this parliament to be dissolved at an early day.

NOTES.

The session lasted just 98 days.

There is a rumor to the effect that a number of changes are shortly to be made in the cabinet.

Messrs. Stephens and McIntyre, of the C P R syndicate, were in town on Saturday and had a long conference with the ministers.

A special issue of the Canada Gazette will be sent out to-morrow containing the proclamation of the dissolution of parliament. Nominations will be fixed for June 13 and polling on the 20th.

Chiefs of Police Forces.

The various chiefs of police in the Dominion will hold a two days' convention at Hamilton, commencing on June 6. A large attendance is anticipated.

THE WEATHER BULLETIN.

WASHINGTON, *May 18, 1 a.m.—Lower lakes: Warmer; fair; light variable winds, followed by stationary or falling barometer.*

—Now that winter has well commenced we would advise our readers against using pills containing calomel and other injurious substances, as there is great danger of catching colds after their use. An excellent substitute for pills is a vegeable preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier.
