Arr. Wiman is such an expert at noodwink; its, drawing up prospectuses, "roping in" and "talking over" people, that we do not give him much credit for either accuracy or veracity. The associated press reports made him an Annexationist in his sestimany at New York before the Internate Committee; the next day fore the Interstate Committee; the next day he desied it because it was found that his bindeness was burting his friends over here. But the reports of the New York papers go to show that he talked Annexation straight. The Herald's teport says:

Mr. Wiman was in favor of Commercial Union of the potition effect of repealing the bonded haw would be a bad one in Canada and would retard the entry of Canada into "this great constellation." Within five years Mr. Wiman thought Canada would have Commercial Union with the United States, and that would pracede and mast pacede political Union. The present state of affairs could not grist, as with the death of Sir John Macdonald, for instance, would come "the deluge."

Queen's Park presented a yery animated appearance yesterday, througed as it was with those who through the week full at their daily

these who through the week toil at their daily task. Almost all were decked in gay attire, and had it not been for the relees of various senious self-made ministern who examently, if crudely, preached the Christian doctrines the scene might have been mistaken for one in the gayer sister city of Montreal.

In one place a detachment of the Salvation Army had located itself, and by its frequent "volleys" and bearty singing attracted a good-sized uddence. Ray G. W. Wilkinson was the only fortunate obsessor of a slightly elevated practform. His religious platform was the customary one. He, too, was listened to by a large though clanges congregation. customery one. He, too, was listened to by a large though giangiag congregation. Nearer the centre of the Park a florid faced individual with a straw hat held forth on some topic hendled is so indefinite a manner that it was difficult to understand what he was talking sould. In close proximity to the man of the premature summer head-gear a tall man with a plug hat was sonversing with a companion about witches. you relieve there ever were witches?

"Tes, I do," was the decided answer.
"Yes, I do," was the decided answer.
"Of course every Christian must believe in them." said the triend, "because they are spoken of in the Rible."

Then the distener strolling visewhere came to a kind of open air sacred concert party. The music was sufficiently sweet, even if the performers were not very quitwated, to held a large crown silently attentive.

it, and this very locality \$3000 extra to have a station at this village with the expectation of cetting an easy and profitable market for their wood and timber, which are the chief preductions of this section. But now when the C.P.R. his got possession of the road the rates for transportation of timber have increased so much that we can scarcely get money enough to may for cutting and drawing to the station. One of the principal buyers along the line says the rate from Durham to Suspension Bridge is 10c. per 100 lbs., and the weight of three car loads is charged 60,000 lbs. and costs at that rate \$60. The rate from Dundalk (a town eight miles north of here) to Suspension Bridge is 15c. per 100 lbs., and the weight of a three car load is dilled. at 2,000 lbs. costing us \$111.60 (nearly double). The rates were raised three cents per 100 at the commencement of the whiter. Ties can be shipped from Wiarton through to Chicago, but no man could ship them from Dundalk through, because of high rates. The result is that while at Wiarton the farmers can get 25c., for ties, at Dundalk they can only get 17 cents. Railway fares in this locality are proportionately increased. The cause of aliths, in any opinion, is that cirr M, P.'s have passes over the C. P. R. and therefore are afraid to speak out. Now, Mr. Editor, what about your Railway Commission? Are the people here to have no redress? Lot those in authority take warning, for next, election will decide who our M.P.'s are to be. of rain.

Ayer's Sarsaparilla, by its action on the blood, relieves this condition, and restores the joints to good working order.

Ayer's Sarsaparilla has effected, in our city, many most remarkable cures, a number of which baffled the efforts of the most experienced physicians. Were it necessary, I could give the names of many individuals who have been cured by taking this medicine. In my own case it has certainly worked wonders, relieving me of

Rheumatism, after being troubled with it for years. In this, and all other diseases arising from impure blood, there is no remedy with which I am acquainted, that affords such relief as Ayer's Sarsaparilla.—R. H. Lawrence, M. D., Baltimore, Md. Ayer's Sarsaparlia cured me of Gous and Rheumatism, when nothing else would. It has eradicated every trace of disease from my system.—R. H. Short, Manager Hotel Belmont, Lowell, Mass. I was during many months, a sufferer from chronic Rheumatism. The disease afflicted me grievously, in spite of all the remedies I could find, until I commenced using Ayer's Sarsapurilla. I took several bottles of this preparation, and was speedily restored to health.—J. Fream, Independence, Va. ily restored to pendence, Va.
