maselman & Day to J. J. Dixon & Co.: Wheat heavy all day, closing 91c, ½c lower than Satty. The cause of weakness was the movel. Receipts at seaboard points were large, eshipments were very small and cable news ressing. The only bullish circumstances were room is estimate, Europe's requirements and visible decrease, but the items brought very fresh buying orders and prices sagged under weight of offerings. Corn was in good ded from shippers, and the large business reed from the seaboard for export induced e new speculative buying and prevented any ine. Oats were depressed under receipts of hogs, RICE LEWIS & SON

Provisions were depressed under receipts of hogs, which caused heavy outside selling. Packers were large buyers at times and held the market from a severe break. We think the hog receipts will check the bull movement for the present and advise sales on rallies for a quick turn.

Guff From Gotham.

Henry Allen to J. J. Dixon & Co. The market went down to-day, nearly all the stocks on the list being quoted at the end of the day at figures below those of the closing of Saturday. It is very difficult to assign any satisfactory rearon beyond the local impulse as an explanation of the barrian are improving a favorable opportunity to purchase at low prices in order to make sales later on at large profits. Nothing in the existing condition of affairs justifies the action of the market.

There has been a very large gain in deposits of the banks, and an ample fund is ready to begin operations in the market at the culmination of the present movement.
