Investors of large or small means wishing a safe and steady income should invest now in the stock of the New England Theatre Company, incorporated in 1891, with a guaranteed dividend of 12 per cent. per annum, payable semi-annually (Jan. and July). This corporation, with the assistance of well-knows citizens of Toronto, will erect a magnificent theatre in the city of Toronto at an estimated cost approaching \$100,000.

We desire to make this a co-operative enterprise, which will be safe, sure and solid and, as it is a well-known fact that enterprises of this description offer large returns, and when properly managed are absolutely safe; we have, with this in view, decided to offer a limited number of shares of the treasury stock for sale at the par value of \$10 each (full paid and non-assessable).
