The stampage of the St. And we stated the season of the St. And th

Als miles travel. Why should the line from Halfax to St. John be taken to Shediac. Innce Committee, San Francisco has become when it can come by way of Dorchester fully crowded with desperate characters, and the 29 miles shorter; a giance a: the map will gove this. The measured distance from trand Falls, by the railway survey, is only of a satisfactory character. The weather of difference is caused by the road influence of gold from the different sections of the mining regions was steadily on the locrease.—New and most extraordinary discoveries of gold were almost of daily occurrence.

Stant Lawrence is 30 miles less than by lake Temiscouati. With these deductions 408 miles travel. Sint Lawrence is 50 miles less than by the steamer Miner was burnt to the water series will find, even taking his captain Clark and the fireman, were hadly own figures, instead of 659 miles from Halifax to Quebec via St. John it is only was burned to death. of Smiles. Will it not be better then, to allow the main Trunk Line to pass through the centre of New Brunswick, touching the City of St. John, Fredericton, Woodstock. Grand Falls, Madawaska—a country abound the persons, had been mardered by the Indians of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the project of steamer Communication because the persons of the
