

The Weekly Monitor.

WEDNESDAY, APRIL 5th, 1882. THE NIOTAUX RAILWAY.

We have been favored with a copy of the Act in re the above railway, passed during the late session of the Legislature, and we think it is quite satisfactory...

The Governor in council shall not be bound to make any payment of subsidy to the Nova Scotia, Nictaux & Atlantic Central Railway Company until the security mentioned in clause 13 of the agreement between Edmund Water Plunkett and the Government of Nova Scotia, bearing date the 1st day of September, A. D. 1881, and referred to in the Act of the present session, entitled, 'An Act for the consolidation of the Nova Scotia Railways, shall have been furnished to the Government, or in case such security is not furnished, the said funds shall be deemed available for the purposes of the said subsidy. Then and as soon as the Government has been furnished with said security or the other funds above referred to shall be available or approved for the payment of subsidy, the Government shall at once notify the Company in writing of its readiness to pay said subsidy in the manner provided by the Act.'

Our readers will perceive that should the Syndicate fail to put in their securities the Government can refuse to notify the Company to proceed with the work on the ground that they have not sufficient available funds where-with to pay the subsidy. Even should the Syndicate be compelled to forfeit the £52,000 now deposited with the Government, the latter can claim that under the Act, they are not obliged to allow the Company to proceed for the forfeit would amount to only a trifle over \$25,000, and the balance of the subsidy is, we believe, \$345,000. They would be \$92,000 short. The Act does not bind the Government to notify the Company unless sufficient security is at the disposal of the Government to pay the full amount of the subsidy, therefore, as we said before, the work will still be entirely at the mercy of the Government. The people of this and Lunenburg Counties have, we think, been needlessly kept without the road, and the disbursements against former contractors without the money due them for at least three years, and we do think that the insertion of the 25th section of the Act is hardly fair to our people. As, however, we are to have local election this summer, the Government may consider that it will assist their chances for continuance in power if the Company be permitted to proceed with the work. They will certainly lose three counties if work on the road be not recommenced very soon. Will they take the risk?

BARRETT'S IN COSTA RICA.—Recent advices inform us of a disastrous earthquake in the above province of Central America. Four of the chief towns are reported to have suffered severely, and a large loss of life is said to have resulted in one district. Much property is said to have been destroyed, and the principal citizens of San Jose and Cartago are reported to have been killed. It will no doubt surprise some of our readers to learn that several of the prominent citizens of San Jose and Cartago are Nova Scotians. The latter place has for several years been the residence of Dr. Maurice Chalmers, son of Jno. Bernard Chalmers Esq., of Granville, where he was the first trip of this new arrangement on Monday last. Her day of running will therefore be Monday, Wednesday and Saturday.

—A young horse, belonging to John Rice, Esq., near Bridgetown, broke its leg by getting it in a hole while testing in the woods on Monday last. An effort is being made to save the animal—the broken broken limb has been splinted and the animal is slung up for repairs.

—Sergt. Mason, who received a sentence of eight years imprisonment for attempting to shoot Queen Victoria in the stomach, was discharged, owing to the informality of his trial by Court Martial, as he was not serving in a military capacity at the time of the shooting.

SAD ACCIDENT.—A little four years' girl, daughter of Mr. J. Hennegar Tupper, of Rosette, was so badly burned on Friday last, through her clothing catching on fire, that death ensued after eight hours of intense suffering. The grief-stricken parents have the sympathy of the whole neighborhood.

STOLEN.—Our storekeepers generally appear to be looking forward to a good spring trade, and are putting in various assortments of goods. This applies with great point to J. W. Beckwith, whose windows give a slight index of the contents within, and would seem to indicate that he is going to make a bid at all events for some of the proceeds of the cargo that the Corps is so soon to take from our shores.

OBITUARY.—It again becomes our painful duty to record a vacancy in the ranks of our sterling men, in the death of Mr. H. H. Morse, of Paradise, who died on Wednesday morning last, after a short but severe illness. The deceased was a man distinguished by many worthy qualities of head and heart. He was a consistent member of the Baptist denomination, and was considered as one of our most progressive farmers. He will be most missed in the community with whose interests he was so long identified. He leaves a wife and nine children to mourn their loss.

A cold-blooded murder was perpetrated in Napton, Ontario, on the 27th March, by a man named Michael Lee. It appears that Lee, a servant of the Tebborne House, loved another servant, a fine looking young girl named Margaret Howie, who did not return his affection, and told him she would not marry him. This enraged Lee, who said that Miss Howie should not marry anybody else at all events. No attention was paid to this assertion, however, but Lee meant what he said, and one night when the girl went in the barn to milk the cows he followed her in and split her head open with an axe. After committing the horrible deed he tried to escape, but was captured and lodged in jail to await the punishment he so justly deserves.

—The following items will probably be of interest to our farmers:—THE AMERICAN HORSE DIRT ON FLAX. The Courts of the United States have decided that the 20 per cent duty has been collected on hay imported from Canada is illegal, on the ground that it is not a manufacturing article but a natural product. It is to be paid, only if it be heretofore collected. The decision will enable farmers on the border to dispose of their surplus stock at a reasonable profit.

—Friday next is Good Friday.

—Go to Foster's for your Easter Beef. It is the river is now clear, the ice broke up last night.

—Large quantities of cordwood are awaiting shipment to Boston at Margareville.

—Ten graduates leaved forth from the portals of the New York Medical College, for women, last week.

—Owing to the illness of one of our bands we are compelled to lay over considerable matter till next issue.

—The 5th of June is predicted as the date of the general election for the Dominion.

—Interesting revival meetings in the Baptist Church are being held at Hampton.

—Latest advices from Boston to R. H. Each are not to pay more than ten cents per dozen for eggs until further notice.

—We would refer our readers to the adv. of the Charitable Enterprise of the Grand Lodge in another column. A chance for a fortune.

—Capt. P. Nicholson is having the old barn that stands on the wharf below his house torn down, and intends erecting a substantial warehouse in its stead.

—The annual university boat-race between the Oxford and Cambridge crews, England, took place on the 1st inst., and resulted in a victory for the Oxford crew.

—A circular from Messrs. Jno. S. Townsend & Co., London, G. B., under date of 21st March, which will be found in another column, advises holders of apples to forward as soon as possible.

—The appearance of Robins have been their appearance in considerable numbers and several flocks of wild geese have already passed over towards the summer haunts.

—An obstreperous individual from "Out South" visited our town last week, and got as drunk as "boiled owl." After he had arrived to this town—satisfactory state, he proceeded to inform anyone who chose to listen to him, that he was prepared to clean the town out to order, and on the shortest possible notice. Constable John Clarke, however, suddenly alighted on him and begged him off to the parlor of our jail, to finish his oration.

—We have received a copy of the British American Book and Tract Society's Circular for 1882, from which we make the following extracts:—"The fields of labor have been the shores of Labrador, the coasts of Newfoundland, the Province of New Brunswick and Prince Edward Island, Cape Breton and Nova Scotia. Since the inception of the work eighty-seven colporteurs have been employed. Sales \$128,094.25. Grants to the needy \$9662.73. The books distributed, the standing of the very best of the religious literature of Great Britain and America. The number of family visits made aggregate 324,689. 1320 Protestant families were found destitute of a Bible in their houses, and were supplied. The donations in 1881 were in advance of the preceding year by \$1029.98. The over-expenditure on colportage was reduced by \$1516.23. The stock in the Depository was found in excellent condition, well assorted and new. Everywhere the friends of the cause manifest the deepest interest in the prosperity of the work. Encouraged by these tokens of Divine favor, the Executive Committee has commissioned colporteurs for service as follows:—10 in Cape Breton, 2 in Nova Scotia, 4 in New Brunswick, 3 in P. E. Island, 1 in Newfoundland, 1 to be supplemented by a new one in the summer season. To pay the necessary expenditure of the work this projected, there will be required \$5,000, and to pay a part of the over-expenditure still due on the colportage account, an additional \$500, making a total of \$5,500.

—Meliora," the oration delivered by William Elder, Esq., A. M., before the Alumni of the Mount Allison College on the 1st of June, 1880, has just been published in pamphlet form. A copy has been laid on our table.

SPECIAL NOTICE.—Owing to the storm of last evening it has been decided to repeat the B.E.F. SOCIABLE to-morrow evening (6th) together with the Hierarchy entertainments. The programme will be principally new. By order of committee.

—Until further notice the "Sound" will make three trips per week between Annapolis and St. John. She made the first trip of this new arrangement on Monday last. Her day of running will therefore be Monday, Wednesday and Saturday.

—A young horse, belonging to John Rice, Esq., near Bridgetown, broke its leg by getting it in a hole while testing in the woods on Monday last. An effort is being made to save the animal—the broken broken limb has been splinted and the animal is slung up for repairs.

—Sergt. Mason, who received a sentence of eight years imprisonment for attempting to shoot Queen Victoria in the stomach, was discharged, owing to the informality of his trial by Court Martial, as he was not serving in a military capacity at the time of the shooting.

SAD ACCIDENT.—A little four years' girl, daughter of Mr. J. Hennegar Tupper, of Rosette, was so badly burned on Friday last, through her clothing catching on fire, that death ensued after eight hours of intense suffering. The grief-stricken parents have the sympathy of the whole neighborhood.

STOLEN.—Our storekeepers generally appear to be looking forward to a good spring trade, and are putting in various assortments of goods. This applies with great point to J. W. Beckwith, whose windows give a slight index of the contents within, and would seem to indicate that he is going to make a bid at all events for some of the proceeds of the cargo that the Corps is so soon to take from our shores.

OBITUARY.—It again becomes our painful duty to record a vacancy in the ranks of our sterling men, in the death of Mr. H. H. Morse, of Paradise, who died on Wednesday morning last, after a short but severe illness. The deceased was a man distinguished by many worthy qualities of head and heart. He was a consistent member of the Baptist denomination, and was considered as one of our most progressive farmers. He will be most missed in the community with whose interests he was so long identified. He leaves a wife and nine children to mourn their loss.

A cold-blooded murder was perpetrated in Napton, Ontario, on the 27th March, by a man named Michael Lee. It appears that Lee, a servant of the Tebborne House, loved another servant, a fine looking young girl named Margaret Howie, who did not return his affection, and told him she would not marry him. This enraged Lee, who said that Miss Howie should not marry anybody else at all events. No attention was paid to this assertion, however, but Lee meant what he said, and one night when the girl went in the barn to milk the cows he followed her in and split her head open with an axe. After committing the horrible deed he tried to escape, but was captured and lodged in jail to await the punishment he so justly deserves.

—The following items will probably be of interest to our farmers:—THE AMERICAN HORSE DIRT ON FLAX. The Courts of the United States have decided that the 20 per cent duty has been collected on hay imported from Canada is illegal, on the ground that it is not a manufacturing article but a natural product. It is to be paid, only if it be heretofore collected. The decision will enable farmers on the border to dispose of their surplus stock at a reasonable profit.

AN ANAPOLIS BOY.—We understand that at the annual Women's Convention of Bishop's University, Montreal, Geo. A. Balcom, who was already an M. D., has received a degree from the Medical Department. Dr. Balcom is a son of W. H. Balcom, Esq., of Paradise.

—The S. S. "Copia" left London for Toronto via Halifax 25th March, and will be due at Annapolis about 10th April, and leave for London direct about 14th April. All freight booked for this steamer must be delivered at the Company's warehouse before 5th April, to ensure its going by the "Copia." T. S. WHITMAN.

MONSIEUR TOUT.—A correspondent sends us the following:—"I observed in your last issue of the Monitor that Mr. Frank Vidio is entitled to the belt for trout; but I think it belongs to G. W. Whistler Esq., of Toronto, who took from Lake Simcoe on the 24th ult., three weighing together 7 lbs., one of which measured 17 inches in length, 9 inches in girth and weighed three pounds. Mr. W. caught quite a number of less weight on the same occasion. Do you wish please pass the belt this way."

ANOTHER DEATH.—The sickle of the gripa harvesters, death, has been busy among us lately. On Saturday night last, Mr. Obadiah Parker of Granville, passed away, after a short illness, the immediate result of a paralytic stroke; for some years past he has been in indifferent health, and took no active part in business affairs. He was a worthy man and highly respected by all who knew him. He leaves an invalid wife and three sons. J. G. H. Parker, Esq., Clerk of this Municipality, is his son.

—We have received another communication from Mr. E. J. H. Morse, in answer to our remarks of last week; but we decline to publish, unless as an advertisement. We gave Mr. Morse the opportunity to show the standing of his company in almost a column and a half article in our last issue, and that is about all the advertising we feel inclined to do for a company that we have no faith in, in common with all co-operative insurance.

—An obstreperous individual from "Out South" visited our town last week, and got as drunk as "boiled owl." After he had arrived to this town—satisfactory state, he proceeded to inform anyone who chose to listen to him, that he was prepared to clean the town out to order, and on the shortest possible notice. Constable John Clarke, however, suddenly alighted on him and begged him off to the parlor of our jail, to finish his oration.

It is to be paid, only if it be heretofore collected. The decision will enable farmers on the border to dispose of their surplus stock at a reasonable profit.

Accidents on the Intercolonial—Conductor Geldert Killed.

A collision took place on Thursday morning on the Intercolonial at Grand Lake, between Truro and Windsor Junction, between two special trains, by which Conductor James Geldert lost his life. The trains were both on their way to Halifax, the head special in charge of Conductor Geldert, the other under the charge of Conductor George Logan. Geldert's train left Elmudale at about 3 o'clock. He had a very heavy train composed of coal cars and box cars filled with cattle. Logan's train left Elmudale about an hour and twenty minutes after Geldert's. The train (Geldert's) ran slowly all the way, and in going up the grade near Grand Lake it struck. Conductor Geldert finding that he could not get up the grade backed his train some six hundred yards in order to get a start to run up. Just as he was ready to start or starting to go ahead again, Logan's train came down on him and went crashing through some six cars. Geldert was in the van (the rear car), and he was struck out by the engine of Logan's train. He was thrown out of the car and he was otherwise hurt. He only lived about twenty minutes after he was picked up. The engine driver and firemen of Logan's train struck to their engines and while the engine went through the hind car and turned over some six box cars. A wrecking train was sent from Truro at once with about forty men who set to work clearing the track. Conductor Geldert had been on the Intercolonial about seven years, and was a most efficient officer. He leaves a widow and three children.—Herald.

The funeral of the deceased took place on Sunday last at Truro. Special trains, carrying free all those who wish to attend the funeral, were run from Halifax and Pictou, and took large numbers from these places and from points along the line. An immense number of people attended, making the funeral the largest ever held in the town. The Rev. Mr. Kaulback (Episcopal) conducted the service in a most impressive manner.

A Flat Contention.—Wm. Munro, carpenter, writes to the editor of "The Globe" from Winnipeg, March 21st, He says:—"Will you kindly allow me space in your paper to controvert a paragraph published by J. B. Ferguson, relative to my case. Mr. F. says:—"I have noticed in a large number of Ontario papers paragraphs which I have no doubt have been published in good faith stating that the supply of mechanics in Manitoba is in excess of the demand. He says:—"I have been seven years a resident of Winnipeg, and at no time during that period to my knowledge has such been the case." I have to say that this statement of Mr. Ferguson's is grossly incorrect, for there has been great suffering and no work at all. For one room, 12x14 feet, you must pay from \$15 to \$25. For a 2x2, 25c to 45c; for a 2x2, 20c to 25c per lb; wood, \$8 to \$10 per cord, and only 10¢ per cord; coal, \$18 per ton; mechanics have to pay \$25 for common land, and other things similarly high. There are hundreds of people here now in canvas tents. There is no accommodation, and mechanics are spending what they earn in the streets, and when they get into bed they cross the line. If Mr. J. B. F. would write about teachers and not about mechanics, he might come nearer the truth, but perhaps he is paid by the C. P. R. or some other firm which wants men to work for it. That is the way everything is done here."

—James Kelly, of New Ross, Kings Co., lost four children last week, by diphtheria. They all died on one day, and were all buried in the same grave. Other families in the vicinity have lost one or more children by the same disease.

FRANCIS IN BOSTON.—Norman Crane of Cornwallis, Nova Scotia, has not a very good opinion of Boston, from the fact that he met a man on Long wharf, on Friday, who agreed to get him a position as driver of a team, but inveigled him into a game of "three-card monte," and with the assistance of a friend whom the pair met on Kneeland street, forced him out of \$3—St. John Star.

—James Kelly, of New Ross, Kings Co., lost four children last week, by diphtheria. They all died on one day, and were all buried in the same grave. Other families in the vicinity have lost one or more children by the same disease.

FOR SALE.—The FARM at MARGARET VILLAGE, in the County of Annapolis, lately owned and occupied by W. P. STRONACH, containing 82 ACRES, with House, Barns, etc. Will be sold low and on easy terms. Apply to J. N. & T. RITCHIE, Halifax.

FOR SALE.—That desirable little property known as the FALLESEN PROPERTY, situated on Water Street is offered on easy terms. If not previously disposed of before the 1st of May next it will be sold at Public Auction on that day at 11 o'clock a.m. Apply to W. H. HART, Auctioneer, 110 Water Street, Bridgetown, April 5th, 1882.

Auction.—THE STEAM SAW AND GRIST MILL with Thrasher combined, situated at Grandville Ferry, will be sold at Public Auction, on

WEDNESDAY, 3RD DAY MAY, at 11 o'clock a.m. on the grounds. For further particulars apply to JAS. E. SHAFER, Wm. A. PIGOTT, Auctioneers, Grandville Ferry, April 4th, 1882.

Ship Carpenters Wanted.—30 Ship Carpenters wanted at Kingsport. Good wages and steady employment. Apply to F. B. CRICHTON, Kingsport, Kings Co.
