### ENCOURAGE MOTOR TRAVEL

WHEREAS, improved roads and motor cars have made the beauties of Nova Scotia more easily accessible than formerly to the United States motorists, the Council of the Halifax Board of Trade is of the belief that this money spending class can now be induced to come to Nova Scotia in much larger numbers than heretofore, provided the attractions of the place are properly presented to them.

### ROMANCE OF LOST TREASURES

Everybody is interested in treasures. It is nothing unusual that they should be and it isn't anything unusual either for Robert Brunton to select that idea as a basis for the fifteen-episode serial, "The Avenging Arrow," starring Ruth Roland, which has made for Pathe and which will be shown on the screen of the Primrose Theatre next Thursday and each Thursday thereafter for fifteen weeks.

THE WORLD'S CHAMPION TYPIST  
George L. Hossfeld, of Paterson, N.J., won the title the other day with an average of 136 19-80 words a minute for an hour. Among the competitors was Miss Millie Woodward, the English champion.

## FACTS ABOUT SEA FISHES

### Pollock, Captured Extensively, Not Popular as a Fresh Commodity.

The pollock, captured extensively by our deep sea or bank fishermen, along with cod and haddock, is for unaccountable reasons, not popular as a fresh commodity. It is closely allied to the true cod, is of fine flavor, and may be readily and cheaply procured in our Canadian markets, especially during the months of June, July, August and September. One authority, endeavoring to locate a reason for the apparent deep-rooted prejudice, considers it due largely to the fact that the pollock destroys better fishes. It is true that the pollock is very destructive to the young cod, surrounding the schools and driving the fish to the surface where they fall a prey to the voracious pollocks attacking below and hundreds of sea gulls, which with astonishing voracity and precision pounce upon them from above. But this cannibalistic tendency is not confined to the pollock alone. It is a trait of many of our sea fishes.

## MIDDLETON COUPLE HONORED

### The Citizens of the Town Gave Mayor and Mrs. A. D. Durling a Surprise

An exceedingly jolly time was spent at the home of Mr. and Mrs. G. F. Freeman, Middleton, Tuesday evening, Mayor and Mrs. A. D. Durling, who had been celebrating their tenth wedding anniversary by dining with Mr. and Mrs. Freeman were suddenly aroused to the fact that the west end of the town seemed to be unusually noisy. On going to the door with their entertainers, they were confronted by thirty-five or forty of their friends, armed with bugles, horns and mysterious looking parcels. After scattering the "bridal couple" in true old-fashioned style, the house was thrown open to the invaders. Hearty congratulations were the order of the day, and after a short time the surprised couple were led to seats of honor. Two handsome tin boxes (bread and cake) were placed before them and the "bride" was invited to investigate the contents. Instead of edibles, all the necessary paraphernalia for cooking the edibles rose to view. Aluminum, pyrex, agate and tinware passed in review and were duly admired. Several other nice gifts, outside of pantry use, were also among "those present."

### BOLD BURGLARY AT YARMOUTH

A bold burglary and an attempt to set fire to a Maine street block, took place some time Tuesday night when burglars removed one of the glass panels of the front door of William Starr's clothing store, entered the shop, and pilfered a quantity of goods consisting of men's overcoats, mackinaws, other furnishings, and some jewellery. They made their exit by a rear door, but before doing so attempted to set the building ablaze by starting a fire under a counter at the back of the shop.
