### Kings Mutual Fire Insurance Company

"Save half your insurance premium by insur-  
ing in the Kings Mutual Fire Insurance Company.  
B. C. Goodwin, Granville, is our agent for the terri-  
tory from Bridgetown to Stoney Beach, on the north  
side of the river."

### Selling by Long Distance Tele- phone Means Selling Economically.

Bill and Jack are doubtless fine fellows and excellent  
men on the road, but you know to your cost how large  
a chunk of their high-priced time is necessarily wasted  
in the railway cars; and how small a bit of territory,  
under present winter conditions with motors tied up,  
they can cover in a day.

Put either of them or some other good salesman at  
the transmitter of a Long Distance Telephone in your  
office with a list of customers in his hand, and note how  
your sales costs drop.

He can jump by the Long Distance Telephone to  
North, to South, to East and to West of the Province—  
and beyond it—in quick time, just as your plans suggest;  
and you pay the Long Distance charges only when you  
get Long Distance Service.

THESE CHARGES ARE MIGHTY MODERATE AT THAT.

### Maritime Telegraph & Telephone Co. Ltd.

#### RUNNING INTO DEBT

While on a trip up North last Sum-  
mer we were conversing with a friend  
of boyhood, now a merchant in the  
town of Hanover. Being naturally  
anxious to learn how he was getting  
along, we enquired how he found busi-  
ness. "Business isn't too bad," he  
replied, "if I could only get the money  
in that is owed me." Right here in a  
nut-shell is the source of trouble  
or halt the people in business today.  
credit. People who are perfectly  
good financially think the merchant  
can run his business on wind, and,  
knowing they are perfectly good, let  
their account run up two, three or four  
hundred dollars, covering as many  
months, and never think of settling  
their indebtedness. The merchant,  
through fear of losing their trade,  
will not ask for a cheque, even though  
he himself is pressed for funds. Then  
there are the smaller customers, who  
ask for credit and are always in debt.

#### NOT HORSE'S KICK

Kentville Man Charges He Was As-  
saulted—Accused Is Sent To  
For Trial.

Kentville.—When Ira Kaizer, of  
Brooklyn Street, was taken from the  
place of Allan Kaizer, Kinman Cor-  
ner, to the hospital at Berwick, he  
was reported there as having been  
rendered unconscious by a kick from  
a horse. An operation was necessary  
to save Kaizer's life, and after some  
time he regained consciousness and  
subsequently laid information against  
Lorne Moody for assault.

This case was up for trial at Kent-  
ville before Stipendiary Strong and  
the evidence of Dr. Bethune, of the  
hospital staff at Berwick, was taken.  
The trial was continued at the resi-  
dence of Kaizer, where the evi-  
dence of Kaizer was taken.

The evidence of Kaizer was that  
he and Henry Moody went together  
to the place of Allan Moody where  
they stayed for a meal. Lorne Moody  
and Kaizer got into an altercation  
over the payment of taxes on a place  
which Kaizer sold him in 1919. Sub-  
sequently Kaizer was struck on the  
temple and rendered unconscious and  
received another blow on the head.  
He knew nothing further until he  
was in the hospital. His information  
laid against Moody accuses him of  
causing the injury which he received.  
After Kaizer's evidence was taken  
Stipendiary Strong committed Moody  
for trial in Supreme Court. The de-  
fendant furnished \$6,000 bail for his  
appearance.

Kaizer has a wife and family and  
will likely be incapacitated for work  
for many months.

#### 165,000 MEDALS AND MEMORIALS Awaiting Claimants At The Federal Capital.

Ottawa.—Over 165,000 medals and  
memorials of the Great War are going  
begging here, as the result of an ab-  
sence of claimants. The Dominion  
Government incurred a considerable  
expenditure in having these made, so  
that those who fought for the Dom-  
inion would have some enduring mem-  
orials of the heroic services rendered,  
but because the addresses of the in-  
tended recipients are not available  
they cannot be despatched. In a large  
number of cases they have been sent  
out, but have returned in the mails  
as the result of incorrect addresses.

Altogether 2,857 of the 1914-15 stars  
94,896 British war medals, and 57,228  
victory medals are available for issue,  
and 5,256 memorial plaques, and 4-  
732 memorial scrolls, issuable to the  
next of kin, nearest relatives of de-  
ceased soldiers, are also ready to be  
mailed, together with 248 memorial  
crosses issuable to mothers and wid-  
ows of those who paid the supreme  
sacrifice. Practically all these pla-  
ques, scrolls and crosses have been  
despatched and returned by the postal  
authorities undelivered. In regard to  
the stars and medals, a medal applica-  
tion card with a notification that  
medals were available, has been for-  
warded to the last known address of  
the persons entitled to these medals.  
Persons entitled to either medals or  
memorials are urged by the of-  
ficials of the Department of Soldiers'  
Civil Re-establishment to make im-  
mediate application to the Deputy  
Minister of the Department of Na-  
tional Defence.

#### TO CUT OFF LIQUOR

Quebec Confering With U. S. Author-  
ities on Prevention of Rum-  
Running.

Quebec.—Rum running, carried on  
between this Province and the border  
states, is to be checked, and the re-  
sponsibility of this Province being a  
source of supply of liquor for the  
United States may no longer be im-  
puted to the Province of Quebec if  
pour-parlers now on between the Que-  
bec Liquor Commission Inspectors,  
with the assent of the Province, and  
the border states authorities, are suc-  
cessful in evolving a satisfactory plan  
of campaign.

#### KENTVILLE COUNCIL SEATS GO A-BEGGING

Kentville.—The Town of Kentville  
established a unique record, which  
has only been duplicated once before  
in this Province. When nominations  
for Mayor and Councillors closed at  
five o'clock it was found that only one  
Councillor had been nominated to fill  
the vacancy left by the expired terms  
of Councillors Roop, McIvor and  
Cross. Mayor Chesley was the only  
nominee for the office of Mayor, while  
Monson Carroll, a former Councillor,  
was the only one nominated for the  
Council. It is not known how this  
lack of nominations occurred, as up  
to last year there had always been  
a strenuous election for all offices.  
Four names for the nominations have  
been talked about for the past three  
days, and it is generally supposed that  
each candidate withdrew to save the  
expense of an election.

This will be Mayor Chesley's third  
term as Mayor, an office which he  
has filled very acceptably for that  
length of time, as evidenced by his  
election by acclamation every term.

#### TO HARNESS TIDES OF BAY OF FUNDY

Washington.—A proposal to harness  
the tides of the Bay of Fundy be-  
tween Nova Scotia and New Brun-  
swick, and create one of the largest  
power projects in the world to supply  
industries in eastern Canada and  
Maine, is being studied by engineers  
of the federal power commission, hav-  
ing been submitted by Dexter P.  
Cooper, brother and business associ-  
ate of Hugh L. Cooper, Government  
hydraulic engineer, at Muske Shoals.  
Although it would involve twelve  
millions of dollars and take years to  
complete, some of the features of the  
proposals, as far as it has been ex-  
amined, are regarded as practicable  
by the commission's experts.

The plan for the construction of  
dams five miles long across Passama-  
quoddy Bay on the international  
boundary, with a power plant situat-  
ed between an upper and lower reser-  
voir having a development of approxi-  
mately 500,000 horsepower.

A number of gates would be in-  
stalled in the bay to release the great  
flood tide into the upper pool and  
empty the lower one at low tide. It  
was estimated that a stream of water  
about the extent of Niagara would be  
continually running through the gates.  
The feasibility of building huge  
dams without destroying the harbor  
in Passamaquoddy Bay is being stud-  
ied by the experts.

While Cooper proposes to install  
ship locks in the dam to offset this  
objection, the engineers believe their  
success would be doubtful due to ex-  
tremely rough weather continually  
sweeping the harbor.

All changes of copy for ads. MUST  
be in by 12 noon on Mondays each  
week.

#### MINE-ORDERED SOLD

Minutie Coal Company Goes To  
Satisfy Judgment For Em-  
ployees' Wages.

Amherst.—The property of the  
Minutie Coal Co. at River Robert,  
against which the former employees  
have a judgment for more than \$40-  
000, is to be sold here on February  
20th, according to an order granted  
by the court. The property includes  
the coal mine, mining leases, machin-  
ery and all the goods and chattels,  
owned, occupied or used by the Mi-  
nutie Coal Company in its mining op-  
erations. The solicitor for the miners  
is L. D. Currie, of Glace Bay.

#### AVERAGE AGE OF DEATH IN NOVA SCOTIA

Health Officer Places It At Forty-Four

The Institute of Science met on  
Monday evening in the new medical  
science building, Dalhousie College.  
Dr. Arthur C. Jost, Provincial Health  
Officer, gave an interesting address  
on "A Nova Scotian Life Table."  
This table he had constructed by  
the graphic method. It was shown  
that while the average age at death  
in Nova Scotia for the years 1874-75  
was thirty-five, between 1910 and 1921  
the age period had lengthened to  
forty-four years. In dealing with the  
average age of the living it was  
shown that females have a better  
average than males.—Chronicle.

#### BANK DEPOSITS IN THE MAR- TIMES NEAR \$150,000,000.

Nova Scotia at Present Has  
Nearly 6000 Shareholders In  
Canadian Banks.

Bank deposits in the three Maritime  
Provinces approximated \$150,000,000  
according to D. Macgillivray, of the  
Canadian Bank of Commerce, speaking  
before the Board of Trade yesterday  
afternoon. He said it was a notorious  
fact that the Maritime Provinces in  
their history had organized more  
banks than any other portion of re-  
lative population in Canada.

Nova Scotia had at present 590  
shareholders in Canadian banks, re-  
presenting a par value of \$13,484,000,  
and other Maritime Provinces had 14-  
55 shareholders, representing \$2,453,  
000. The total for the three Provinces  
was about one-eighth of the paid up  
capital of all the Canadian banks.

#### INJECT HOT STEAM TO CURE ASTHMA

Inhalatorium Is Important Part of  
Hospital Equipment in Paris

Within ten years every hospital and  
sanatorium will be equipped with a  
bronchitis, laryngitis and other mala-  
dies of the respiratory organs, Dr.  
Brona said today in referring to an  
unique establishment which is operat-  
ed in the town of Tourcoing. The  
patients place tubes in their mouths  
inhaling a jet of hot steam. This is  
followed by antiseptic steam which  
cleanses the lungs. Dr. Brona asserts  
that the inhaling method is a sure  
cure which will soon become world-  
wide, revolutionizing present meth-  
ods.

#### HAS ROWED 65,000 MILES ON THAMES DURING HIS CAREER.

Retired London Waterman, Now 79  
Years Old, Recalls Some of His  
Experiences.

LONDON.—Living at Chelsea, with-  
in almost a stone's throw of his  
former "beat", is a man who has paddled  
65,000 miles on the Thames.  
This record is held by Jack Spencer.  
He is 79, and for the greater part of  
his life he has worked within sight  
or actually on the river—first as  
apprentice to a firm of boat builders,  
and then as lighterman, and, even-  
tually, as waterman to the Port of  
London Authority.

He followed the latter occupation  
for 21 years, until retired. His patrol  
extended from Chelsea to London  
Bridge, a distance of 10 miles.

"I rowed the inspector he says and  
our duties were to look out for a  
wreckage and obstruction, and to see  
that, generally the laws of the river  
were being obeyed. Within my ex-  
perience, the river traffic has speed-  
ed up considerably due to greater use  
of steam.

"If a pile went astray we had to  
report. It may interest you to know  
that the men you see from the bridges  
working on the mud with long rakes  
are keeping the moorings for barges  
in order, as an accumulation of mud  
would cause the craft to slip, and she  
would easily drag out a pile. Their  
work is called "looting the mud," and  
the men themselves are known as  
"mud-looters," or "barge cleaners."

"They get well paid.  
"I have saved 11 lives. Once a man  
jumped from Westminster Bridge,  
and I got him out and "worked" him  
all the way up to Lambeth Pier.  
"He then began to speak, and said,  
"Mary Ann, you will never see me  
again." I cried, "Bravo, you're all  
right," and smacked his cheek, where-  
upon he shouted, "Stop, you're kill-  
ing me!"

"Most of the cases were attempted  
suicides they abused me roundly for  
saving them."  
In his younger days Mr. Spencer  
won trophies at regattas. "I'm quite  
fit now," he said, "and could row  
against the best of 'em." Strangely  
enough his hands are free from corns  
or callouses, and his advice to young  
oarsmen is to "take it easy."

#### C. N. R. EXAMINES LIGHT RAIL PLAN

Experts in Europe to Look Over  
System in Operation

LONDON.—Motive and electrical ex-  
perts of the Canadian National Rail-  
way are in Europe investigating the  
possibility of adapting new methods  
of transportation to thinly-settled  
areas such as exist in Canada by  
means of light railways and special  
motive power of various kinds and  
arrangements for co-ordinated load-  
ings from light to heavy railways.

If found practicable this plan means  
enormous gains in the task of set-  
tling, new far out districts by bring-  
ing them within easy communication  
of main lines.

#### APPLE SHIPMENTS TOP LAST YEAR'S

Exports to Date Exceed 1922-23  
Volume by 191,977 Barrels  
—Week's Sailings.

Apple shipments to date from the  
port of Halifax to United Kingdom  
ports exceed last year's shipments by  
191,977 barrels, according to the state-  
ment compiled by Farness Wither &  
Company for the week ending Jan.  
27th. With the total number of 39-  
064 barrels transported last week by  
three steamers. The Cunard liner An-  
tonia, London Corporation and Man-  
chester Hero, the grand total for the  
present season was boosted well over  
the million mark, or exactly 1,011,977  
barrels. This is no indication, stated  
one prominent shipping man, that the  
total figure for the year will greatly  
surpass the 1922-23 mark as it is ex-  
pected that the present shipping sea-  
son will be over probably a month  
before last year.

The London Corporation, with 19-  
389 barrels for Liverpool took the  
heaviest consignment last week, sail-  
ing from here Jan. 22nd. The Cunard  
liner Antonia, which left on the same  
date, came next with 10,234 barrels  
for London, and the Manchester Hero  
on Jan. 23rd for Manchester with 8-  
741 barrels.—Herald.

#### PORT LORNE

Mrs. Aseneth Brinton is visiting  
Rev. E. P. Caldwell and Mrs. Caldwell,  
Bridgetown.

Miss Mary Hamilton, of Hampton,  
is spending a few weeks with Mrs.  
Anderson.

We are glad to see Mr. T. W. Tem-  
pleman out again after his recent ill-  
ness.

Mr. Aubrey Beardsley is spending  
the last week with his brother, J. A.  
Beardsley, in Clarence.

There has been no school this week,  
our teacher, Mrs. Hall, being sick.  
We hope soon to see her out again.

We hear that Mr. Wm. Grant is  
starting a Fox Ranch. We wish him  
success.

Messrs. Walter and Charles Ander-  
son have returned to New Britain,  
Conn.

#### MILFORD

Mrs. Arthur Orde, of Graywood,  
spent the week-end with her sister,  
Mrs. Elizabeth Stalling.

Miss Dorothy Gates has returned  
after spending a few days with her  
sister, Mrs. Robert Wood, at Lequille.  
Miss Edna Clayton, of Young's Cove,  
is visiting her grandmother, Mrs.  
Elizabeth Stalling.

Mr. and Mrs. Charles Sullivan re-  
cently visited her sister, Mrs. George  
Cress, at Clementsvale.
