**THE GENUINE SILVER-STEEL,  
Lance Tooth  
CROSS-CUT SAW!**

It stands without a rival, and is the fastest cutting saw  
in the world. It has beaten the best Canadian and  
American made saws 33 per cent in every contest. Its  
superiority consists of its excellent temper. It is tem-  
pered under the secret Chemical Process, which toughens  
and refines the steel. It gives a finer and keener cutting  
edge, and will hold it twice as long as any other process.  
We have the sole right for this process for the Dominion  
of Canada.

None genuine that are not like the above cut, with  
registered trade mark with the word "The Lance," and  
Maple Leaf with our name. Price \$1 per foot.

CAUTION.—Beware of Counterfeits. There are in-  
ferior counterfeits on the market, which are intended  
to be sold at a high price upon the reputation of this  
saw. We will send to any address a saw exactly like  
any counterfeit, warranted equal in quality or no sale,  
at 60c. per foot. Therefore do not be humbugged into  
paying a first-class price for a second-class saw. A  
fact to bear in mind is that if the material and temper  
are not of the very best quality the shape of the teeth  
amounts nothing. A saw, like a knife, will not cut  
fast without it will hold a keen, cutting edge. We have  
cut off a 14-inch sound basswood log in eight seconds  
with this saw. Manufactured only by
