GENERAL COMMISSION MERCHANTS

COR. COMMISSIONER & PORT STREETS,

MONTREAL.

EXCLUSIVE application is given to the COMMISSION BUSINESS, and personal attention bestowed on each transaction. The utmost promptness in sales and returns is uniformly observed. The lowest scale of Commissions consistent with responsibility is adopted, and due care taken to avoid incidental charges when practical. Consignments are kept regularly advised by letter, circular and telegram, of all matters of commercial interest. Consignments designed for sale in any of the several British or American markets will be forwarded to strictly reliable agents, and advances granted without expense beyond actual outlay.

AKIN & KIRKPATRICK,

GENERAL COMMISSION MERCHANTS

No. 2 Ontario Chambers,

CORNER CHURCH and FRONT STREETS,

TORONTO.

TO afford extended facilities to our numerous correspondents, we have opened a branch of our business at the above central stand. Consignments of the several descriptions of Country Produce will have prompt and careful attention. Sales will be effected with all prudent despatch, and returns made with promptness and regularity. Commissions will be on the most liberal scale, and all needless expenses carefully avoided. Advances made in the customary form. Orders for Grain, Flour, Provisions, &c., are respectfully solicited, for the judicious execution of which our experience and standing afford the amplest guarantee. Reliable information respecting markets, &c., regularly supplied.

AKIN & KIRKPATRICK,

PATTERNS AND DRAWINGS FURNISHED.

3-ly

THE CANADA BRICK MACHINE.

Patented 1868.

THIS Machine will mould 15,000 Bricks PER DAY, with the attendance of one man to put in the Clay, one man or smart boy to attend to the Moulds, three strong boys to wheel off the Bricks and back them up, and a small boy to sand the pallets.

To make SLOP BRICKS, less attendance than the above will be required.

By an alteration in the relative speed of the pinion and crown wheel, it will mould

30,000 BRICKS PER DAY.

The Clay can be moulded softer than by ordinary Machines, and the great pressure applied gives more solidity and strength to the Bricks. They also retain their shape, and dry much quicker.

This Machine is inexpensive and simple, and is adapted for either steam or horse power.

If a stone or other obstruction prevents the Moulds from moving forward, the Machine will not get out of order, but regulates itself.

Provision is made for giving the pressure required for soft or for stiff Clay.

The corners are always well filled, and the Bricks turned out will all be fit for use.

It is undoubtedly the most perfect and suitable Machine for making Bricks yet introduced into use.

NINE of these Machines worked by Steam, and TWO by horse power can be seen in actual operation at the Steam Brick Manufacturing Establishment of the undersigned, Head of Fallum Street, Montreal.

The CANADA AUTOMATIC BRICK MAKING MACHINE is manufactured and for sale (with the right of using it) by the Patentees.

THE PATENT RIGHT

For towns, counties, or districts, will be sold on application to

BULMER & SHEPPARD,

Patentees,

Office: 212 PARTRIEUX STREET,

MONTREAL.
