

FRESH (UNDRIED)

# Kola Nuts

## DIRECT FROM AFRICA.

NOTWITHSTANDING the statements of certain competitors that the fresh Kola nuts cannot be imported from Africa on account of the length of time it takes to get them here, and the "fever laden districts" through which they must pass, we are still receiving importations every month, and supplying samples of the fresh nuts to all members of the medical profession who inquire for them. During the excessively cold weather it was not practical to bring them in on account of their liability to become frost bitten. Our supply, however, carried us through until quite recently, and we are now pleased to state that we have just received the first spring shipment. It is a very handsome lot indeed, and we shall be glad to supply our medical friends with samples from same on request, as well as with full literature on the subject, accompanied with a reprint of

"The Use of Kola in the United States Army,"

which test was made with fresh African Kola nuts and their preparation, Kolavin, furnished by us.

## INTEGRITY.

Physicians are called upon almost daily to test the integrity of medicines. Their prescriptions call for combinations that test the intelligence and integrity of the druggist. New preparations are presented for their judgment, and there is constant vigilance on the part of the doctor needed to maintain the high standard of even the remedies they prescribe.

We believe that the integrity of Scott's Emulsion of Cod-liver Oil and Hypophosphites is never doubted. We ourselves know that the high standard of our preparation is always maintained, and we believe it justifies the confidence of physicians. There is no substitute for Scott's Emulsion in cases where Cod-liver Oil is indicated.

Physicians in their practice will find Scott's Emulsion always the same. It does not separate or become rancid. The ideal combination of the finest Norway Cod-liver Oil, Hypophosphites and Glycerine is found in no other remedy, and the way children take it shows its palatability.

Physicians know better than we when Scott's Emulsion is needed. We merely claim to know better than anybody else how to make a perfect mechanical emulsion of Cod-liver Oil, and we have the best means for making such.

*We hope physicians will pardon a word of caution when we call their attention to the growing evil of substitution. If Scott's Emulsion is prescribed, Scott's Emulsion, and not an inferior substitute, should be taken by the patient.*
